Goodheart, Hugh Hawkins, 1995 The Struggle for Black Political Empowerment

in Three Georgia Counties Lawrence J. Hanks, 1990 Although the Voting Rights Act of 1965 removed the last legal barriers to voting in the South the anticipated increase in black political power has not been realized In his analysis of black political participation in three predominantly black Georgia counties between 1960 and 1982 Lawrence J Hanks seeks to explain why black political empowerment has not increased as expected but also why it has met with such widely varying degrees of success Why did blacks in some counties achieve empowerment while others did not Arguing that models that focus on individual voting patterns or on political barriers to empowerment fail to account for the varying rates of black participation hanks draws instead on the literature of collective action He finds that only in those counties where there was a successful black political organization backed by strong leaders and sufficient resources did blacks achieve political empowerment Once established such an organization gained popular support through programs of economic development and was able to overcome barriers like ignorance poverty and fear and thus promote effective political mobilization Approaching his subject historically Hanks tells the real story of real people working for political change at the local level He concludes that the franchise alone does not insure political effectiveness and that blacks need to work toward greater organizational economic and political sophistication in order to reap the benefits of the vote

Black Rights in the Reconstruction Era Vanessa Holloway, 2018-06-20 Most observers and historians rarely acknowledge the history of civil rights predating the twentieth century The book Black Rights in the Reconstruction Era pays significant scholarly attention to the intellectual ferment legal and political of the nineteenth century by tracing the history of black Americans civil rights to the postbellum era By revisiting its faulty foundational history this book lends itself to show that after emancipation national and local struggles for racial equality had led to the encoding of racism in the political order in the American South and the proliferation of racism as an American institution Vanessa Holloway draws upon a host of historical legal and philosophical studies as well as legislative histories to construct a coherent theory of the law s relevance to the era questioning how the nexus of race and politics should be interpreted during Reconstruction Anchored in the Reconstruction Amendments Supreme Court decisions and landmark statutes of the 1860s and 1870s the Black Codes the Freedmen s Bureau the Civil Rights Act of 1866 the Reconstruction Acts the Enforcement Acts and the Civil Rights Act of 1875 Black Rights in the Reconstruction Era offers a new perspective on the political history of law between the years 1865 and 1877 It is predominant in the ongoing debates on social justice and racial inequality
