Artillery of Heaven Ussama Makdisi,2011-10-15 The complex relationship between America and the Arab world goes back further than most people realize In Artillery of Heaven Ussama Makdisi presents a foundational American encounter with the Arab world that occurred in the nineteenth century shortly after the arrival of the first American Protestant missionaries in the Middle East He tells the dramatic tale of the conversion and death of As ad Shidyaq the earliest Arab convert to American Protestantism The struggle over this man s body and soul and over how his story might be told changed the actors and cultures on both sides In the unfamiliar multireligious landscape of the Middle East American missionaries at first conflated Arabs with Native Americans and American culture with an uncompromising evangelical Christianity In turn their Christian and Muslim opponents in the Ottoman Empire condemned the missionaries as malevolent intruders Yet during the ensuing confrontation within and across cultures an unanticipated spirit of toleration was born that cannot be credited to either Americans or Arabs alone Makdisi provides a genuinely transnational narrative for this new liberal awakening in the Middle East and the challenges that beset it By exploring missed opportunities for cultural understanding by retrieving unused historical evidence and by juxtaposing for the first time Arab perspectives and archives with American ones this book counters a notion of an inevitable clash of civilizations and thus reshapes our view of the history of America in the Arab world

Battle for the Soul Keith R. Widder, 1999-04-30 In 1823 William and Amanda Ferry opened a boarding school for M tis children on Mackinac Island Michigan Territory setting in motion an intense spiritual battle to win the souls and change the lives of the children their parents and all others living at Mackinac Battle for the Soul demonstrates how a group of enthusiastic missionaries empowered by an uncompromising religious motivation served as agents of Americanization The Ferrys high hopes crumbled however as they watched their work bring about a revival of Catholicism and their students refuse to abandon the fur trade as a way of life The story of the Mackinaw Mission is that of people who held differing world views negotiating to create a middle ground a society with room for all Widder s study is a welcome addition to the literature on American frontier missions Using Richard White s middle ground paradigm it focuses on the cultural interaction between French British American and various native groups at the Mackinac mission in Michigan during the early 19th century The author draws on materials from the American Board of Commissioners for Foreign Missions archives as well as other manuscript sources to trace not only the missionaries efforts to Christianize and Americanize the native peoples but the religious social and cultural conflicts between Protestant missionaries and Catholic priests in the region Much attention has been given to the missionaries to the Indians in other areas of the US but little to this region
