Commerce Business Daily ,2000-06 **Letters** Oliver Sacks, 2024-11-05 The letters of one of the greatest observers of the human species revealing his passion for life and work friendship and art medicine and society and the richness of his relationships with friends family and fellow intellectuals over the decades collected here for the first time Here is the unedited Oliver Sacks struggling passionate a furiously intelligent misfit And also endless interesting He was a man like no other Atul Gawande author of Being Mortal Dr Oliver Sacks who describes himself in these pages as a philosophical physician and a neuropathological Talmudist wrote letters throughout his life to his parents and his beloved Auntie Len to friends and colleagues from London Oxford California and around the world The letters begin with his arrival in America as a young man eager to establish himself away from the confines of postwar England and carry us through his bumpy early career in medicine and the discovery of his writer s voice his weight lifting motorcycle riding years and his explosive seasons of discovery with the patients who populate his book Awakenings his growing interest in matters of sight and the musical brain his many friendships and exchanges with writers artists and scientists to say nothing of astronauts botanists and mathematicians and his deep gratitude for all these relationships at the end of his life Sensitively introduced and edited by Kate Edgar Sacks s longtime editor the letters deliver a portrait of Sacks as he wrestles with the workings of the brain and mind We see through his eyes the beginnings of modern neuroscience following the thought processes of one of the great intellectuals of our time whose words as evidenced in these pages were unfailingly shaped with generosity and wonder <u>Urban Religion</u> Jörg Rüpke, 2020-02-24 So far religion has been seen as cause for dramatic toward other people developments in the history of cities it has contributed to the monumentalisation of centres and or has given importance to ex centric places Very recently anthropologists have been discovering religion in the contemporary global city But still awaiting historical investigation is the specific urban character of religious ideas practices and institutions and the role of urban space shaping this very religion in the course of history The time span from the Hellenistic age to Late Antiquity was crucial in the

establishment of concepts and institutions of religion and witnessed extended waves of urbanisation Rome being central to this In addressing this problem this book fills a significant gap in the scholarship on urban religion across time Taking seriously the proposition that space is condition medium and outcome of social relations the development of urban religion in lived urban space and urban culture or urbanity offers a lens onto processes of religious change that have been neglected for the history of religion and for the study of urbanism The key thesis is that city space engineered the major changes that revolutionised religions This stimulating book makes use of archaeology and history to address religion as an essential component of urban life in both the past and the present With a strong basis in the ancient Mediterranean as well as an insightful view of modern urban life R pke emphasizes that the practice and performance of religion at the everyday level is as essential in the creation of an urban ethos as the grand temples and institutions promulgated by the elite Monica L Smith author of Cities The First 6 000 Years J rg R pke offers a characteristically original and learned series of reflections on some of the many ways in which the history of religions and the history of cities might be entangled Urban Religion offers no single overarching thesis but it is consistently thought provoking and suggests many intriguing lines of investigation for the future Greg Woolf Institute of Classical Studies London
