That Day In Budapest:

Budapest's Children Friederike Kind-Kovács, 2022-07-05 In the aftermath of World War I international organizations descended upon the destitute children living in the rubble of Budapest and the city became a testing ground for how the West would handle the most vulnerable residents of a former enemy state Budapest's Children reconstructs how Budapest turned into a laboratory of transnational humanitarian intervention Friederike Kind Kovács explores the ways in which migration hunger and destitution affected children's lives casting light on children's particular vulnerability in times of distress Drawing on extensive archival research Kind Kovács reveals how Budapest's children as iconic victims of the war's aftermath were used to mobilize humanitarian sentiments and practices throughout Europe and the United States With this research Budapest's Children investigates the dynamic interplay between local Hungarian organizations international humanitarian donors and the child relief recipients In tracing transnational relief encounters Budapest's Children reveals how intertwined postwar internationalism and nationalism were and how child relief reinforced revisionist claims and global inequalities that still reverberate today The Red Cross Bulletin, 1920 One Day That Shook the Communist World Paul Lendvai, 2010-12-16 On October 23 1956 a popular uprising against Soviet rule swept through Hungary like a force of nature only to be mercilessly crushed by Soviet tanks twelve days later Only now fifty years after those harrowing events can the full story be told This book is a powerful eyewitness account and a gripping history of the uprising in Hungary that heralded the future liberation of Eastern Europe Paul Lendvai was a young journalist covering politics in Hungary when the uprising broke out He knew the government officials and revolutionaries involved He was on the front lines of the student protests and the bloody street fights and he saw the revolutionary government smashed by the Red Army In this riveting deeply personal and often irreverent book Lendvai weaves his own experiences with in depth reportage to unravel the complex chain of events leading up to and including the uprising its brutal suppression and its far reaching political repercussions in Hungary and neighboring Eastern Bloc countries He draws upon exclusive interviews with Russian and former KGB officials survivors of the Soviet backlash and relatives of those executed He reveals new evidence from closed tribunals and documents kept secret in Soviet and Hungarian archives Lendvai's breathtaking narrative shows how the uprising while tragic delivered a stunning blow to Communism that helped to ultimately bring about its demise One Day That Shook the Communist World is the best account of these unprecedented events Dun-Camp's Tour Manual ..., 1929 **The Department of State Bulletin**, 1957 The official monthly record of United States foreign policy Problems of Communism, 1986 **A Lesson for Our Times** C. Philip Skardon, 2010-03-19 Even though it has faded in the minds of most the Cold War was the dominant happening in the second half of the 20th Century The underlying cause was the Soviet Union's expansionism which was driven by imperialist ambition overlaid with ideology Combating this radical and highly threatening form of political and territorial aggrandizement made extraordinary demands on the Western nations and especially the United States because of

its strength and democratic tradition These forces vied in the Hungary Suez Crisis of 1956 as not before or after when 200 000 Soviet troops intervened in Hungary to put down the revolution and the attendant Uprising and acting contrary to Western interests Britain and France invaded the Canal Zone and the Israelis the Sinai raising the crisis to a point of extreme danger as the East West confrontation nearly burst its bounds Had the allies not been halted in Egypt by the Eisenhower Administrations use of the UN Charter and UN mechanisms for maintaining peace and the Russians not deterred from invading Western Europe by threat of U S nuclear retaliation it seemed possible that the world would experience a general war with nuclear weapons as a major component A Lesson for Our Times focuses on this possibility While it is about the steps taken by the United States to prevent the worst from occurring immediately it is also about what was done to prevent a similar crisis from occurring in the future To say that these actions were unique and effective is true but not enough They were also unprecedented in the history of the nation and surely the world as well as proof that the peace keeping system devised after World War II would function as intended if undergirded and augmented by U S prestige and wherewithal Here then was Hungary Suez in its totality More should be known about the crisis for these reasons alone This book seeks to meet that need while filling a large gap in the understanding of the Cold War It also recalls a time when Americas conduct as the worlds primary superpower was as clear and visionary as it was purposeful and constructive in a word when American diplomacy was at its zenith

Transnational Radio Monitoring in the Twentieth Century Suzanne Bardgett, Friederike Kind-Kovács, Vincent Kuitenbrouwer, 2024-09-06 Radio monitoring is an important feature of broadcasting history and monitoring reports form a treasure trove for historians This volume offers six case studies that provide new insights on the importance of radio monitoring during the Second World War and the Cold War Radio broadcasting is not only about transmission but also about listening From the start of the medium s history radio organisations institutionalised services to monitor the broadcasts of stations from all over the globe and write daily reports about them This act of listening provided valuable information about the situation in various parts of the world or insights into the communication strategies of broadcasters As a result collections of monitoring reports are bulky containing countless documents which form a treasure trove for radio historians At the same time researchers need to be aware that these sources are far from neutral monitoring services often serve clear geopolitical objectives in context of conflict situations This volume explores the rich history of radio monitoring during the Second World War and the Cold War As such it offers original case studies that shed light on previously unknown radio histories Moreover all the authors reflect on the use of monitoring reports as a historical source and as such provide methodological guidelines This volume will be a key resource for academics researchers and advanced students of media history war studies media studies sociology and cultural studies It was originally published in Media History
