*Spenserian Moments* Gordon Teskey,2019-12-17 Gordon Teskey restores Edmund Spenser to prominence revealing his epic *The Faerie Queene* as a grand improvisatory project on human nature Teskey compares Spenser to Milton an avowed follower While Milton s rigid ideology is now stale Spenser s allegories remain vital inviting new questions and visions heralding a constantly changing future *The Lithic Imagination from More to Milton* Tiffany Jo Werth,2024-07-08 *The Lithic Imagination from More to Milton* explores how stones rocks and the broader mineral realm play a vital role in early modern England s religious and cultural systems a role that in turn informs the period s poetic and visual imagination The scale of the human lifespan and the gyre like turns of England s long Reformation provide a conceptual framework for the various stony textual and visual archives this book studies The texts and images participate in specifically English histories literary artistic political religious although Continental influences are frequently in dialogue The religious orbit encompasses the Christian rivalry with Jewish culture touches on Christianity s tension with Islam but most intently centers on the antagonism between Catholic and variants of Protestant and Reformed belief The volume features canonical writers such as Shakespeare Spenser Donne Wroth Herbert Milton and Pulter but puts them in company with lesser known religious polemicists alchemists anatomists painters mothers and stonemasons Accordingly the multimedia archive includes drama lyric and prose as well as biblical illustrations tapestries church furniture paintings anatomical drawings and statues The lithic too is capaciously construed as a continuum of rocky as well as mineral forms ranging from bodily encrustations like the kidney and bezoar stone to salt iron limestone marble flint and silicon The assemblage of materials bears witness to aspirational imperial fantasies and looming colonial conquests it engages in both syncretism and supersession upholds and subverts gender hierarchies limns the race making category of hue with desire and supports and sometimes thwarts elitist ideologies of an elect chosen people All come together via the storied pathways of stone as densely material and as a foundation for the abstract imaginary along the *scala naturae* Across the lithic human fold stone promises fascinates betrays As alpha and omega stone can herald salvation or it can threaten with damnation **Renaissance Drama 36/37** Albert Russell Ascoli,William N. West,2010-01-19 *Renaissance Drama* an annual interdisciplinary publication is devoted to drama and performance as a central feature of Renaissance culture The essays in each volume explore traditional canons of drama the significance of performance broadly construed to early modern culture and the impact of new forms of interpretation on the study of Renaissance plays theater and performance This special issue of *Renaissance Drama* on Italy in the Drama of Europe primarily builds on the groundwork laid by Louise George Clubb who showed that Italian drama was made in such a way as to facilitate its absorption and transformation into other traditions even when it was not explicitly cited or referenced Italy in the Drama of Europe takes up the reverberations of early modern Italian drama in the theaters of Spain England and

France and in writings in Italian English Spanish French Hebrew Latin and German Its scope is an example of the continuing force of and interest in one of the most rewarding wide ranging and productive early modern aesthetic modes and a tribute to the scholarship of Louise George Clubb who among others recalled our attention to it Spenser Studies Theresa M. Krier, John Watkins, Anne Lake Prescott, Patrick Cheney, Thomas P. Roche, 2003-07 This text on Spenser covers topics such as Spenser fashioning a past nostalgia and irony Spenser and the Renaissance giving representation to struggle Spenser opening to the future and more

**The Shaping of English Poetry** Gerald Morgan, 2010 This collection of essays is conceived not as a summary of past endeavours but as the beginning of an attempt to present a sense of the wholeness of a distinctively English literature from Beowulf to Spenser The native alliterative tradition of England is represented by its final flowering in two essays on Sir Gawain and the Green Knight and three on Piers Plowman The renewal of English letters in the fourteenth century inspired by continental models in French and Italian is represented by four essays on Chaucer The poetic achievement of these three medieval masters remains unmatched until Spenser announces himself in a third great age in the history of English poetry and this is represented by three essays on the first three books of *The Faerie Queene* Spenser's indebtedness to Langland and Chaucer and his philosophical conservatism in drawing on the thought of Aristotle and the tradition of medieval commentary surrounding the works of Aristotle ensure that the tradition of English poetry in the Renaissance is securely rooted in its medieval inheritance

**Self-Commentary in Early Modern European Literature, 1400-1700** Francesco Venturi, 2019-05-15 This volume investigates the various ways in which writers comment on present and defend their own works and at the same time themselves across early modern Europe A multiplicity of self commenting modes ranging from annotations to explicatory prose to prefaces to separate critical texts and exemplifying a variety of literary genres are subjected to analysis Self commentaries are more than just an external apparatus they direct and control reception of the primary text thus affecting notions of authorship and readership With the writer understood as a potentially very influential and often tendentious interpreter of their own work the essays in this collection offer new perspectives on pre modern and modern forms of critical self consciousness self representation and self validation Contributors are Harriet Archer Gilles Bertheau Carlo Caruso Jeroen De Keyser Russell Ganim Joseph Harris Ian Johnson Richard Maber Martin McLaughlin John O'Brien Magdalena Oarska Federica Pich Brian Richardson Els Stronks and Colin Thompson

*Verse and Voice in Byrd's Song Collections of 1588 and 1589* Jeremy L. Smith, 2016 The author offers close examination of the English language songs of Byrd published in the late 1580s looking at the music texts politics and other aspects of the songs

*Desire in the Renaissance* Valeria Finucci, Regina Schwartz, 1994-10-17 Drawing on a variety of psychoanalytic approaches ten critics engage in exciting discussions of the ways the inner life is depicted in the Renaissance and the ways it is shown to interact with the external social and economic spheres Spurred by the rise of capitalism and the nuclear family Renaissance anxieties over changes in identity emerged in the period's unconscious or as Freud would have it in its literature

Hence much of Renaissance literature represents themes that have been prominent in the discourse of psychoanalysis: mistaken identity, incest, voyeurism, mourning, and the uncanny. The essays in this volume range from Spenser and Milton to Machiavelli and Ariosto and focus on the fluidity of gender, the economics of sexual and sibling rivalry, the power of the visual, and the cultural echoes of the uncanny. The discussion of each topic highlights language as the medium of desire, transgression, or oppression. The section *Faking It: Sex, Class, and Gender Mobility* contains essays by Marjorie Garber, Middleton, Natasha Korda, Castiglione, and Valeria Finucci. Ariosto: The contributors to *Ogling: The Circulation of Power* include Harry Berger, Spenser, Lynn Enterline, Petrarch, and Regina Schwartz. Milton: *Loving and Loathing: The Economics of Subjection* includes Juliana Schiesari, Machiavelli, and William Kerrigan.
