A Quick Guide to Gender Mainstreaming in Information and Communications Joan Ross Frankson, 2001 Gender mainstreaming is the current international approach to promoting equality between women and men It is based on the recognition that gender inequality operates at all levels and in all sectors of society and thus needs to be addressed in the mainstream It aims to ensure that women and men benefit equitably from all that society has to offer and are equally empowered to affect its governance and decisions The Gender Management System GMS is a holistic and system wide approach to gender mainstreaming developed by the Commonwealth for the use of governments in partnership with other stakeholders including civil society and the private sector The GMS is a comprehensive network of structures mechanisms and processes to enable governments and other organisations to contribute to gender equality through all policy making planning and activities This Quick Guide has been produced to assist governments and other stakeholders using gender sensitive indicators in the context of gender mainstreaming It is an abridged version of the GMS publication Using Gender Sensitive Indicators A Reference Manual for Governments and Other Stakeholders Connotative Learning, 2004

Sharing the Pain of the Bitter Hearts Simone Lindorfer, 2007 This book reflects the fruitful dialogue between two regional contexts including the encounter of different methodologies namely the context of Latin American liberation psychology as inspired by liberation theology and specifically developed in El Salvador by the Jesuit Ignacio Martin Baro and the context of Eastern African women The book evaluates in four case studies the contribution of liberation psychology in overcoming various forms of gender related violence in Eastern Africa where the author has worked since 1998 as consultant in trauma work The book encourages the critical reflection of current trauma psychology as well as the conceptualisation of a globally oriented practical theology Building Feminist Movements and Organizations Lydia Alpízar Durán, Noël D. Payne, Anahi Russo, 2013-07-18 The struggle for the advancement of women s rights and gender equality globally is

impossible without strong women's organizations and movements to provide leadership and momentum. But what does a strong women's organization look like? And what does it take to create effective and sustainable women's movements? This groundbreaking collection of essays by activists from all corners of the globe explores what it means to be an influential women's organization and what it takes to build the kinds of movements needed to transform women's lives. From how to build successful participatory democratic processes and implement shared leadership models to lessons on overcoming internal organizational divisions, the case studies in this collection focus not only on the what but also the how of movement building. Those concerned with how to effect sustainable change will find not only much food for thought but also an abundance of creative ideas and innovative strategies served up with a uniquely feminist twist. **Gender and Trade**

Action Guide Catherine Atthill, Commonwealth Secretariat, 2007-06-01. Accompanying CD-ROM contains case studies, activities, training suggestions, and recommended readings. Page 4 of cover. *Voices and Values* Ratna M. Sudarshan, Rajib Nandi. Over the last several years, regular evaluation of development programs has become essential in measuring and understanding their true impact. Feminist and gender-sensitive evaluations have gradually emerged, drawing attention to existing inequities: gender, caste, class, location, and more, and the cumulative effect of these biases on daily life. Such evaluations are also deeply political; they explicitly acknowledge that gender-based inequalities exist, show how they remain embedded in society, and articulate ways to address them. Based on four years of research, *Voices and Values* offers critical insight into how gender, class, and nationality inflect and affect sociological research. It examines how feminist evaluations could make an effective contribution to new policy formulations oriented to gender and social equity. The essays here focus centrally on the structural roots of inequity, giving weight to all perspectives, adding value to marginalized groups and people under evaluation, and taking forward the findings of evaluation into advocacy for change. In doing so, each essay advances the understanding of feminist evaluation both conceptually and as practice. **RealWorld Evaluation** Michael

