## **The Power Of Ideology:**

**The Ideology of Power and the Power of Ideology** Göran Therborn, 1999-07-17 Few concepts have been so intensively discussed or so widely sponsored as that of ideology Whether read as the expression of social classes or attributed a material independence and efficacy whether devalued as false and non scientific or asserted as the necessary element of social practice ideology has become an ineluctable conceptual reference across a range of works dealing with subjects as varied as science and politics gender and cultural production In this book Göran Therborn makes a decisive contribution to the contemporary debate Beginning with some critical reflections on Louis Althusser's influential writings in the late sixties Therborn develops a theory of the formation of human subjects He then goes on to consider the material matrix of ideologies and the problem of ideological change the ideological constitution of classes and the characteristics of the discursive order that regulates it Turning to questions of state power and political struggle Therborn provides a remarkable account of ideological domination that displaces traditional categories and a fascinating analysis of the process of political mobilization Brief yet wide ranging probing yet succinct **The Ideology of Power and the Power of Ideology** is a work of theoretical exploration that establishes new bearings for the current discussion of ideology

**The Power of Ideology** István Mészáros, 2005 *The Power of the Powerless* Vaclav Havel, John Keane, 2016-09-16 Books of great political insight and novelty always outlive their time of birth and this reissued work initially published in 1985 is no exception Written shortly after the formation of Charter 77 the essays in this collection are among the most original and compelling pieces of political writing to have emerged from central and Eastern Europe during the whole of the post war period Vaclav Havel's essay provides the title for the book It was read by all the contributors who in turn responded to the many questions which Havel raises about the potential power of the powerless The essays explain the anti democratic features and limits of Soviet type totalitarian systems of power They discuss such concepts as ideology democracy civil liberty law and the state from a perspective which is radically different from that of people living in liberal western democracies The authors also discuss the prospects for democratic change under totalitarian conditions Steven Lukes introduction provides an invaluable political and historical context for these writings The authors represent a very broad spectrum of democratic opinion including liberal conservative and socialist *The Power of Ideology* Istvan Meszaros, 2005-10-21 Istvan Meszaros provides a lucid and polemical examination of the power of contemporary ideology He undertakes a systematic analysis of ideology on a scale not attempted since Lukacs *History and Class Consciousness* The book is the result of many years of research and surveys and integrates a vast amount of material from the fields of Philosophy Sociology Political Theory and Political

Economy Firmly based on the classical literature reaching back to the 18th century the discussions are brought fully up to date with the assessment of contemporary preoccupations on the subject

**The Power of Negative Thinking** Benjamin Schreier,2009-04-20 Benjamin Schreier is suspicious of a simple equation of cynicism with quietism nihilism selfishness or false consciousness and he rejects the notion that modern cynicism represents something categorically different from the classical outlook of Diogenes He proposes instead that cynicism names the difficult position of not being able to recognize the relevance of democratic social norms in the future and yet being nonetheless invested in the power of these norms to determine cultural identity and to regulate social practices In his readings of Henry Adams s Education Willa Cather s The Professor s House F Scott Fitzgerald s The Great Gatsby and Nathanael West s Miss Lonelyhearts the author affirms that cynicism is an important and under appreciated current in mainstream modern American literature He finds that far from the simple selfishness or apathy for which it is so often dismissed the cynicism in these texts is suffused by a desire for the certainty promised by norms such as national teleology ethnic identity and civic participation But without faith in the relevance of these regulating terms cynics lack ready accounts of America and of their place in it Schreier s focus is not only on the cynical characters in the texts but also on the textual and epistemological strategies used to render normative narratives recognizably legitimate in the first place In his refusal to historicize cynicism away with generalized claims about American society Schreier argues instead that cynicism stages an unanswerable challenge to the specific expectations through which normative accounts of history become visible The Power of Negative Thinking makes a vital and wide ranging contribution to our understanding of American literature intellectual and cultural history philosophy ethics and politics Schreier s close reading and his vigorous theoretical examination of analytical first principles combine to make a book that is valuable not only to the study of methodology but also to the scrutiny of the very assumptions the humanities bring to the exploration of the way we think

