

## CHAPTER 2

# SOCIAL CHANGE AND SOCIAL ORDER IN RURAL AND URBAN SOCIETY

### Points To Remember

- Social change refers to changes in structure and culture of the society.
- Changes can be both intensive and extensive.

### Types of Social Change

- Darwin proposed the theory of evolution and emphasized on the 'survival of the fittest'.
- Darwin's theory of evolution has been adapted to the social world and termed as 'social Darwinism', a theory that emphasised the importance of adaptive change.
- In contrast to evolution, revolutionary change is quick, sudden and overthrows the existing system. Example French Revolution.
- Changes in values and beliefs can also lead to social change.
- On the basis of pace social change may be Evolutionary(Darwin's theory) or Revolutionary (French revolution)
- Changes in ideas, values and beliefs also lead to social change
- Industrialization and urbanization have led to change in the structure of the society.
- Sanskritisation and Westernization have brought change in its culture.

### Causes of Social Change

- **Five broad types of sources of causes of social change:** Change are environmental, technological, economic, political and cultural.

# Social Change Urban Politics Readings

**Ronald Vogel, John Harrigan**

## **Social Change Urban Politics Readings:**

Social Change and Urban Politics: Readings Daniel N. Gordon, 1973      *Social Change and Urban Politics: Readings* Daniel N. Gordon, 1973      *The Dependent City Revisited* Paul Kantor, 2019-07-11 Here is a book that makes sense of the L.A. riots, homelessness, tax giveaways and the other big urban issues that are back in the national spotlight. In this streamlined and updated new edition of his classic book *The Dependent City*, Paul Kantor now focuses on economic development and social welfare policies to reveal the key dilemmas of American urban politics. Returning to a political economy theme, Kantor explores how city governments have struggled to escape and accommodate the reality of their economic dependency in the policies that they've pursued. Revisiting cities across the nation, Kantor finds not only that they have become more dependent but also that the character of this dependency has changed and deepened. Exploring local regimes in the Frostbelt and Sunbelt and in suburbia, he finds that they frequently act more like captives of big business rather than as representatives of citizens. Local attempts to promote social justice increasingly run up against a wall of economic dependency created by federal policies and business power. This book signals how American cities can find ways of overcoming this dependency by working together with states and the federal government to promote healthy democratic urban politics. *The Dependent City Revisited* is an accessible, provocative supplement for a wide variety of courses in urban studies and political economy as well as stimulating reading for anyone who is interested in understanding America's urban mosaic.

**Political Change in the Metropolis** Ronald Vogel, John Harrigan, 2015-10-05 This popular text has been thoroughly updated and revised to sharpen the focus on its bias and change theme. It includes the latest data studies informing the field and covers important new topics, e.g., flood disaster in New Orleans. *Political Change in the Metropolis*, Eighth Edition, continues to focus on the political changes that have taken place in American cities and the reactions of urban scholars to them. In addition to offering scholarly perspectives, the text offers students a theoretical framework for interpreting these changing events for themselves. This framework analyzes the patterns of bias inherent in the organization and operation of urban politics, giving students an in-depth look at the fascinating and constantly changing face of urban politics. Features: Accessible writing style engages students in the material. Provides excellent coverage of the impact of immigrants and ethnic groups in the making of the American city. An abundance of historical material helps students better understand the origins and development of urban politics and structures. Case studies throughout the text give students an opportunity to apply important material. The text exposes students to first-rate discussions of political phenomena and empirical literature on those phenomena.

**Urban Reform and Sexual Vice in Progressive-Era Philadelphia** James H. Adams, 2015-07-01 This book examines the intersection and interplay between Progressive Era rhetoric regarding commercialized vice and the realities of prostitution in early twentieth-century Philadelphia. Arguing that any study of commercial sexual vice in a historical context is difficult given the paucity of evidence, this work instead focuses on reformers' construction of a cultural view of prostitution, which Adams

argues was based more upon their perceptions of the trade than on reality itself Looking at the urban core of the city Progressive reformers saw vice immorality and decay but as they frequently had little face to face interaction with prostitutes plying their trade they were forced to construct culturally fueled archetypes to explain what they believed they saw Ultimately reformers in Philadelphia were battling against a rhetorical creation of their own design and any study of anti vice reform in the early twentieth century tells us more about the relationship between activists and the government than it does about vice itself The Parameters of Urban Fiscal Policy Terrence J. McDonald, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1986

**City Politics, Pearson eText** Dennis R. Judd, 2015-09-16 This text provides a foundation for understanding the politics of America's cities and urban regions Praised for the clarity of its writing careful research and distinctive theme that urban politics in the United States has evolved as a dynamic interaction among governmental power private actors and a politics of identity City Politics remains a classic study of urban politics Power and Society in Greater NY David C. Hammack, 1982-10-02 Who has ruled New York Has power become more concentrated or more widely and democratically dispersed in American cities over the past one hundred years How did New York come to have its modern physical and institutional shape Focusing on the period when New York City was transformed from a nineteenth century mercantile center to a modern metropolis David C Hammack offers an entirely new view of the history of power and public policy in the nation's largest urban community Opening with a fresh and original interpretation of the metropolitan region's economic and social history between 1890 and 1910 Hammack goes on to show how various population groups used their economic social cultural and political resources to shape the decisions that created the modern city As New York grew in size and complexity its economic and social interests were forced to compete and form alliances No single group not even the wealthy was able to exercise continuing control of urban policy Building on his account of this interplay among numerous elites Hammack concludes with a new interpretation of the history of power in New York and other American cities between 1890 and 1950 This book makes a major contribution to the study of community power of urban and regional history and of public policy And by taking the meaning and distribution of power as his theme Hammack is able to reintegrate economic social and political history in a rich and comprehensive work Lucid instructive and discerning The most commanding analysis of its subject that I know John M Blum professor of history Yale University A powerful and persuasive treatment of a marvelous subject Nelson W Polsby professor of political science University of California Berkeley **Power and City Governance** Alan DiGaetano, 1999 **Civic Affairs**, 1977

## Whispering the Strategies of Language: An Psychological Quest through **Social Change Urban Politics Readings**

In a digitally-driven world where monitors reign supreme and quick interaction drowns out the subtleties of language, the profound strategies and psychological nuances concealed within phrases often get unheard. However, situated within the pages of **Social Change Urban Politics Readings** a fascinating literary value sporting with natural emotions, lies an exceptional journey waiting to be undertaken. Published by a skilled wordsmith, this enchanting opus encourages viewers on an introspective journey, gently unraveling the veiled truths and profound influence resonating within the very material of each word. Within the emotional depths of the moving review, we will embark upon a genuine exploration of the book is primary subjects, dissect their fascinating publishing model, and yield to the powerful resonance it evokes strong within the recesses of readers hearts.
