THE YOUNG CHRISTIAN'S SURVIVAL GUIDE Donald T. Williams, 2019-07-19 Some of the questions asked and answered in THE YOUNG CHRISTIAN S SURVIVAL GUIDE are You claim the Bible is inspired because it says it is right 2 Tim 3 16 Isn t that circular reasoning You claim the Bible was inspired but there was no inspired list of which books that is true of So how can we know which ones to trust With so many different copies of manuscripts that have 400 000 variants errors how can we even know what the Bible says Why can t the people who wrote the four Gospels get their story straight Didn t the Council of Nicaea just arbitrarily pick the books for the Bible that they agreed with and suppress all the rest with political power People used to believe in miracles because they didn t understand science Don t we know better than that now That a man rose from the dead takes a lot of believing How could you ever have enough evidence for a belief like that Science has proved that human beings evolved over millions of years rather than being created in six days Why are you still clinging to ancient myths Just because the Bible is true for you why does that make it true for me How can you base your modern life on a book that was written for a primitive culture Doesn t the Bible support genocide Doesn t the Bible support racism Doesn t the Bible support slavery Doesn t the Bible support homophobia Doesn t the Bible support the oppression and abuse of women There are so many religions all sincerely seeking the same goal What makes you Christians so arrogant that you think yours is the only way What about those who have never heard the Gospel If God is a God of love why did he let my loved one die How can it be just for God to impose an infinite punishment Hell forever for finite sins These questions will be asked and answered with reasonable rational Scriptural answers

What if political rhetoric is unavoidable an irreducible part of politics itself In contrast to the familiar denunciations of political horse trading grandstanding and corporate manipulation from those lamenting the crisis in liberal democracy this book argues that the politics of politics usually associated with rhetoric and sophistry is like it or not part of politics from the

start Denunciations of the sorry state of current politics draw on a dogmatism and moralism that share an essentially metaphysical and Platonic ground Failure to deconstruct that ground generates a philosophically and politically debilitating selfrighteousness that this book attempts to understand and undermine After a detailed analysis of Foucault's influential late concept of parrhesia which is shown to be both philosophically and politically insufficient close readings of Heidegger Kierkegaard and Derrida trace complex relations between sophistry rhetoric and philosophy truth and untruth decision madness and stupidity in an exploration of the possibility of developing an affirmative thinking of politics that is not mortgaged to the metaphysics of presence It is suggested that Heidegger's complex accounts of truth and decision must indeed be read in close conjunction with his notorious Nazi commitments but nevertheless contain essential insights that many strident responses to those commitments ignore or repress Those insights are here developed via an ambitious account of Derrida's often misunderstood interruption of teleology into a deconstructive retrieval of the concept of dignity This lucid and often witty account of a crucial set of developments in twentieth century thought prepares the way for a more general re-reading of the possibilities of political philosophy that will be undertaken in Volume 2 of this work under the sign of an essential scatter that defines the political as such
