Australian National Bibliography: 1992 National Library of Australia, 1988 *The Path of Legal Warfare* Keltie Zubko, 1991 **Law After Auschwitz** David Fraser, 2005 The idea of Nazi law is for many lawyers an oxymoron Today law under the National Socialist regime continues to be portrayed and understood as the ultimate perversion of legality and the Holocaust as the inevitable result of the collapse of the rule of law This book offers important insights into the ways in which our understanding of the Holocaust and of the law have been built upon mutually reinforcing but erroneous constructions of the two Fraser argues that the Holocaust is best understood or at least studied not as a point of lawless criminal disjuncture with law but as offering remarkable points of commonality and continuity with the law with legality as understood at the time and with law as we understand and practice it today Law after Auschwitz studies law and lawyers under Nazi rule the jurisprudence of Nazi law and the reception of Nazi law by contemporary legal scholarship It offers detailed analyses of the ways in which the Holocaust has been constructed in post war trials This book raises fundamental questions about legality and ethics in the 21st century If the Holocaust took place in a legal framework and if the legal system today operates in part in a continuous fashion with Nazi legality then law must be understood as still operating in the shadow of Auschwitz Throughout the book the consequences of a legal system which operates in a state of willful amnesia about its own implication in the Shoah is the central focus Fraser writes in an engaging style and keeps the reader with him throughout the book no mean feat given the morass of material managed and the uncomfortable ideas engaged a thought provoking work it will be useful reading for scholars from a variety of disciplines Law Politics Book Review Law after Auschwitz show s resonances of fascist legal thought in contemporary European law and wider Western culture by documenting antisemitic inspired discourses of forgiving and forgetting and asserting an uncomfortable parity between contemporary medico legal thought and eugenics Law after Auschwitz has some fascinating material on antisemitic fuelled amnesia International Journal of Law in Context *Eastern European Law Bibliography, 1990-93* ,1993 **International Criminal Law** Jordan J. Paust, 1996 Canadian Periodical Index ,1994 The Hidden Histories of War Crimes Trials Kevin Heller, Gerry Simpson, 2013-10 Several war crimes trials are well known to scholars but others have received far less attention This book assesses a number of these little studied trials to recognise institutional innovations clarify doctrinal debates and identify their general relevance to the development of international criminal law **War Crimes and the Conduct of Hostilities** Fausto Pocar, Marco Pedrazzi, Micaela Frulli, 2013-09-30 This comprehensive collection addresses an overlooked area war crimes and the conduct of hostilities It uplifts aspects that are particularly under appreciated including cultural property fact finding arms transfer chemical weapons sexual violence **Law Reports of Trials of War Criminals** United Nations War Crimes Commission, 1947 *The Hidden Histories of War Crimes Trials* Kevin Jon Heller, Gerry J. Simpson, 2013 Several

instances of war crimes trials are familiar to all scholars but in order to advance understanding of the development of international criminal law it is important to provide a full range of evidence from less familiar trials This book therefore provides a comprehensive overview uncovering and exploring some of the lesser known war crimes trials that have taken place in a variety of contexts international and domestic northern and southern historic and contemporary It analyses these trials with a view to recognizing institutional innovations clarifying doctrinal debates and identifying their general relevance to contemporary international criminal law At the same time the book recognizes international criminal law's history of suppression or sublimation What stories has the discipline refused to tell What stories have been displaced by the ones it has told Has international criminal law's framing or telling of these stories excluded other possibilities And perhaps most important of all how can recovering the lost stories and imagining new narrative forms reconfigure the discipline

War Crimes and Trials James Larry Taulbee, This comprehensive reference work serves as an important resource for anyone interested in the international prosecution of war crimes and how it has evolved *War Crimes and Trials* analyzes the evolution of war crime trials through primary sources Beginning with a general discussion of why regulations for war have evolved it then illustrates the resulting changes in the nature and consequences of war as well as attitudes toward war as a part of international life Moreover it contextualizes contemporary rules that pertain to both international and non international armed conflicts The heart of the book focuses on 12 World War II cases central to the development of war law over the next 50 years including the Nuremberg and Tokyo trials of major war criminals It additionally dedicates discussion to the evolution of the law after World War II as set in motion by the United Nations the 1949 Geneva Conventions and amendments the background and operation of the ad hoc international criminal courts and the creation of the permanent International Criminal Court illustrating problems and successes through 12 cases drawn from these four courts

Law Reports of Trials of War Criminals The United Nations War Crimes Commission, 2013-07-24 The trials reported in this volume have the common feature that they deal with offences against prisoners of war Offences of that class may seem to involve a departure from the old simple idea of war crimes that is crimes committed in the actual operations of war battle invasion or the like but since the Geneva Conventions the rights of prisoners of war to fair treatment and the obligations of the belligerent forces to give effect to these rights have been established and they are indeed an important branch of the law relating to crimes and crimes which obviously fall within the category of war crimes Thus the extension of the scope of the trials which have been held to punish such crimes has followed inevitably The trials included here will show how varied may be the application of the Geneva Conventions The most striking perhaps historically is the case of the Stalag Luft III which was a plain case of deliberate murder committed against prisoners of war They were all airmen who had been captured while taking part in air attacks either against Germany or the occupied countries They had not committed any offence against the rules of war Their operations in the air had been in accordance with the recognised rules in that type of warfare They had

however made a concerted determined and ingenious effort to escape from the camp The report states that of the 80 officers who escaped 50 were captured and shot by the Gestapo and it is with the fate of those 50 that the case deals The esprit de corps of the British and the German air forces worked so effectively that the Germany military were shocked by the audaciously unjustified murder of those brave and honourable opponents
