That The People Might Live Native American Literatures And Native American Community:

That the People Might Live Jace Weaver, 1997 Loyalty to the community is the highest value in Native American cultures argues Jace Weaver In That the People Might Live he explores a wide range of Native American literature from 1768 to the present taking this sense of community as both a starting point and a lens Weaver considers some of the best known Native American writers such as Leslie Marmon Silko Gerald Vizenor and Vine Deloria as well as many others who are receiving critical attention here for the first time He contends that the single thing that most defines these authors writings and makes them deserving of study as a literature separate from the national literature of the United States is their commitment to Native community and its survival He terms this commitment communitism a fusion of community and activism The Native American authors are engaged in an ongoing quest for community and write out of a passionate commitment to it They write literally that the People might live Drawing upon the best Native and non Native scholarship including the emerging postcolonial discourse as well as a close reading of the writings themselves Weaver adds his own provocative insights to help readers to a richer understanding of these too often neglected texts A scholar of religion he also sets this literature in the context of Native cultures and religious traditions and explores the tensions between these traditions and Christianity

"That the People Might Live" Arnold Krupat, 2012-11-15 The word elegy comes from the Ancient Greek *elogos* meaning a mournful poem or song in particular a song of grief in response to loss Because mourning and memorialization are so deeply embedded in the human condition all human societies have developed means for lamenting the dead and in That the People Might Live Arnold Krupat surveys the traditions of Native American elegiac expression over several centuries Krupat covers a variety of oral performances of loss and renewal including the Condolence Rites of the Iroquois and the memorial ceremony of the Tlingit people known as *koo eex* examining as well a number of Ghost Dance songs which have been reinterpreted in culturally specific ways by many different tribal nations Krupat treats elegiac farewell speeches of the eighteenth and nineteenth centuries in considerable detail and comments on retrospective autobiographies by Black Hawk and Black Elk Among contemporary Native writers he looks at elegiac work by Linda Hogan N Scott Momaday Gerald Vizenor Sherman Alexie Maurice Kenny and Ralph Salisbury among others Despite differences of language and culture he finds that death and loss are consistently felt by Native peoples both personally and socially someone who had contributed to the People's well being was now gone Native American elegiac expression offered mourners consolation so that they might overcome their grief and renew their will to sustain communal life

That the People Might Live Jace Weaver, 1997-12-18 Loyalty to the community is the highest value in Native American cultures argues Jace Weaver In That the People Might Live he explores a wide range of Native American literature from 1768 to the present taking this sense of community as both a starting point and a lens Weaver considers some of the best known Native American writers such as Leslie Marmon Silko Gerald Vizenor and Vine Deloria as well as many others who are receiving critical attention here for the first time He

contends that the single thing that most defines these authors writings and makes them deserving of study as a literature separate from the national literature of the United States is their commitment to Native community and its survival He terms this commitment communitism a fusion of community and activism The Native American authors are engaged in an ongoing quest for community and write out of a passionate commitment to it They write literally that the People might live Drawing upon the best Native and non Native scholarship including the emerging postcolonial discourse as well as a close reading of the writings themselves Weaver adds his own provocative insights to help readers to a richer understanding of these too often neglected texts A scholar of religion he also sets this literature in the context of Native cultures and religious traditions and explores the tensions between these traditions and Christianity

The Routledge Introduction to Native American Literature Drew Lopenzina, 2020-07-22 This Introduction makes available for both student instructor and afficianado a refined set of tools for decolonizing our approaches prior to entering the unfamiliar landscape of Native American literatures This book will introduce indigenous perspectives and traditions as articulated by indigenous authors whose voices have been a vital if often overlooked component of the American dialogue for more than 400 years Paramount to this consideration of Native centered reading is the understanding that literature was not something bestowed upon Native peoples by the settler culture either through benevolent interventions or violent programs of forced assimilation Native literature precedes colonization and Native stories and traditions have their roots in both the precolonized and the decolonizing worlds As this far reaching survey of Native literary contributions will demonstrate almost without fail when indigenous writers elected to enter into the world of western letters they did so with the intention of maintaining indigenous culture and community Writing was and always remains a strategy for survival

Velie, A. Robert Lee, 2013-11-11 The outpouring of Native American literature that followed the

publication of N Scott Momaday's Pulitzer Prize winning *House Made of Dawn* in 1968 continues unabated. Fiction and poetry, autobiography and discursive writing from such writers as James Welch, Gerald Vizenor and Leslie Marmon Silko constitute what critic Kenneth Lincoln in 1983 termed the Native American Renaissance. This collection of essays takes the measure of that efflorescence. The contributors scrutinize writers from Momaday to Sherman Alexie, analyzing works by Native women, First Nations Canadian writers, postmodernists and such theorists as Robert Warrior, Jace Weaver and Craig Womack. Weaver's own examination of the development of Native literary criticism since 1968 focuses on Native American literary nationalism. Alan R. Velie turns to the achievement of Momaday to examine the ways Native novelists have influenced one another. Post-renaissance and postmodern writers are discussed in company with newer writers such as Gordon Henry Jr and D. L. Birchfield. Critical essays discuss the poetry of Simon Ortiz, Kimberly Blaese, Diane Glancy, Luci Tapahonso and Ray A. Young Bear, as well as the life writings of Janet Campbell Hale, Carter Revard and Jim Barnes. An essay on Native drama examines the work of Hanay Geiogamah, the Native American Theater Ensemble and Spider Woman Theatre. In the volume's concluding essay, Kenneth Lincoln reflects on the history of the Native American Renaissance up to and beyond his seminal work and discusses Native literature's legacy and future. The essays collected here underscore the vitality of Native American literature and the need for debate on theory and ideology.

Cultural Grammars of Nation, Diaspora, and Indigeneity in Canada

Christine Kim, Sophie McCall, Melina Baum, Singer, 2012-05-09. *Cultural Grammars of Nation, Diaspora and Indigeneity in Canada* considers how the terms of critical debate in literary and cultural studies in Canada have shifted with respect to race, nation and difference. In asking how Indigenous and diasporic interventions have remapped these debates, the contributors argue that a new cultural grammar is at work and attempt to sketch out some of the ways it operates. The essays reference pivotal moments in Canadian literary and cultural history and speak to ongoing debates about Canadian nationalism, postcolonialism, migrancy and transnationalism. Topics covered include the Asian race riots in Vancouver in 1907, the cultural memory of internment and dispersal of Japanese Canadians in the 1940s, the politics of migrant labour and the domestic labour scheme in the 1960s and the trial of Robert Pickton in Vancouver in 2007. The contributors are particularly interested in how diaspora and indigeneity continue to contribute to this critical reconfiguration and in how conversations about diaspora and indigeneity in the Canadian context have themselves been transformed. *Cultural Grammars* is an attempt to address both the interconnections and the schisms between these multiply fractured critical terms as well as the larger conceptual shifts that have occurred in response to national and postnational arguments.
