The Overburdened Economy Lloyd J. Dumas,1986 Argues that the American economy has continued to decline since the late 1960s and includes ideas for America's revitalization

Building the Good Society Lloyd J. Dumas,2019-11-15 In six interconnected essays leading political economist Lloyd J. Dumas presents a pragmatic alternative view of a society that is capable of maximizing individual freedoms and producing sustained prosperity while preserving socially responsible behavior

America's Strategic Choices, revised edition Michael E. Brown,Owen R. Cote, Jr.,Sean M. Lynn-Jones,Steven E. Miller,2000-07-18 Contending perspectives on the future of US grand strategy More than a decade has passed since the end of the Cold War but the United States has yet to reach a consensus on a coherent approach to the international use of American power The essays in this volume present contending perspectives on the future of U S grand strategy U S policy options include primacy cooperative security selective engagement and retrenchment This revised edition includes additional and more recent analysis and advocacy of these options The volume includes the Clinton administration's National Security Strategy for a New Century the most recent official statement of American grand strategy so readers can compare proposed strategies with the official U S government position

The Peacekeeping Economy Lloyd J. Dumas,2011-09-20 DIVThe idea that military strength is virtually synonymous with security is deeply entrenched and widely held But while the threat or use of military force may sometimes be necessary it cannot keep us as safe as we would be by building relationships that replace hostility with a sense of mutual purpose and mutual gain Economic relationships says Lloyd J. Dumas can offer a far more effective and far less costly means of maintaining security After defining the right kind of economic relationship one that is balanced and nonexploitative emphasizes development and minimizes environmental damage Dumas then addresses some practical concerns in establishing and maintaining these relationships He also considers the practical problems of the transition from military based security arrangements to economic peacekeeping and the effects of demilitarized security on economic development and prosperity div

Future Survey Annual 1986 Michael Marien,1987-01-01 **The Institution of War** Robert A. Hinde,2016-07-27 War must be regarded as an institution which has evolved over time If its incidence is to be reduced the forces that maintain it as an institution must be understood In this book the nature of war and the factors that sustain it are considered from diverse perspectives anthropology history political science theology philosophy international law economics psychiatry and biology

The Socio-economics of Conversion from War to Peace Lloyd J. Dumas,Amitai Etzioni,2016-09-17 This text discusses the economic social and political implications of redirecting labour and capital from a military based to a post Cold War economy

War, Peace, and Security Jacques Fontanel,Manas Chatterji,2008-10-13 In the name of international and domestic security billions of dollars are wasted on unproductive military spending in both

developed and developing countries when millions are starving and living without basic human needs This book contains articles relating to military spending military industrial establishments and peace keeping *The Politics and Economics of Defence Industries* Efraim Inbar, Benzion Zilberfarb, 2013-09-13 This volume provides a policy relevant analysis of the complex web of contemporary economic trends political developments and strategic considerations that are shaping the contours of the new post Cold War world market for weaponry **Making Peace Possible** Lloyd J. Dumas, Marek Thee, 2014-06-28 In Making Peace Possible the editors have presented a range of papers which focus on the theory and practice of economic conversion of military oriented industry to civilian use The book brings together a wealth of information from academic research and from case studies undertaken by individual countries and by the United Nations Covering such diverse topics as the relationship between the level of armament expenditure in the industrialized countries and economic aid to less developed countries the economic impact of ever increasing expenditure on arms and the theory and practical experience of economic conversion projects in the US and Scandinavia Making Peace Possible shows that economic conversion from military to civilian use can help form the basis for a more peaceful and economically stable world Arming the South J. Brauer, P. Dunne, 2002-05-10 After marked reductions in military spending in the 1990s military budgets around the world are on the increase In this book renowned authorities re examine the economics of military expenditure arms production and arms trade in developing nations It includes analysis of military spending in Africa Asia and Latin America and new forms of civil conflict as well as nine case studies Saudi Arabia South Africa Mozambique Angola Sub-Saharan Africa Greece Turkey Guatemala and Chile The book will serve as a valuable contribution to the fields of both development economics and security studies **Tripwire** Doug Bandow, 1996 Contends that Washington should initiate a phased withdrawal **The Conquest Of War** Harry B Hollins, Averill L. Powers, Mark Sommer, Roger D Fisher, 2019-07-23 This book explores alternative systems and strategies for global security by which the conflicts between nations can be carried on and ultimately resolved without recourse to war examining system changes some of which may take many years to enact **State of War** Paul A. C. Koistinen, 2012-09-16 In his farewell speech President Dwight Eisenhower famously warned us of the dangers of a military industrial complex MIC In Paul Koistinen's sobering new book that warning appears to have been both prophetic and largely ignored As the final volume in his magisterial study of the political economy of American warfare State of War describes the bipolar world that developed from the rivalry between the U S and USSR showing how seventy years of defense spending have bred a monster that has sunk its claws into the very fabric of American life Koistinen underscores how during the second half of the twentieth century and well into the twenty first the United States for the first time in its history began to maintain large military structures during peacetime Many factors led to that result the American economy stood practically alone in a war ravaged world the federal government especially executive authority was at the pinnacle of its powers the military accumulated unprecedented influence over national security and weaponry became much

