

The 1932 Revolutionist

Yicheng Fang

The 1932 Revolutionist:

Indigenizing the Cold War Sinae Hyun, 2023-04-30 The Border Patrol Police BPP of Thailand was formed as a United States CIA's paramilitary intelligence force in the early 1950s. In the early 1960s, changes in Thailand's political leadership and the U.S. government's strategies for fighting the spread of communism in Southeast Asia led to a transformation of the BPP. The organization became a civic action agency supported by the United States Agency for International Development and the Thai monarchy. Its civic actions, pinned on advancing anticommunist modernization, civilian counterinsurgency, and royalist nationalism, soon extended from the margins to the center of Thailand and contributed to building the border of Thainess khwam pen thai. The growing tension between the royalist network consisting of military and rightwing groups and the democratization movements culminated in a massacre. On October 6, 1976, the Village Scout, a rural vigilante group that the BPP created through its civic actions, and the Police Aerial Reinforcement Unit (PARU), a subunit of the BPP, attacked peaceful protesters at Thammasat University. The success of a military coup on the same day solidified the victory of the royalist network, and it would continue to dominate Thai politics and society into the post-Cold War era. Through a study of the Border Patrol Police's transformations, *Indigenizing the Cold War* shows how the Thai ruling elite unfailingly pursued their nation-building. With an introduction of the indigenization concept and an in-depth analysis of postcolonial nation-building, this work challenges conventional Cold War studies. The Cold War in Thailand was not always and only about an ideological conflict between the communist and anticommunist. It was a war between the local ruling elite and the people, each pushing forward their visions for constructing a new nation-state. The indigenization framework reveals the nature of the collaboration between the global superpowers and the Asian local ruling elite who took advantage of the American Cold War for legitimizing and continuing their authoritarian regimes.

Thailand in the Cold War Matthew Phillips, 2015-09-16 Thailand's position during the Cold War was ambiguous; the country's political leadership was very keen to maintain the country's independence on the world stage yet at the same time was anxious to establish the country's credentials as staunchly anti-communist. However, as this book argues, Thailand, though never formally a client state of the United States, was very closely embedded in the Western camp through the commitment of Thailand's cosmopolitan urban communities to developing a modern consumerist lifestyle. Considering popular culture, including film, literature, fashion, tourism, and attitudes towards Buddhism, the book shows how an ideology of consumerism and integration into a free world culture, centred in the United States, gradually took hold and became firmly established, and how this popular culture and ideology was fundamental in determining Thailand's international political alignment.

National Perspectives on the Global Second World War Ashley Jackson, 2023-05-04 This collection of essays, written by authors of different nationalities, explores the experiences of the countries that were not numbered among the Second World War's major belligerents, including colonies, lesser powers, and neutral nation-states. The story of the war is often dominated by the experiences, actions, and historical narratives of the

major belligerent powers By focusing on the war history of ten diverse countries this analysis of the conflict's global manifestations facilitates greater empathy with the experience of polities and societies dragged into regional and international conflicts The volume offers valuable insights on the war's place in national culture and collective memory National Perspectives on the Global Second World War is an essential contribution to the study of the Second World War and will be of particular interest to scholars of imperial and colonial history military history and global history Sun Yat-Sen, Nanyang and the 1911 Revolution Lai To Lee, Hock Guan Lee, 2011 In view of the 100th anniversary of the 1911 Revolution and Sun Yat-sen's relations with the Nanyang communities the Institute of Southeast Asian Studies and the Chinese Heritage Centre came together to host a two-day bilingual conference on the three-way relations between Sun Yat-sen Nanyang and the 1911 Revolution in October 2011 in Singapore This volume is a collection of papers in English presented at the conference Backcover

The US-Thai Alliance and Asian International Relations Gregory Raymond, John Blaxland, 2021-05-30 Thailand a long-standing defence partner of the United States and ASEAN's second largest economy occupies a geostrategically important position as a land bridge between China and maritime Southeast Asia This book based on extensive original research explores the current state of US-Thai relations paying particular attention to how the United States is perceived by a wide range of people in the Thai defence establishment and highlighting the importance of historical memory The book outlines how the US-Thai relationship has been complicated and at times turbulent discusses how Thailand is deeply embedded in multi-faceted relationships with many Asian states not just China and examines how far the United States is blind to the complexities of Asian international relations by focusing too much on China The book concludes by assessing how US-Thai relations are likely to develop going forward Additionally the work contributes to alliance theory by showing how domestic politics shapes memory which in turn affects perceptions of other states After the Coup Michael J Montesano, Terence Chong, Mark Heng Shu Xun, 2019-01-07 After the Coup brings together the work of a group of leading Thai intellectuals of several generations to equip readers to anticipate and understand the developments that lie ahead for Thailand Contributors offer findings and perspectives both on the disorienting period following the Thai coup of May 2014 and on fundamental challenges to the country and its institutions Chapters address regionalism and decentralization the monarchy and the military the media demography and the economy the long-running violence in Southern Thailand and a number of surprising social and political trends certain to shape the future of Thailand The volume will serve as a valuable resource for all those concerned with that future This highly acclaimed collection of scholars answers to basic questions about the political situation after the 2014 military coup in Thailand offers a comprehensive analysis of many crucial institutions and sensitive issues that no other work has touched The book covers the intricate relationships among conflicting classes political movements the military and above all the monarchy It puts on the table many important debates about the crisis of democratization in the country including the struggle of Malay Muslims in Southern Thailand the transformation of

