**That Horse Whiskey!** C. S. Adler, 2016-02-02 When Lainey fails to get the horse Dad promised her for her birthday she takes on a job training a stubborn horse at a riding stable down the road The horse Whiskey won't take a rider for more than a quarter of a mile before turning back to his corral Besides Whiskey Lainey gets involved training Ryan a city boy who knows nothing about horses Her success with Whiskey will gain her free riding privileges plus something even more important to a young girl [That Horse Whiskey F+G Adler, 1995-12-01](#) **The Golden Elixir of the West** Sherry Monahan, Jane Perkins, 2017-10-02 An insider's look at the iconic drink and its role in shaping the American West Distilleries are the new microbreweries cropping up all over the West and producing brands that emulate the predecessors that were made in copper stills by emigrants and served in saloons and dance halls This history of the spirit and its origins and migration across the country and its place in shaping the West celebrates the story of the golden elixir through first hand accounts evocative photographs and historic cocktail recipes *A Distant Drum...* Andi Rae Mills, 2011-09-15 We were riding on top of the world We were two women in our fifties and we probably should have been anywhere other than where we were at that moment The scenery was spectacular but I was beginning to wonder if it was worth dying for literally The loose rocks and tight switchbacks had cost us precious time This was not a place we wanted to get caught after dark Edie and I rode in silence as we negotiated the treacherous footing We had known we would face danger on this ride but I had never envisioned anything like the scenario we were currently dealing with My senses seemed cross wired At a time when I should have logically been bordering on panic I found myself engulfed in an eerie sense of calm Fear was a luxury we couldn't afford at the moment If we got off this mountain alive there would be plenty of time to be scared as we recalled the ordeal The trail was incredibly narrow The climb had been steep and rugged We would reach an altitude in excess of seven thousand four hundred feet as we rode the crest of Mt Francis On our immediate left a sheer rock wall rose vertically with occasional outcroppings that jutted into the trail Our knees at times rubbed the craggy rock face A glance to the right brought no comfort A severe drop off afforded us a view of the tops of trees hundreds of feet below We were riding on a trail that was no more than a narrow ledge on the face of the mountain For some reason known only to them both horses insisted on walking along the extreme outer edge of the trail They seemed to feel more comfortable on the edge rather than being crowded by the wall Both Edie and I found ourselves sitting off center and leaning slightly toward the wall If our horses lost their footing we hoped to be able to jump clear of them and land on the trail A lump the size of a softball threatened to choke me each time I heard a piece of the trail crumble beneath our horse's feet sending rock and dirt tumbling over the edge We had reached a point of no return We had no idea what lay ahead of us there was no way to turn around no way to back the horses out of where we were and at this point dismounting was a physical impossibility due to the close proximity of the rock face and the narrow width of the trail We both knew that we were in a potentially life threatening situation If a cougar or a snake

spooked the horses we would all have a one way ticket to the rocky bottom of the canyon far below That gruesome thought was still in my mind when our bad situation grew decidedly more complicated As I focused on the trail ahead my mind rejected what my eyes could clearly see Thirty feet ahead of us the trail simply disappeared All I could see beyond that point was air and lots of it I wondered if Edie who rode only a few feet behind me saw what I saw She did **The North**
