G. Masaryk in perspective** Milič Čapek,1981 The New Aspects of Time M. Capek,2012-12-06 At last his students and colleagues his friends and his friendly critics his fellow scientist and fellow philosophers have the works of Milic Capek before them in one volume aside from his books of course Now the development of his interests and his thoughts always led centrally by his concern to understand the philosophical impact of contemporary physics becomes clear In the nearly 90 essays and papers and in his book on the philosophical impact as well as his classical restatement of process philosophy in his Bergson and Modern Physics Professor Capek establishes one of the fundamental alternatives to the comprehension of human experience and thereby of the world Capek is certainly to be seen with respect and admiration for he has dealt with the deepest and toughest of scientific as well as metaphysical problems his major efforts in the philosophy of mind focussed upon the time of experience and in the philosophy of physics focussed upon continuity causality and again the temporal now in the world picture *The Heresies of Jan Patočka* James Dodd,2023-03-15 A nuanced reflection on the meaning and resonance of Patočka's philosophy Foregrounding the turbulent political and intellectual scene in Czechoslovakia following the Prague Spring in 1968 James Dodd explores the unity of philosophy history and politics in Jan Patočka's life and legacy Dodd presents Patočka as an essential philosopher of modern concepts such as freedom subjectivity and history and also as an interpreter of prominent thinkers such as Husserl and Heidegger Dodd outlines the phenomenology that Patočka as a late pupil of Husserl and Heidegger crafted in response to the classical model before turning to his philosophy of history which was oriented around the problem of Europe and the care for the soul Finally Dodd examines Patočka's role as a dissident intellectual and one of the principal voices of the Charter 77 human rights movement until his death in March 1977 By situating Patočka's thought in relation to classical phenomenology and to the political and historical conditions of Central Europe Dodd illuminates the enduring impact of this key thinker of the twentieth century Herder on Nationality, Humanity, and History Frederick M. Barnard,2003 The core of J G Herder's philosophy of nationalism lies in the conviction that human creativity must be embedded in the particular culture of a communal language While he acknowledged that this cultural particular must be integrated into a more universal humanity he insisted that each culture should preserve its incommensurable distinctiveness He also called for a new method of enquiry regarding history one that demands empathetic sensitivity toward the uniquely individual while realizing that there are few gains without losses F M Barnard demonstrates that Herder despite his innovative work on the idea of nationality was fully aware of the

dangers of ethnic fanaticism but also of the hazards of what is now known as globalization recognizing that these must be tempered by a sense of universal humanity Barnard shows that Herder anticipated modern theories of the dynamics of cultures and traditions through the problematic interplay of persistence and change and that his speculations on cultural and political pluralism on language as a democratic bond and on the possible fusion of communitarian and liberal dimensions of public life remain relevant to contemporary debates

Sociology in the Czech Republic Marek Skovajsa, Jan

Balon, 2017-08-10 This book offers the first comprehensive overview in English of the history of sociology in what is today the Czech Republic Divided into six chapters it traces the institutional development of the discipline from the late 19th century until the present with an emphasis on the periods most favorable for sociology's institutionalization the interwar years the 1960s and the post 1989 era The narrative places the institutions persons and ideas that have been central to the discipline into the broader social and political context Marek Skovajsa and Jan Balon show that sociology in the Czech Republic has been wedded to the dominant political projects of each successive historical period nation and state building until after WWII the communist experiment in 1948 1989 liberal democratic reconstruction after 1989 and internationalization after 2000 This work will appeal to social scientists and to a general readership interested in Czech culture and society

Unity, Plurality and Politics J. M. Porter, Richard Vernon, 2019-11-19 First published in 1986 Nations have a unity often described as cultural and within them there are divergences some of which are termed political But culture and politics do not therefore comprise two wholly distinct zones or orders of experience the one marked by unity the other by plurality Unity and plurality interpenetrate These insights which derive from the thinking of Herder have been fundamental to the work of F M Barnard In this volume a number of scholars contribute in Barnardian vein reflections on the tensions between unity and plurality in the history of ideas The central underlying question is in essence what is the context of political life The question remains of more importance than any single answer

Caring for the Soul in a Postmodern Age Edward F. Findlay, 2012-02-01

In 1977 the sixty nine year old Czech philosopher Jan Patočka died from a brain hemorrhage following a series of interrogations by the Czechoslovak secret police A student of Husserl and Heidegger he had been arrested along with young playwright Václav Havel for publicly opposing the hypocrisy of the Czechoslovak Communist regime Patočka had dedicated himself as a philosopher to laying the groundwork of what he termed a life in truth This book analyzes Patočka's philosophy and political thought and illuminates the synthesis in his work of Socratic philosophy and its injunction to care for the soul In bridging the gap not only between Husserl and Heidegger but also between postmodern and ancient philosophy Patočka presents a model of democratic politics that is ethical without being metaphysical and transcendental without being foundational