electoral violence the dilemma of political decentralization the changing roles of the media and the impact of slowing economic growth and an ageing society on the future of Thailand Kanokrat Lertchoosakul Chulalongkorn University author of *The Rise of the Octobrists in Contemporary Thailand After the Coup* should be read by anyone interested in understanding the current state of Thailand's political affairs tracing the historical origins of the current challenges and conflicts or looking for clues about what may be to come This outstanding set of scholars explores how Thailand's disparate collective identities are at the root of the current political and social conflict These collective identities carry with them different visions of what it means to be Thai what democracy is and how it should function and the sources of political legitimacy The chapter authors describe how those behind Thailand's ambitious coup have attempted to crush co-opt quell and contain these competing visions Allen Hicken University of Michigan author of *Building Party Systems in Developing Democracies* Featuring a collection of essays authored by many of the field's leading lights expertly curated and edited by one of the most knowledgeable scholars in Thai Studies *After the Coup* is a vital contribution to the study of contemporary Thai politics The depth and sophistication of its analysis and the variety of viewpoints represented make it a must read for anyone wishing to understand the significance of the events set in motion by the military coup staged in Thailand on 22 May 2014 one in crucial respects quite unlike the series of coups d'état that punctuate the country's modern political development Federico Ferrara City University of Hong Kong author of *The Political Development of Modern Thailand* This book covers many of the most important current aspects of the Thai political problem to help readers better understand why Thailand continues in its struggle to democracy For example it provides for a very insightful sense of an emergent middle class that has been one of the main obstacles in Thai democratic progress both before and since the military coup d'état of 2014 Titipol Phakdeewanich Dean Faculty of Political Science Ubon Ratchathani University

The King Never Smiles Paul M. Handley, 2006-01-01

Thailand's Bhumibol Adulyadej the only king ever born in the United States came to the throne of his country in 1946 and is now the world's longest serving monarch This book tells the unexpected story of his life and 60 year rule how a Western raised boy came to be seen by his people as a living Buddha and how a king widely seen as beneficent and apolitical could in fact be so deeply political autocratic and even brutal Paul Handley provides an extensively researched factual account of the king's youth and personal development ascent to the throne skilful political maneuverings and attempt to shape Thailand as a Buddhist kingdom Blasting apart the widely accepted image of the king as egalitarian and virtuous Handley convincingly portrays an anti democratic monarch who together with allies in big business and the corrupt Thai military has protected a centuries old barely modified feudal dynasty When at nineteen Bhumibol assumed the throne after the still unsolved shooting of his brother the Thai monarchy had been stripped of power and prestige Over the ensuing decades Bhumibol became the paramount political actor in the kingdom crushing critics while attaining high status among his people The book details this process and depicts Thailand's unique constitutional monarch in the full light of the facts

Designing Integrated

Industrial Policies Volume I Shigeru Thomas Otsubo, Christian Samen Otchia, 2020-12-01 This comprehensive reference work gives an overview of the industrial development and current state of industrialization and deindustrialization in Asia specifically Southeast Asia and China It introduces typologies of industrial policies and discusses the manufacturing sector and its evolving role in the region Designing Integrated Industrial Policies examines the integration of SMEs in global value chains and provides macro econometric and firm based micro econometric analyses of de industrialization This book will be a very useful reference particularly as a how to guide on industrial promotion and designing integrated industrial policies not only for economic growth and job creation but also for inclusive development It presents country cases and illustrates useful tools for industrial policy simulation and for evidence based policy making through these concrete examples Municipal Services and Employees in the Modern City Michèle Dagenais, Irene Maver, 2016-04-15 Municipal Services and Employees in the Modern City considers the roles played by local institutions and particular processes that shaped the urban fabric It rediscovers from models and maps the constituent dynamics of cities since the beginning of the nineteenth century and demonstrates how patterns evolved in the way services and locations were organized how urban transformation was underpinned by structural development and how the municipal workforce became an integral part of the agencies of change Municipal Services and Employees in the Modern City suggests that municipal experiences are central to the development of urban studies Its focus of analysis ranges across Europe and the Americas from high ranking bureaucrats to firefighters engineers to accountants and town clerks to public servants Each essay provides detailed information on how change was formulated or resisted within the administrative apparatus offering insight into a sector of the white collar class and the degree of commitment to public values often at times of social and political upheaval They explore the course of relationships between local and central government and the shifting bounds of municipal interventionism over a broad period whilst incorporating a social history approach to interpret the day to day responsibilities and routine of administration **The Department of State Bulletin** ,1944 Urban Space and National Identity in Early Twentieth Century São Paulo, Brazil C. Peixoto-Mehrtens, 2010-10-25 This book focuses on how the political cultural and technical networks within the field of engineering provided the space within which an important professional middle class prospered in the city of S o Paulo and made lasting contributions to the development of modern Brazil Ontological Security and Status-Seeking Peera Charoenvattananukul, 2020-01-09 How and why was it possible for a small state such as Thailand to challenge great powers France and Japan during the Second World War Putting ontological security theory into dialogue with status seeking approaches Charoenvattananukul uses a case study of Thailand in the early 1940s to interrogate the dynamics and logic of a small state foreign policy During this period Thailand s foreign policy can appear to be surprising if viewed through a lens of survival imperatives which would assume that passivity towards more powerful states is the optimal policy As the majority of states are small and medium sized it is very important to understand the imperatives that drive such states especially in their

