Texts Pretexts:

Contexts, Subtexts and Pretexts Brian James Baer, 2011-04-13 This volume presents Eastern Europe and Russia as a distinctive translation zone despite significant internal differences in language religion and history The persistence of large multilingual empires which produced bilingual and even polyglot readers the shared experience of belated modernity and the longstanding practice of repressive censorship produced an incredibly vibrant profoundly politicized and highly visible culture of translation throughout the region as a whole The individual contributors to this volume examine diverse manifestations of this shared translation culture from the Romantic Age to the present day revealing literary translation to be at times an embarrassing reminder of the region's cultural marginalization and reliance on the West and at other times a mode of resistance and a metaphor for cultural supercession This volume demonstrates the relevance of this region to the current scholarship on alternative translation traditions and exposes some of the Western assumptions that have left the region underrepresented in the field of Translation Studies Text, Context, Pretext H. G. Widdowson, 2008-04-15 Written by a leading researcher in the field this fascinating examination of the relations between grammar text and discourse is designed to provoke critical discussion on key issues in discourse analysis which are not always clearly identified and examined Written by a leading researcher in the field Continues the enquiry into discourse analysis that Zellig Harris initiated 50 years ago which raised a number of problematic issues that have remained unresolved ever since Introduces the notion of pretext as an additional factor in the general interpretative process Focuses attention specifically on the work of critical discourse analysis CDA in light of the issues discussed **Text as Pretext** Robert P. Carroll, Robert Davidson (M.A.), 1992-01-01 This collection of essays in honour of Professor Robert Davidson celebrates a number of notable achievements of this outstanding Scottish churchman and scholar It is published for the occasion of his sixty fifth birthday but it also marks his retirement from full time university teaching and nods in the direction of his having been the Moderator of the General Assembly of the Church of Scotland 1990 91 The guiding principle governing this collection of essays is the notion of the Bible as the generator of other texts and cultural productions The contributors are drawn from Davidson's wide range of colleagues and former students and focus on many different aspects of this generative force within the Bible itself and in materials related to it Contributors include A G Auld J M G Barclay E Best J C L Gibson W Johnstone H A McKay J K Riches and the editor among others *Poetics of the Pretext* Roland-François Lack, 1998 *Poetics of the Pretext* is an original study of the French poet Lautréamont 1846 1870 who was rediscovered by the Surrealists in the 1920s and promoted to the vanguard of theoretical debate by the Telquelists of the 1960s but whose work has remained largely ignored or misinterpreted beyond a small circle of enthusiasts *Poetics of the Pretext* analyses closely the texts pretexts and intertexts of this innovative poet bringing *Les Chants de Maldoror* and *Poésies* to the foreground of contemporary critical debates around poetics genre intertextuality and influence This book will make a major contribution to our understanding not only of the

Variational Text Linguistics Christoph Schubert, Christina Sanchez-Stockhammer, 2016-05-24 Owing to the ever increasing possibilities of communication especially with the advent of modern communication technologies register analysis offers a constantly widening range of research opportunities Still research has mainly concentrated on well established and frequent registers such as newspaper articles while many descriptive and theoretical issues have not yet been sufficiently investigated This volume gives a state of the art insight into register studies and points out emerging trends as well as new directions for future research Furthermore it provides a forum for the description and discussion of registers which have not received an appropriate amount of attention so far In particular it deals with specialized offline and online registers cross register comparison as well as regional contrastive and diachronic register variation In parallel to the new discipline of variational pragmatics this volume aims to foster the discipline of variational text linguistics and to initiate fundamental investigations in this area This field of research provides new insights into the concept of register since it covers both functional and regional types of textual variation

Why Ethics? Robert Gibbs, 2012-01-06 Robert Gibbs presents here an ambitious new theory of ethics Drawing on a striking combination of intellectual traditions including Jewish thought continental philosophy and American pragmatism Gibbs argues that ethics is primarily concerned with responsibility and is not as philosophers have often assumed principally a matter of thinking about the right thing to do and acting in accordance with the abstract dictates of reason or will More specifically ethics is concerned with attending to others questions and bearing responsibility for what they do Gibbs builds this innovative case by exploring the implicit responsibilities in a broad range of human interactions paying especially close attention to the signs that people give and receive as they relate to each other Why Ethics starts by examining the simple actions of listening and speaking reading and writing and by focusing on the different responsibilities that each action entails The author discusses what he describes as the mutual responsibilities implicit in the actions of reasoning mediating and judging He assesses the relationships among ethics pragmatics and Jewish philosophy The book concludes by looking at the relation of memory and the immemorial emphasizing the need to respond for past actions by confessing seeking forgiveness and making reconciliations In format Gibbs adopts a Talmudic approach interweaving brief citations from primary texts with his commentary He draws these texts from diverse thinkers and sources including Levinas Derrida Habermas Rosenzweig Luhmann Peirce James Royce Benjamin Maimonides the Bible and the Talmud Ranging over philosophy literary theory social theory and historiography this is an ambitious and provocative work that holds profound lessons for how we think about ethics and how we seek to live responsibly

