Social-Cultural Anthropology George Allan Phiri, 2009-09-01 Effective communication with the African society in the field of missions church planting and social development work has been and continues to be a great challenge particularly to people from western cultural and language orientation Africans are a we rather than I and a depended on rather than

independent of society The worldview of a traditional African in terms of society relationships and communication is communal Certainly the African perception of communalism affects how they communicate with the people of different cultural orientation Africa has several cultures and people differ in their communication depending on their cultural orientation However there are universal African cultures that act as a framework for understanding key aspects of communication with Africans for successful missions church planting and social development work This book therefore provides a strategy of understanding communication with the African society The discussions in this book provide readers with different cultural orientations unique perception of the African society as s he may be planning to communicate with the African society for missions church planting and social development work even doing humanitarian ministry in African society Although literacy levels have improved tremendously in most African countries most of Africa is not a reading society It is imperative to understand that most Africans still communicate orally and are not time conscious Hence effective communication in African societies ought to be based on storytelling rather than literature distribution although this is in transition In fact Africans are oratory and good listeners Thus this book provides an understanding to people of different cultural orientations when they plan to communicate with the people in Africa **A Flickering Flame** Curtis L.

Whitney,2019-06-28 While reading this book and something unexpected happens how would you respond Who would you look to for help There are a vast number of people stranded on life s highway struggling for help to resolve the difficult crises they face day to day The goal is to assist in a manner that enables them to endure with dignity and hope Think of the many crises you have faced and where you would have ended up had someone not stopped and shared a helping hand Crises can either bring out the best in us or the worse depending on one s ability to cope A Flickering Flame is a metaphor suggesting that when unexpected events occur the source of light is affected resulting in a flicker Viewed through the physical lens during a storm or power surge the lights might flicker Similarly in the emotional realm severe losses leave people bereft of vital sources of emotional supplies and typically produce grieving reaction flickering flames There will be times when your light will flicker but someone will show up to keep it aglow Equipping and empowering congregational leaders is a model that produces creative strategies for caregiver intervention *Sharing Faith* Thomas Groome,1998-11-23 Provides a

comprehensive introduction to all aspects of religious education and pastoral ministry and gives an in depth inquiry into the philosophical educational and theological theories for sharing faith *Pastoral Counseling Across Cultures* David W.

Augsburger,1986-01-01 In this book David Augsburger discusses the dynamics of pastoral care and counseling across cultural lines Augsburger combines theology with global perspective and cultural sensitivity to posit an inclusive understanding of pastoral care This book will be of great interest to pastoral counselors in both academic and practical contexts