Bamberger, Linda Mabry, 2019-07-31. *RealWorld Evaluation: Working Under Budget, Time, Data, and Political Constraints* addresses the challenges of conducting program evaluations in real-world contexts where evaluators and their clients face budget and time constraints. The new Third Edition includes a new chapter on gender equality and women's empowerment and discussion of digital technology and data science. *Integrating Poverty and Gender Into Health Programmes* WHO Regional Office for the Western Pacific, World Health Organization. Regional Office for the Western Pacific, 2006. Although poverty and gender significantly influence health and socio-economic development, health professionals are not always adequately prepared to address such issues in their work. This publication, one of a set of modules intended for use in pre-service and in-service training of health professionals in the Western Pacific Region, focuses on the interrelationship between poverty and health, including definitions of poverty and its multiple dimensions, indicators of poverty, including methods of determining the prevalence of poverty and inequality within a community, how the health care system can address issues of

poverty with a special focus on low income women and those from other marginalised or vulnerable groups *Gender, Development and Disasters* Sarah Bradshaw, 2013-04-01 Disaster research owes a lot to development studies and yet the debt is often not acknowledged In this scholarly but accessible book by Sarah Bradshaw we see a very effective linking of gender disaster and development that will be of value to academics and practitioners working in and across all these domains Maureen Fordham University of Northumbria UK Bringing gender into the foreground in both development and disaster discourse the author challenges received wisdom and offers cautionary notes about reinforcing inequalities through feminized disaster interventions The book is an outstanding platform for fundamental change in how we think about and act toward gender in disaster contexts leaving readers cautiously optimistic This is one for the top shelf a book we have been waiting for and must put to use Elaine Enarson founder Gender and Disaster Resilience Alliance Once in a while a book is published which offers an empirically and theoretically informed analysis of an under studied topic which helps to carve out a new field of enquiry Such is the case with Dr Sarah Bradshaw s breathtakingly detailed richly first hand informed and incisive account of the frequently paradoxical co option of women into the analysis and practice of disaster in developing economies Bradshaw s eminently comprehensive well substantiated perceptive and sensitive treatment of the A to Z of gender and disaster in developing country contexts constitutes a 21st century volume which will be a definitive benchmark for scholars policymakers practitioners and feminist activists at a world scale Sylvia Chant London School of Economics UK The need to disaster proof development is increasingly recognised by development agencies as is the need to engender both development and disaster response This unique book explores what these processes mean for development and disasters in practice Sarah Bradshaw critically examines key notions such as gender vulnerability risk and humanitarianism underpinning development and disaster discourse Case studies are used to demonstrate how disasters are experienced individually and collectively as gendered events Through consideration of processes to engender development it problematizes women s inclusion in disaster response and reconstruction The study highlights that while women are now central to both disaster response and development tackling gender inequality is not By critically reflecting on gendered disaster response and the gendered impact of disasters on processes of development it exposes some important lessons for future policy This timely book examines international development and disaster policy which will prove invaluable to gender and disaster academics students and practitioners

Gender Is a Choice Grace Alice Mukasa, 2018-10-31 *Gender Is a Choice* is a remarkable book that thoughtfully demystifies gender discrimination It shows the underlying causes of discrimination which lie deep in our cultures Based on the human rights perspective of equality and dignity Ms Mukasa reaffirms that we are all born equal without gender bias or prejudice and we all share a propensity to learn grow and maximize our innate potential to lead meaningful happy lives However societies have views based on cultural norms attitudes and beliefs that lead to unequal gender relations of power As a result many women and girls suffer This highly educational book highlights the key gender concepts and gives them meaning through a practical family portrait at the end Ms Mukasa decisively affirms that despite powerful socialization processes gender injustice can be overcome The key issue to transform is the traditional socialization process The main tool is to create awareness of the embedded negative aspects concerning women s and men s relationships It calls upon men and women to appreciate that the current gender relations of power are unnatural and unacceptable They are man made and can be dismantled using our agency to make the right choices Women s disempowerment can be disrupted and gender justice can be promoted This book is relevant to all people since gender discrimination is universal and has universally negative consequences Gender discrimination must therefore be disrupted everywhere every time by everyone However Ms Mukasa makes her own choice to focus on the African gender context and the audience whose culture she understands best
