Medical Astrology-A Rational Approach J.N. Bhasin,1970 It has been endeavoured to introduce a few specialties in this book Firstly to discuss for the benefit of the student of astrology a maximum number of diseases under astrological laws Secondly to supply in support of that discussion as many illustrations from actual life as is possible with a view to make the subject readily understandable Thirdly we have tried to place the astrological material in a rational logical manner so that the question of health and disease can be tackled in an independent way without being too much subservient to the shlokas of the text We do meet with shlokas dealing with most of the diseases but there are very few books if at all which discuss the how and why of disease We have attempted to discuss the constituents of diseases and the astrological factors representing them severely in order that the student can extend the application of the method to new diseases

is aspected by benefic planets the results will be nullification of malefic influence The disease depends on the strength of the disease producing planets Even if a disease may be indicated from a house from lagna but from Moon and navamsha lagna the same house is strong and lord is fortified the malefic influence may get cancelled Therefore while judging one must consider the house lord of house and karaka of the house rashish where the lord of house is posited i e dispositor and navamshesh the lord of house in navamsha chart where the lord of the house is posited and relationship in navamsha chart between lagna lord and lord of the house into consideration from lagna Moon navamsha lagna and nakshatra of the planet in which he is posited One must take into consideration the nature and qualities of the planets causing the disease functional benefic or malefic to the lagna house in which they are posited The benefic planet will certainly cause less harm than the malefic planet The relationship between the two planets also affects the disease producing capacity The relationship is also natural and functional The aspect and conjunction of the planets should also be taken into consideration The retrograde malefic planet is more powerful in causing diseases than the normal malefic planet The retrograde benefic planet does not protect the native When a benefic planet is lord of maraka house and posited in that house it becomes strong maraka planet Keeping the above factors into consideration we can predict the timing of onset of diseases with the help of dasha system and Gochar The most common dasha system employed is Vimshottari dasha system Still we can divided the timing of diseases into 1 Yogas present in the horoscope 2 Dasha bhukti Paratyantar dasha 3 Transit Gochar 4 Horary All these factors have been discussed in this book in detail

Kalaprakasika N. P. Subramania Iyer, 1991 Creation of the Universe Srikanth s, Important modern scientific truths lie hidden in the highly colourful and symbolical language of the Vedas Brahma does not mean the theological object of worship but it means atomic state which pervades in 58 digits The ancients measured distances not even in astronomical light years that proved inadequate but in number of digits Hiranyaksha should not be taken as a demon It indicates gravitational power of the molten matter inside the earth Dhaataa or Brahmaa is a star standing at a distance of 39 digits and Sarasvatee is its cosmic energy The Universe as a whole is contracting The Earth began to cool 1 000 000 000 000 1 followed by 12 zeroes years ago Universe will go on contracting till it finally collapses in 33 digits of years according to our planet Om is not a mere sound but an actual cosmic state which comes into being when at the initial stage the three Gunas of Prakriti give rise by their interaction to the four states of matter

called the charges atomic molecule and particle states and consequently has dimensions like a concrete substance Gods are stars with supernatural powers such as the cosmic rays attraction repulsion etc Shiva and Paarvattee are the names given to the spiritual and material aspects
