**That Mad Game** James D. Forman, 1980 Presents an overview of war and peace throughout history and examines the causes of war and the attempts to eradicate them *Encyclopedia of Conflicts Since World War II* James Ciment, 2015-03-27 Thoroughly revised to include 25 conflicts not covered in the previous edition as well as expanded and updated information on previous coverage this illustrated reference presents descriptions and analyses of more than 170 significant post World War II conflicts around the globe Organized by region for ease of access *Encyclopedia of Conflicts Since World War II* Second Edition provides clear in depth explanations of events not covered in such detail in any other reference source Including more than 180 detailed maps and 150 photos the set highlights the conflicts that dominate today's headlines and the events that changed the course of late twentieth century history **Unstately Power** Lynn T. White, III, 2015-06-03 A critique of America's flawed Asia policy that centres on US Japan relations but harkens back to the same disastrous views that drew America into Vietnam The technique is a narrative flow of short vignettes woven into longer chapters the main strands are personal reflections and interviews *Unstately Power* Lynn T. White, 1998 **2048** John Kirk Boyd, 2010-04-12 2048 is the story of the most important international social movement in the 21st century the drafting and implementation of an International Bill of Rights that will be enforceable in the courts of every country on Earth Written documents have always played a key part in the evolution of human rights the Code of Hammurabi the Magna Carta the Declaration of Independence In 1948 the United Nations adopted the Universal Declaration of Human Rights but its provisions are not enforceable so its promise remains unfulfilled It's time to take the next step 2048 shows how we can create an agreement that will truly guarantee global human rights and the rule of law and have it in place by the 100th anniversary of the Universal Declaration a visionary audacious but eminently achievable goal J Kirk Boyd outlines the freedoms this new document would protect and describes successful international agreements already in place that can serve as models But the 2048 Project needs you What you do with what you read Boyd writes is as important as what this book says He explains how people in all countries can help shape the document through the 2048 Project website [www.2048.berkeley.edu](http://www.2048.berkeley.edu) hosted by the University of California Berkeley School of Law and offers practical advice for reaching out and building support step by step so that the International Bill of Rights will become the foundation of an irresistible grassroots movement **China's Leaders** Cheng Li, 2001 Who will govern China after Jiang Zemin What path will its new leaders chart in the early years of the twenty first century Drawing upon a wealth of both quantitative and qualitative data on the so called fourth generation of leaders those who were young during the Cultural Revolution Cheng Li shows that this group is more diversified than previous generations in formative experiences political solidarity ideological conviction and occupational background The author explores the contradictions between these emerging leaders and their non elite peers who were barred from education during the Mao era and now often are unemployed and disenchanting The book concludes with the intriguing notion that this generation of

leaders may have a better understanding of its peers' concerns and therefore may make the regime more accountable to its people thus contributing to rather than opposing democratic development      Princeton Alumni Weekly ,1980      Right Backed by Might Roger Beaumont,2001-02-28 This study provides an overview of the International Air Force IAF concept which emerged in the early 20th century out of a long progression of schemes for creating multi national armed forces to enforce the peace most often referred to as an international police force IPF After broadly tracing the IAF's complex lineage Beaumont surveys the proliferation of IPF and IAF proposals throughout the 20th century including schemes offered by Kipling H G Wells and Theodore Roosevelt Later ideas included the Allies Independent Air Force of 1917-18 the evolution of the League to Enforce Peace into the League of Nations imperial air policing between the World Wars and a host of proposals official and informal such as visions of a United Nations IAF and the ad hoc coalition air forces assembled by the major western powers in the Gulf War and the Balkans in the 1990s The IAF concept gained far greater popularity even among contemporary historians than is generally appreciated Beaumont interweaves the review of the IAF and IPF designs with diplomacy and war especially the rise of air power and the confounding of its advocates' visions of a cheap quick road to victory Based on Beaumont's survey of secondary and primary sources during more than a decade of research this book considers the IAF image from such diverse perspectives as pacifism popular culture and collective security      The Advocate of Peace ,1908      **A Dictionary of Thoughts** Tryon Edwards,1908      **Encyclopedia of Violence, Peace, and Conflict** ,1999-08-16 The Encyclopedia of Violence Peace and Conflict a three volume set written by more than 200 eminent contributors from around the world takes advantage of increasing worldwide awareness in the public private commercial and academic sectors about manifestations of violence in all segments of society While the contributors do not use these volumes to make specific arguments they do describe and clarify the developments in thought that have led to current theories about and positions on violence and peace Our reviewers consistently note that while many in depth studies of war peace and aggression exist the attendant specialization keeps scholars from learning about related fields No publication competing with the Encyclopedia of Violence Peace and Conflict can satisfy their need for a vast introductory work to such a diverse and socially important field This major work includes more than 190 multidisciplinary articles with over 1 000 cross references and more than 2 000 bibliography entries for further reading which are arranged alphabetically for easy access More than 190 multidisciplinary articles with over 1 000 cross references Article outline and glossary of key terms begin each article Entries arranged alphabetically for easy access Three volume set with subject index of over 750 entries Articles written by more than 200 eminent contributors from around the world      Treasury of Thought.
