S. Bach* Mark A. Peters,Reginald L.

Sanders,2020-07-06 *Compositional Choices and Meaning in the Vocal Music of J S Bach* collects seventeen essays by leading Bach scholars The authors each address in some way such questions of meaning in J S Bach s vocal compositions including his Passions Masses Magnificat and cantatas with particular attention to how such meaning arises out of the intentionality of Bach s own compositional choices or in Part IV in particular how meaning is discovered and created through the reception of Bach s vocal works And the authors do not consider such compositional choices in a vacuum but rather discuss Bach s artistic intentions within the framework of broader cultural trends social historical theological musical etc Such questions of compositional choice and meaning frame the four primary approaches to Bach s vocal music taken by the authors in this volume as seen across the book s four parts Part I How might the study of historical theology inform our understanding of Bach s compositional choices in his music for the church cantatas Passions masses Part II How can we apply traditional analytical tools to understand better how Bach s compositions were created and how they might have been heard by his contemporaries Part III What we can understand anew through the study of Bach s self borrowing i e parody which always changed the earlier meaning of a composition through changes in textual content compositional characteristics the work s context within a larger composition and often the performance context from court to church for example Part IV What can the study of reception teach us about a work s meaning s in Bach s time during the time of his immediate successors and at various points since then including our present The chapters in this volume thus reflect the breadth of current Bach research in its attention not only to source study and analysis but also to meanings and contexts for understanding Bach s compositions **The Easter Computus and the Origins of the Christian Era** Alden A. Mosshammer,2008-10-16 The

system of numbering the years AD Anni Domini Years of the Lord originated with Dionysius Exiguus Dionysius drafted a 95 year table of dates for Easter beginning with the year 532 AD Why Dionysius chose the year that he did to number as 1 has been a source of controversy and speculation for almost 1500 years According to the Gospel of Luke 3 1 3 23 Jesus was baptized in the 15th year of the emperor Tiberius and was about 30 years old at the time The 15th year of Tiberius was AD 29 If Jesus was 30 years old in AD 29 then he was born in the year that we call 2 BC Most ancient authorities dated the Nativity accordingly Alden Mosshammer provides the first comprehensive study of early Christian methods for calculating the date of Easter to have appeared in English in more than one hundred years He offers an entirely new history of those methods both Latin and Greek from the earliest such calculations in the late second century until the emergence of the Byzantine era in the seventh century From this history Mosshammer draws the fresh hypothesis that Dionysius did not calculate or otherwise

invent a new date for the birth of Jesus instead adopting a date that was already well established in the Greek church
 Mosshammer offers compelling new conclusions on the origins of the Christian era drawing upon evidence found in the fragments of Julius Africanus of Panodorus of Alexandria and in the traditions of the Armenian church **Two Poets of the Oxford Movement** Rodney Stenning Edgecombe,1996 John Keble and John Henry Newman both conceived poetry as the instrument of religious persuasion Keble through his Christian Year which although it antedated the movement was hailed as its Baptist cry and Newman through his more aggressive contributions to Lyra Apostolica **The Jewish Pesach and the Origins of the Christian Easter** Clemens Leonhard,2012-02-14 The study assesses the main issues in the current debate about the early history of Pesach and Easter and provides new insights into the development of these two festivals The author argues that the prescriptions of Exodus 12 provide the celebration of the Pesach in Jerusalem with an etiological background in order to connect the pilgrim festival with the story of the Exodus The thesis that the Christian Easter evolved as a festival against a Jewish form of celebrating Pesach in the second century and that the development of Easter Sunday is dependent upon this custom is endorsed by the author s close study of relevant texts such as the Haggada of Pesach the Poem of the four nights in the Palestinian Targum Tradition the structure of the Easter vigil *The Educational Encyclopedia of Common Things* Richard Linthicum,1903 Accompanying Harmonies to The Hymnal Noted Thomas Helmore,1852
