The Paintings Of Cezanne:

Cezanne and the Dawn of Modern Art Paul Cézanne, 2004 Cezanne and the Dawn of Modern Art presents selected paintings by Paul Cezanne alongside works by younger artists that reveal the powerful influence of the man hailed as the founder of modern painting The driving forces in the reception of Cezanne s art were not art critics art historians or even the artist himself but rather other artists primarily the Fauves led by Matisse de Vlaminck and Derain and the Cubists including Picasso Braque and Leger all of whom absorbed and elaborated on Cezanne s revolutionary ideas about color and composition Against this background of Cezannisme the book presents key works by Cezanne and younger artists in revealing juxtapositions Readers will discover analogies and variations between the works of the father of modern art and those of his successors in a series of related motifs portraits still lifes and landscapes This volume is indeed a compact history of the icons of modern art It offers new insight into one of modern art s most complex artists traces the influence of Cezanne s work on a succeeding generation of 20th century artists and examines tendencies in Cezanne s art that paved the way for both the Fauve and Cubist movements *Paul Cézanne, 1839-1906* Ulrike Becks-Malorny, 2001 From banker to painter Cezanne and the Impressionists Harmony in parallel with nature Still lifes Mont Saint Victoire Latter years **The Paintings of Paul Cezanne** Paul Cezanne, 2012-11-30 Unlike many other artists of his period who painted in only one area of composition Cezanne was adept at many areas of composition including landscapes still lifes nude studies and portraits The artist completed many portraits often using models from real life as his guides He employed a light style that was related to his direct observation of his subject as indicated by the lightly amused looks on Madame Cezanne s face and her engaged postures His paintings are also indicative of his use of small color planes Rather than completing the painting with realistic depth and shadow he illustrates the figures as if they are in a singular dimension employing the use of one color for each area of the composition From Cezanne s home in Aix en Provence Southern France where he spent many of his later years painting he developed a special relationship with the landscape of the Provence and painted many renditions of it especially the mountain Sainte Victoire in the background The paintings clearly illustrate the way Cezanne sought to depict the nature of reality and our perception of it The mountain gives way to simple forms and the buildings in the foreground have been devolved into their particular shapes all the while keeping the entirety of the landscape intact Cezanne s use of light and color give the impression that it is not his renderings of the landscapes that give them their fragmented quality but that it is an inherent quality of the landscapes itself The Bathers 1900 is the largest in a series of nude bather paintings by Cezanne see back cover and is often referred to as the Large Bathers or Big Bathers to distinguish it from the other bather scenes painted by Cezanne It is also considered one of the masterpieces of modern art as well as Cezanne s finest painting It was purchased for 100 000 for the Philadelphia Museum of Art which was criticized for the expenditure because at the time ten percent of Philadelphia s population was without bathtubs The nude figures in the painting have been compared to Picasso s

later work *Les Femmes d'Alger (O Version O)* suggesting the influence that Cézanne had on the painters of the period **Delphi**

Interpreting Cézanne Sidney Geist,1988 In this remarkable book the sculptor and writer Sidney Geist presents a

revolutionary interpretation of the art of Cezanne Geist argues that Cezanne's paintings are fertile with reflections of the artist's private world and passionate concerns Looking at more than two hundred works all reproduced in the book he identifies the symbolism that gives form to a hidden significance in the paintings concealed allusions to Cezanne himself and to his relations with his wife and mother his father his son and his friend Zola as well as a circle of colleagues including Pissarro Frederic Bazille and Ambroise Vollard It is a complex pattern of symbols expressed in both secondary visual images and in verbal connections including rebuses and puns In reading these paintings for symbolic meaning Geist opens the way to a fuller understanding of Cezanne as well as to new ways of looking at pictures Interpretation of this kind in its turn explains formal aspects of the paintings with a richness not possible in abstract analysis [The Paintings of Paul Cezanne](#) Paul Cezanne, 2012-08-06 This is Volume I of II covering the painter's years of 1860 to 1884 The large book has 196 pages 81 2 x 11 inches 21 59 x 27 94 cm 183 full colour plates of some 270 paintings Paul Cezanne 1839 1906 was a French artist and Post Impressionist painter whose work laid the foundations of the transition from the 19th century conception of artistic endeavour to a new and radically different world of art in the 20th century Cezanne can be said to form the bridge between late 19th century Impressionism and the early 20th century's new line of artistic enquiry Cubism The line attributed to both Matisse and Picasso that Cezanne is the father of us all cannot be easily dismissed Cezanne's often repetitive sensitive and exploratory brushstrokes are highly characteristic and clearly recognizable He used planes of colour and small brushstrokes that build up to form complex fields at once both a direct expression of the sensations of the observing eye and an abstraction from observed nature The paintings convey Cezanne's intense study of his subjects a searching gaze and a dogged struggle to deal with the complexity of human visual perception **Cézanne in Philadelphia Collections** Joseph J.
