Stanovich, 2021-08-31 A provocative timely analysis that asks What does science tell us about the bias that poisons our politics We don't live in a post truth society but a myside society in which no one can agree on accepted truth and facts In *The Bias That Divides Us* psychologist Keith Stanovich argues provocatively that we don't live in a post truth society as has been claimed but rather a myside society Our problem is not that we are unable to value and respect truth and facts but that we are unable to agree on commonly accepted truth and facts We believe that our side knows the truth Post truth That describes the other side The inevitable result is political polarization Stanovich shows what science can tell us about myside bias how common it is how to avoid it and what purposes it serves Stanovich explains that although myside bias is ubiquitous it is an outlier among cognitive biases It is unpredictable Intelligence does not inoculate against it and myside bias in one domain is not a good indicator of bias shown in any other domain Stanovich argues that because of its outlier status myside bias creates a true blind spot among the cognitive elite those who are high in intelligence executive functioning or other valued psychological dispositions They may consider themselves unbiased and purely rational in their thinking but in fact they are just as biased as everyone else Stanovich investigates how this bias blind spot contributes to our current ideologically polarized politics connecting it to another recent trend the decline of trust in university research as a disinterested arbiter **The River Has Never Divided Us** Jefferson Morgenthau, 2010-01-01 Winner William P Clements Prize Best Non Fiction Book on Southwestern America 2004 Not quite the United States and not quite Mexico La Junta de los Rios straddles the border between Texas and Chihuahua occupying the basin formed by the conjunction of the Rio Grande and the Rio Conchos It is one of the oldest continuously inhabited settlements in the Chihuahuan Desert ranking in age and dignity with the Anasazi pueblos of New Mexico In the first comprehensive history of the region Jefferson Morgenthau traces the history of La Junta de los Rios from the formation of the Mexico Texas border in the mid 19th century to the 1997 ambush shooting of teenage goatherd Esquel Hernandez by U S Marines performing drug interdiction in El Polvo Texas Though it is scores of miles from a major highway I found natives soldiers rebels banditos heroes scoundrels drug lords scalp hunters medal winners and mystics writes Morgenthau I found love tragedy struggle and stories that have never been told In telling the turbulent history of this remote valley oasis he examines the consequences of a national border running through a community older than the invisible line that divides it *Preaching to a Divided Nation* Matthew D. Kim, Paul A. Hoffman, 2022-08-09 We live in angry times No matter where we go what we watch or how we communicate our culture is rife with division and polarization Unfortunately Christians appear to be caught up in the same animosity as the culture at large While our faith calls us to Christian unity the hard fact remains our churches are tragically divided across class ethnic gender and political lines As these social chasms grow both inside and outside the church the role of the preacher becomes

paramount This book issues a prophetic call to pastors to use the influence of their pulpits to promote reconciliation and unity in their churches and communities Two scholar practitioners who are experts in homiletics and reconciliation present a practical 7 step model that empowers faithful leaders to bring healing and peace to their fractured churches and world The book includes questions for reflection salient illustrations and an accountability covenant It also includes useful appendixes on preaching themes preaching texts and sample sermons from three leading preachers Ralph Douglas West Rich Villodas and Sandra Maria Van Opstal
