So Last Uns Denn Ein Apfelbaumchen Pflanzen Es Ist Soweit:

From Cosmology to Ecology Eric Paul Jacobsen, 2005 This book traces the development of the monist world view in Germany from the Age of Goethe to the 1920s Originally a core idea in the philosophy of Spinoza monism the idea of a universe of one substance that is both mind and matter inspired many German thinkers from Goethe to Fechner especially the infamous social Darwinist Ernst Haeckel This study contrasts Haeckel s monism with the more benign monist world views of his predecessors and of his socialist and left liberal contemporaries and followers above all Bruno Wille and Wilhelm B

lsche The End of the World Ulrich H. J. Körtner, 1995-01-01 In this book Ulrich Kortner addresses the issue of apocalyptic anxiety by offering a theological and philosophical evaluation of the apocalyptic In particular Kortner looks at how theology responding in pastoral sensitivity should deal with apocalyptic fears and anxieties Kortner concludes that real meaning and hope for the world is possible only after the world s inhabitants deal constructively with the stark reality of the world s end

Schopenhauer and the Wild Years of Philosophy Rüdiger Safranski, 1991 With equal attention to both the life and work of his subject Safranski places the visionary skeptic in the context of philosophical predecessors and contemporaries like Kant Fichte Schelling and Hegel and explores the sources of Schopenhauer s profound alienation from their secularized religion of reason

The Meaning of Death Kai Horsthemke, 2024-07-23 If death is the cessation of life then as a concept it draws its meaning from the preceding life While death and dying are inextricably connected dying is still a part of life unlike death The Meaning of Death A Philosophical Investigation analyzes death and dying the biotechnical quest for immortality the afterlife and the rationality of self chosen death Assuming eternal life will one day become possible Kai Horsthemke argues that immortality is not obviously desirable and that even if the right to life in principle includes the right to eternal life it must also include the right to self determined dying and death Although there is no creationist basis for existence and the finality of death remains a universal inevitable prospect this need not undermine confidence in the personal and transpersonal value of human activities Life is valuable not only because of its uniqueness and unrepeatability but also because it is finite The meaning of death is essentially that it gives meaning to life

The Nuclear Crisis Christoph Becker-Schaum, Philipp Gassert, Martin Klimke, Wilfried Mausbach, 2016-10-01 In 1983 more than one million Germans joined together to protest NATO s deployment of nuclear missiles in Europe International media overflowed with images of marches rallies and human chains as protesters blockaded depots and agitated for disarmament Though they failed to halt the deployment the episode was a decisive one for German society revealing deep divisions in the nation s political culture while continuing to mobilize activists This volume provides a comprehensive reference work on the Euromissiles crisis as experienced by its various protagonists analyzing NATO s diplomatic and military maneuvering and tracing the political cultural and moral discourses that surrounded the missiles deployment in East and West Germany
