The Gift of Thanks Margaret Visser, 2009-11-19 A scholarly many angled examination of what gratitude is and how it functions in our lives from the bestselling author of The Rituals of Dinner The New York Times Known as an anthropologist of everyday life Margaret Visser has won numerous awards for illuminating the unexpected meanings of everyday objects and rituals Now she turns her keen eye to another custom so ubiquitous that it often escapes notice saying Thank you What do we really mean by these two simple words This fascinating inquiry into all aspects of gratitude explores such topics as the unyielding determination of parents to teach their children to thank the difference between speaking the words and feeling them and the ways different cultures handle the complex matters of giving receiving and returning favors and presents Visser elucidates the fundamental opposition in our own culture between gift giving and commodity exchange as well as the similarities between gratitude and its opposite vengefulness The Gift of Thanks considers cultural history including the modern battle of social scientists to pin down the notion of thankfulness and account for it and the newly awakened scientific interest in the biological and evolutionary roots of emotions With characteristic wit and erudition Visser once again reveals the extraordinary in the everyday An anthropological and philosophical account of how and why we give thanks All delivered

in elegant clear prose A book to be thankful for sympathetic to human foible deeply learned and a pleasure to read Kirkus Reviews A delightful and graceful gift of a book for which any fortunate recipient will be thankful Publishers Weekly

The Garden of Education Rav Shalom Arush, Children are life As soon as a person has a child he or she earns the title of parent faced with the task of guiding the child along life s best path As a parent life takes on a brand new meaning When a person has children he in effect lives forever since they are his continuance and legacy in the world Children are livelihood Perhaps a parent deserves a life of dire poverty However the little soul that a mother and father helped bring down into the world deserves to live in opulence As such the parents will enjoy an abundance of income by virtue of their child Children are joy Every new word that a baby says every new action and every new development are reasons for parents to celebrate Even as they grow children grant their parents limitless joy
