Embracing Age Anna I Corwin, 2021-08-13 *Embracing Age* reveals that aging is not only a biological process but is also shaped by what the process of growing older means to us By examining Catholic nuns a group that experiences positive health outcomes in older age Anna I Corwin reveals the connections between culture language and the experience of aging

Aging with Grace David Snowdon, 2002-04-30 In 1986 Dr David Snowdon one of the world's leading experts on Alzheimer's disease embarked on a revolutionary scientific study that would forever change the way we view aging and ultimately living. Dubbed the Nun Study because it involves a unique population of 678 Catholic sisters, this remarkable long-term research project has made headlines worldwide with its provocative discoveries. Yet *Aging with Grace* is more than a groundbreaking health and science book. It is the inspiring human story of these remarkable women ranging in age from 74 to 106 whose dedication to serving others may help all of us live longer and healthier lives. Totally accessible with fascinating portraits of the nuns and the scientists who study them, *Aging with Grace* also offers a wealth of practical findings: Why building linguistic ability in childhood may protect against Alzheimer's. Which ordinary foods promote longevity and healthy brain function. Why preventing strokes and depression is key to avoiding Alzheimer's. What role heredity plays and why it's never too late to start an exercise program. How attitude, faith, and community can add years to our lives. A prescription for hope. *Aging with Grace* shows that old age doesn't have to mean an inevitable slide into illness and disability; rather, it can be a time of promise and productivity, intellectual and spiritual vigor, a time of true grace. *Growing Older* James T. Sears, 2013-09-13 LGBT older adults experience issues and challenges that are unique, including institutional heteronormativity, heterosexism in organizations, and homophobia among caregivers and social service providers. This book presents a diverse group of scholars, activists, social service providers, and researchers from around the globe examining current research practices and policies on aging among LGBT individuals. This revealing source lays out the significant challenges faced not only by this aging sexual minority population but also for their social service providers and those who train them. The chapters explore the Greater London area Polari Project, the adjustments made in the long-running HIV support group at St Paul's Hospital in Vancouver, and the Liberation Psychology workshops in Ireland for lesbian and transgendered persons. This volume can serve as an excellent teacher resource for engaging undergraduate and graduate students in various professions who will be working with older LGBT adults. This text is extensively referenced and includes tables to clearly present research. This book is a valuable source for program administrators and supervisors, human behavior researchers, psychologists, and psychotherapists, social planners, and policy specialists, community developers, and organizers, case managers, direct service practitioners involved with LGBT communities, educators, and students. This book was published as a special issue of the *Journal of Gay Lesbian Social Services*. [The Writers Directory](#), 2013 [Accounting for Social Value](#) Laurie Mook, 2013-01-01 *Accounting for Social Value* offers academics, accountants, policy developers, and members of non-profit, co-operative, and for-profit organizations tools and insights to explore the connections between economic, social, and environmental dimensions.