interactions with great powers In applying these frameworks to a small state this book makes a unique and valuable contribution to the field of international relations theory It will also be of great interest to scholars of twentieth century Thai history and of the Pacific Theatre of the Second World War Thailand Thak Chaloemtiarana,2018-08-06 In 1958 Marshal Sarit Thanarat became prime minister of Thailand following a bloodless coup This book offers a comprehensive study of Sarit s paternalistic militaristic regime which laid the foundations for Thailand s support of the US military campaign in Southeast Asia The analysis documents the ways in which Sarit shaped modern Thai politics in part by rationalizing a symbiotic relationship between his own office and the Thai monarchy Rethinking Asia's Economic Miracle Richard Stubbs,2017-09-08 In the new edition of this important contribution to understanding both the Asian economic miracle and the 1997 8 crisis Richard Stubbs assesses the main explanations to date and updates the analysis to take account of globalization and the remarkable economic rise of China **The Confederados** Cyrus B. Dawsey,James M. Dawsey,1995 Of all the colonies founded by former Confederates in Latin America the most important was established by William Norris at Americana in southeastern Brazil For 125 years the people in Americana have held on to their language and customs while prospering within and contributing to the larger Brazilian economy and society The original settlers came from Alabama Texas Louisiana Georgia and South Carolina and some of them returned home for visits from time to time Much has been written about these people but there has been relatively little scholarly inquiry into the historical context and the events of the migration itself the cultural impact that these confederados exerted on their host country and the ways in which the original settlers and their descendants fit into the larger Brazilian society Most immigrant nationalities arriving in Brazil were quickly absorbed by the surrounding culture Although the Confederates numbered but a few thousand and appeared earlier than most of the groups from other nations they maintained distinctive traits and many of their descendants still speak English as a first language The editors provide an excellent scholarly examination of the confederados that is unique in its approach This volume focuses on the Norris settlement near present day Americana and makes clear the ways in which the Americans influenced Brazilian culture beginning in the 1860s and continuing to the present *Political Patronage and Control Over the Sangha* Somboon Suksamran,1981 This paper deals with the structural functional relationships between the Sangha the community of Buddhist monks and the state moving from early times to the present It attempts to show that these relationships have been structured in such a way that the Sangha tends to be subjugated by or subordinated to the state **How the Past was Used** Peter Lambert,Björn Weiler,2017-08-24 The book explores how human societies have used constructed and interpreted their pasts It ranges chronologically from the Middle Ages to the 21st century and in worldwide geographical scope The book probes the concept of the invention of tradition and moves beyond historical writing to embrace a much wider range of media and genres **Cultures of Memory in Asia** Chieh-Hsiang Wu,2022-07-05 A collection of works by Asian scholars looking at different ways in which relatively recent traumas have been memorialized in

their various countries often while the traumas themselves are ongoing or the memories of them contested Memory studies typically focuses on the study of memorialization after traumatic incidents are overcome in Asia however the past and the present remain closely intertwined Between the legacies of the Japanese Empire the respective suppressions by the Kuomintang and the People's Republic of China and the ongoing protests in much of Southeast Asia against oppressive governments and laws memorialization is occurring while the histories are still being contested The contributors to this book are Asian scholars examining the memorializing of events in the countries of Asia including China Taiwan Japan Korea Thailand and the Philippines using local language sources They look at a broad range of media of memorialization encompassing statues cemeteries testimonial literature and film among others An insightful resource for scholars of memory and cultural studies as well as those of twentieth and twenty first century Asian history

Soviet Strategies in Southeast Asia Charles B. McLane, 2015-12-08 This study's main concern is with the growth of Communism within Burma Thailand Malaya Indonesia Indochina and the Philippines The author explores the origin and fate of these indigenous movements their role in domestic politics and relationship to the metropolitan parties in the case of colonial dependencies and to the Soviet Union and their success or failure under the conditions of independence He also assesses the influence of Communist experience in China the formation of Russian policy in Southeast Asia and the policies of the domestic Communist parties Originally published in 1966 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Books and Notes Los Angeles County Public Library, 1926