Paul's Covert Use of Scripture David McAuley, 2015-10-09 This book explores why and how Paul uses Scripture Old Testament in Phil 2 10 16 It tests the suggestion that a cluster of tacit references to specific books of Scripture is integral or foundational to Paul's epistolary argument If the problem in Philippi is the disinclination to accept suffering and death as intrinsic to gospel citizenship then the muted allusions lead to a single central theme God's approval of suffering and death for the sake of Christ McAuley argues this theme is the crucial intertext that unifies and gives significance to the whole letter Previous scholarly efforts to discover congruence between the contexts of Philippians and the Old Testament have rested on a heuristic approach focused on surface level themes and facticities recorded in Paul's text leading to mixed results In this investigation McAuley sets forth a new theoretical and exegetical framework that draws on insights from theories of intertextuality allusion and rhetorical situation to offer a fresh interpretation of Philippians

Novalis, Signs of Revolution William Arctander O'Brien, 1995 Novalis traces the meteoric career of one of the most striking and most strikingly misunderstood figures of German Romanticism Although Friedrich von Hardenberg better known by his pseudonym Novalis published scarcely eighty pages of writings in his lifetime his considerable fame and influence continued to spread long after his death in 1801 His posthumous reputation however was largely based on the myth manufactured by opportunistic editors as Wm Arctander O'Brien reveals in this book the first to extract Hardenberg from the distortions of history A member of the generation of the 1770s that included Hegel Hlderlin and Schelling Hardenberg was an avid follower of the French Revolution a semiotician avant la lettre and a prescient critic of religion Yet in 1802 only a year after his death the writer who had scandalized the Prussian court was marketed to a nation at war as a reactionary patriot a sweet versifier of Idealism and a morbid mystic Identifying the break between Hardenberg's own early Romanticism and the late Romanticism that falsified it Novalis shows us a writer fully engaged in revolutionary politics and examines his semiotic readings of philosophy and of the political scientific and religious institutions of the day

Drawing on the full range of Novalis's writings including his poetry notebooks novels and journals O'Brien situates his semiotics between those of the eighteenth century and those of the twentieth and demonstrates the manner in which a concern for signs and language permeated all aspects of his thought The most extensive study of Hardenberg available in English Novalis makes this revolutionary theoretician visible for the first time Mining a crucial chapter in the history of semiotics and social theory it suggests fruitful sometimes problematic connections between semiotic historical deconstructive and philological practices as it presents a portrait of one of the most complex figures in literary history Indispensable for scholars of German Romanticism Novalis will also be of interest to students of comparative literature and European intellectual history

Excursions in Identity Laura Nenzi, 2008-04-16 In the Edo period 1600 1868 status and gender based expectations largely defined a person's place and identity in society The wayfarers

of the time however discovered that travel provided the opportunity to escape from the confines of the everyday Cultured travelers of the seventeenth and eighteenth centuries wrote travel memoirs to celebrate their profession as belle lettrists For women in particular the open road and the blank page of the diary offered a precious opportunity to create personal hierarchies defined less by gender and more by culture and refinement After the mid eighteenth century which saw the popularization of culture and the rise of commercial printing textbooks guides comical fiction and woodblock prints allowed not a few commoners to acquaint themselves with the historical lyrical or artistic pedigree of Japan s famous sites By identifying themselves with famous literary and historical icons of the past some among these erudite commoners saw an opportunity to rewrite their lives and re create their identities in the pages of their travel diaries The chapters in Part One Re creating Spaces introduce the notion that the spaces of travel were malleable accommodating reconceptualization across interpretive frames Laura Nenzi shows that far from being static backgrounds these travelscapes proliferated in a myriad of loci where one person s center was another s periphery In Part Two Re creating Identities we see how in the course of the Edo period educated persons used travel to or through revered lyrical sites to assert and enhance their roles and identities Finally in Part Three Purchasing Re creation Nenzi looks at the intersection between recreational travel and the rising commercial economy which allowed visitors to appropriate landscapes through new means monetary transactions acquisition of tangible icons or other forms of physical interaction
