John Denver John Collis,2011-09-30 John Denver was America s biggest selling solo star of the 70s In commercial terms he was on a par with Sinatra in the 40s Elvis in the 50s and the Beatles in the 60s He experimented with a variety of styles and won fans from such diverse worlds as folk pop and country music Beneath the often tranquil surface of his music and his clear clean tenor voice however lurked a darker side to Denver s character The writer of Annie s Song one of the most straightforward and personal expressions of love became a wife beater The man who cavorted with the Muppets was an alcoholic The committed environmentalist had his own plane the most polluting form of transport John Collis has delved deep to discover exactly who John Denver was By unravelling the complexities of the singer s personality and background he reveals Denver as a complicated contradictory man much more intriguing than the sometimes placid surface of his music might suggest Millions of people around the globe found something in his music that touched their souls Collis by charting Denver s career and development as an artist explores his legendary contribution not only to the world of music but also to the society of which he was a protagonist and a victim
