The Crusades were a period in history when Christian knights tried to take back the Holy Land which had been conquered by the Muslims. The barons were tired of being taxed to pay for his wars. This document was essentially a document in medieval times to clarify the differences between the three powers in England at the time: the Catholic Church, the king, and the barons. This is an important document because it was the first time in history that people other than the king or the church were given some powers. It did nothing about granting rights to the peasants and the merchant class. This is important because it was the very first time in the history of the world that the king and the church had their powers curbed. Not one other country in the world at this time had a Magna Carta, many still don't, and this is important because it was the English who were the first ones to colonize the areas of our country which was first known as the thirteen colonies. These colonists brought with them these truly revolutionary ideas of individual freedom.

The Thirteen Colonies Brendan January, 2001-03 Examines the creation of the original 13 colonies in the United States from the failed colony of Roanoke in 1587 to the formation of the Georgia colony in 1733.