more sophisticated following World War II Koistinen describes how the rise of the MIC was preceded by a gradual process of institutional adaptation and then supported and reinforced by the willing participation of Big Science and its industrial partners the broader academic world and a proliferation of think tanks He also evaluates the effects of ongoing defense budgets within the context of the nation's economy since the 1950s Over time the MIC effectively blocked efforts to reduce expenditures control the arms race improve relations with adversaries or adopt more enlightened policies toward the developing world all the while manipulating the public on behalf of national security to sustain the warfare state Now twenty years after the Soviet Union's demise defense budgets are higher than at any time during the Cold War As Koistinen observes more than six decades of militaristic mobilization for stabilizing a turbulent world have firmly entrenched the state of war as a state of mind for our nation Collectively his five volume opus provides an unparalleled analysis of the economics of America's wars from the colonial period to the present illuminating its impact upon the nation's military campaigns foreign policy and domestic life *Handbook of Development Policy Studies* Gedeon M. Mudacumura, M. Shamsul Haque, 2004-04-23

Considering the current challenges to human progress this reference book examines recent theories policies and sectoral priorities as well as various social economic and administrative factors that impact worldwide modernization and development The book emphasizes the fact that communities must evaluate continuously and adjust their program **Plant Closings** Dena Targ, 2020-04-29 PLANT CLOSED A sign of the times These two words have had profound meaning for workers in every factory and office across the country Millions of workers who have already been displaced by closings have had to pick up the pieces of shattered lives and get on with the business of living Those who are still working are faced with the insecurity of wondering whether they might find the gates closed some morning when they arrive at work The number of plant closings and the threat of future closings have raised many questions What has been happening to the American economy that has resulted in major companies closing their doors What forces within the international and national political economies are converging to reshape the labor force eliminating jobs in manufacturing and expanding employment in the lower wage insecure manufacturing sector What happens to displaced workers their families and the community in which they work In *Plant Closings* the authors examine the reasons plants close and the social economic and psychological consequences A variety of causes are identified including capital flight decreasing profit rates and the pursuit of lower labor costs Through the analysis of a case study the authors examine the changing health patterns political attitudes and financial stability of displaced workers There is also discussion of the impact on the community at large and on the individual institutions within the community Finally the authors analyze legislation that addresses the human and social costs of unemployment Carolyn C Perrucci is professor of sociology in the Department of Sociology and Anthropology at Purdue University Robert Perrucci is professor of sociology in the Department of Sociology and Anthropology at Purdue University Dena B Targ is professor in the Department of Child Development and Family Studies at Purdue University Harry R Targ is

professor in the Department of Political Science at Purdue University **The Technology Trap** Lloyd J. Dumas, 2010-09-02 In this eye opening book author Lloyd J Dumas argues that our capacity for developing ever more powerful technologies and the unavoidable fallibility of both machine and man will lead us towards a disaster of an unprecedented scale Most of us assume that those in charge can always find a way to control any technology mankind creates no matter how powerful But in a world of imperfect human beings who are prone to error emotion and sometimes to malevolent behavior this could be an arrogant and disastrous assumption This book is filled with compelling factual stories that illustrate how easy it is for situations to go terribly wrong despite our best efforts to prevent any issue The author is not advocating an anti technology return to nature nor intending to highlight the marvels of our high tech world Instead the objective is to reveal the potential for disaster that surrounds us in our modern world elucidate how we arrived at this predicament explain the nature and ubiquity of human fallibility expose why proposed solutions to these Achilles heels cannot work and suggest alternatives that could thwart human induced technological disasters **Economic Sanctions** David Cortright, 2018-03-05 As the challenge of preventing military conflict has become increasingly complex in the post Cold War era economic sanctions are being applied with growing frequency Sanctions are also being used to enforce international law to deter aggression and terrorism to defend democracy and human rights and to prevent nuclear proliferation This study addresses questions about the utility appropriateness and success or failure of sanctions as well as their impact on the poor and innocent Specific case studies focusing on recent conflicts such as those in Haiti Iraq South Africa and the former Yugoslavia demonstrate the principal aspects of economic sanctions **The Making of Détente** Keith L. Nelson, 2019-12-01 Originally published in 1995 In the early 1970s largely as a result of the debilitating struggle in Vietnam the United States began to reassess and redefine its basic approach to East West relations At the same time the Soviet Union was awakening to the liabilities that a continuing and unregulated state of hostility would impose on its own internal and external agenda Keith Nelson details the circumstances and traces the steps that led to the first significant accommodation and easing of tension between the superpowers during the Cold War In this important study Keith Nelson explains the detente period in an imaginative convincing and impressively scholarly manner Although there have been scores of books and memoirs on the subject none have done the job quite like Nelson s In particular he has used post glasnost Russian memoirs and monographs and especially his own interviews with such key players as Dobrynin and Arbatov to present one of the most intelligent Kremlinological studies I have ever seen Melvin Small Wayne State University