The Power of Tautology Allen Thiher, 1997 Historicism occupies a central position in recent developments of literary theory exemplified by Heidegger and Foucault They are respectively right and left wing examples of the desire to define whatever occurs in history as a product of history Heidegger and Foucault also represent versions of the widespread belief that history should be viewed as a form of conspiracy Another example studied is the structuralism that has developed from Saussure through Roland Barthes Structuralism has defined all products of the human mind to be systems that can be reduced to the system of language The Power of the Story Michael Hanne, 1996 A spirited well researched volume This highly readable study is an impressive work of contemporary criticism richly deserving its intended general and academic audiences Choice Literature and Power Zhu Guohua, 2023-11-28 With reference to the theoretical framework of Michel

Foucault and Pierre Bourdieu this book offers a critical investigation into such epic issues as the end of art and the inherent laws of literature's evolution while conflating the two into one major argumentation The book proceeds from Hegel's claim of the end of art to tackle the universal yet essential problem of literature's legitimacy in a sociological sense It invests Bourdieu's sociological terms power capital habitus field and so forth into the study of literature and art while taking on other theoretical enquiries particularly the Marxist exploration into ideology as well as aspects of economics and communication studies This book will be a valuable resource for students and scholars of the sociology of literature cultural

studies and those with specific interests in Chinese literature literary and art theory

*The Necessity of Social Control* István Mészáros, 2014-01-26 As John Bellamy Foster writes in his foreword to the present book Istv n M sz ros is one of the greatest philosophers that the historical materialist tradition has yet produced His work stands practically alone today in the depth of its analysis of Marx s theory of alienation the structural crisis of capital the demise of Soviet style post revolutionary societies and the necessary conditions of the transition to socialism His dialectical inquiry into social structure and forms of consciousness a systematic critique of the prevailing forms of thought is unequalled in our time M sz ros is the author of magisterial works like Beyond Capital and Social Structures of Forms of Consciousness but his work can seem daunting to those unacquainted with his thought Here for the first time is a concise and accessible overview of M sz ros s ideas designed by the author himself and covering the broad scope of his work from the shortcomings of bourgeois

economics to the degeneration of the capital system to the transition to socialism

**The Power of the Buddhas** sem Versmeersch, 2020-03-17 Buddhism in medieval Korea is characterized as State Protection Buddhism a religion whose primary purpose was to rally support supernatural and popular for and legitimate the state In this view the state used Buddhism to engender compliance with its goals A closer look however reveals that Buddhism was a canvas on which people projected many religious and secular concerns and desires This study is an attempt to specify Buddhism s place in Koryo and to ascertain to what extent and in what areas Buddhism functioned as a state religion Was state support the main reason for Buddhism s dominance in Koryo How actively did the state seek to promote religious ideals What was the strength of Buddhism as an institution and the nature of its relationship to the state What role did Confucianism the other state ideology play in Koryo This study argues that Buddhism provided most of the symbols and rituals and some of the beliefs that constructed an aura of legitimacy but that there was no single ideological system underlying the Koryo dynasty s legitimating strategies

**Risk, Power and the State** Magnus Hörnqvist, 2010-02-25 Risk Power and the State addresses how power is exercised in and by contemporary state organisations Through a detailed analysis of programmatic attempts to shape behaviour linked to considerations of risk this book pursues the argument that whilst Foucault is useful for understanding power the Foucauldian tradition with its strands of discourse analysis of governmentality studies or of radical Deleuzian critique suffers from a lack of clarification on key conceptual issues Oriented around four case studies the architecture of the book devolves upon the distinction between productive and repressive power The first two studies focus on productive power the management of long term unemployment in the public employment service and cognitive behavioural interventions in the prison service Two further studies concern repressive interventions the conditions of incarceration in the prison service and the activity of the customs service These studies reveal that power as conceptualised within the Foucauldian tradition must be modified A more complex notion of productive power is needed which covers interventions that appeal to desires and which govern both at a distance and at close range Additionally the simplistic paradigm of repressive power is called into question by the need to consider the organising role of norms and techniques that circumvent agency Finally it is argued Foucault s concept of strategies which accounts for the thick web of administrative directives organisational routines and techniques that simultaneously shape the behaviour of targeted individuals and members of the organisation requires an organisational dimension that is often neglected in the Foucauldian tradition

**The Place of Media Power** Nick Couldry, 2002-01-04 This fascinating study focuses on an area neglected in previous studies of the media the meetings between ordinary people and the media Couldry explores what happens when people who normally consume the media witness media processes in action or even become the object of media attention themselves
