

A serene landscape featuring a vast expanse of white, fluffy clouds in the foreground, resembling a sea of clouds. In the background, a range of mountains is visible under a sky transitioning from a soft orange and pink near the horizon to a pale blue at the top. A thin, bright crescent moon is positioned in the upper right portion of the sky. The overall mood is peaceful and nostalgic.

John P. Delaney,2017-06-28 The 88th Division played a major role in the battle of Italy where it was rated by the Germans after the summer of 1944 as the best American division in Italy Because of the outstanding job it did in Italy the 88th contributed its share to the winning of the war It was the first of the draft infantry divisions to enter combat on any front in World War II and it was among the top divisions in the American Army It won its share of territory and honors during its 344 days of combat It paid dearly for all that it won it lost 15 173 officers and men killed wounded and missing in action Only thirteen other divisions in the U S Army suffered heavier losses The 88th fought its battles on what was called a forgotten front Some day history will appraise the true worth of the Italian campaign in the overall war picture Military historians will analyze and sift and publish detailed volumes on the operational contribution of the 88th in the battle for Italy This book is not a history in the true sense of the word It is not intended to be such It is rather the story of a combat division from its beginning to its end It is a story compiled both from official journals and from the personal experiences of the citizen soldiers who made up its squads and platoons It is a story which never can be told in every complete detail For every one of the incidents related here a reader can remember scores that are not found in these pages There are not enough words or paper to list them all The incidents related are considered to be representative of the experiences of the majority of 88th men
