Appropriations for Fiscal Year 1979 United States. Congress. House. Committee on Appropriations. Subcommittee on the Treasury, Postal Service, and General Government Appropriations, 1978

The Documentary History of the Supreme Court of the United States, 1789-1800 Maeva Marcus, 1992 Volume 4 assembles a selection of documents illustrating the statutory development of the federal judiciary from 1789-1800 Beginning with a narrative essay on the background of Article III of the Constitution the volume tracks from the First through the Sixth Congresses all the major and minor legislation relevant to the establishment of the American judicial system As the decade unfolded experience revealed problems with the system as it was initially structured and efforts were made to change it Dissatisfaction with circuit riding with the method of juror selection and with judges undertaking duties not strictly judicial for example led to various legislative attempts at reform

Letters of Delegates to Congress, 1774-1789: October 1, 1783-October 31, 1784, 1976

Washington's Revolutionary War Generals Stephen R. Taaffe, 2019-10-03 When the Revolutionary War began Congress established a national army and appointed George Washington its commander in chief Congress then took it upon itself to choose numerous subordinate generals to lead the army's various departments divisions and brigades How this worked out in the end is well known Less familiar however is how well Congress's choices worked out along the way Although historians have examined many of Washington's subordinates Washington's Revolutionary War Generals is the first book to look at these men in a collective integrated manner A thoroughgoing study of the Revolutionary War careers of the Continental Army's generals their experience performance and relationships with Washington and the Continental Congress this book provides an overview of the politics of command both within and outside the army and a unique perspective on how it affected Washington's prosecution of the war It is impossible to understand the outcome of the War for Independence without first examining America's military leadership author Stephen R. Taaffe contends His description of Washington's generals who they were how they received their commissions and how they performed goes a long way toward explaining how these American officers who were short on experience and military genius prevailed over their professional British counterparts Following these men through the war's most important battles and campaigns as well as its biggest controversies such as the Conway Cabal and the Newburgh Conspiracy Taaffe weaves a narrative in the grand tradition of military history Against this backdrop his depiction of the complexities and particulars of character and politics of military command provides a new understanding of George Washington the War for Independence and the U.S. military's earliest beginnings A unique combination of biography and institutional history shot through with political analysis this book is a thoughtful deeply researched and an eminently readable contribution to the literature of the Revolution
