British Poetry 1964 to 1984 Martin Booth, 2025-05-30 First published in 1985 British Poetry presents a personal and political account of British poetry from 1964 to 1984 Martin Booth himself a poet poetry publisher critic and editor and the participant in poetry readings in Britain and overseas shows that British poetry underwent a renaissance in the ten years from around 1964 poetry became a major popular art form shaking off its shackles of elitism and academicism poetry readings flourished whether live or on the air and audiences increased many new poets found willing publishers He looks at the manner in which British poetry rose only to fall back into a morbid sleek artiness where he sees it laying today once again a narrow art for the literary educated and the initiated The book aims to reverse this change of direction so that British poetry may once again have the impact it briefly had in its recent heyday Martin Booth also provides a general guide to the period with much comment included from those who were involved in the act of keeping British poetry going in those exciting years He deals with the poets themselves with the publishing of poetry and poetry magazines and his non literary non academic approach will appeal to all those who have an interest in modern British verse **Good Gay Poems,**

Observer Robin Fox, 2017-10-24 Robin Fox one of the preeminent anthropologists of our time takes us on an exuberant personal intellectual and cultural journey through the 1930s to the 1970s This is a personal historical intellectual journey one that is at once intriguing hilarious and moving Like Browning's Sordello who recurs throughout the book Fox is telling the story of the development of a soul Fox's method is to depend entirely on memory to select the people events and ideas that have driven him towards what was called at the time a revolution in the social sciences This revolution was the founding of the biosocial or what came to be called the sociobiological movement in the study of human behavior It was a long road peppered with strange events brain bending ideas odd adventures dangers and sorrows and a cast of lively often eccentric characters Fox describes himself as an observer of a series of endings the last gasps of now extinct ways of life He witnessed the last of the old steam and horse powered northern wool towns of the industrial revolution and the pre industrial Hardy countryside of southern England He saw the ancient grammar schools before their destruction by doctrinaire socialism the old LSE when it was still an international family not just a big college the brave but failed experiment that was Talcott Parsons Social Relations Department In the United States he experienced the innocent but troubled America of the 1950s and the last gasp of traditional Indian life in New Mexico He lived in genteel Jane Austen England in Devon and experienced peasant crofter life in the Irish islands Participant Observer is a report from the cultural and social battlefield seen through the personal lens of a combatant Fox has given us a kind of Cook's Tour through the ideas and intellectual movements of mid century when the world changed and the foundations of the twenty first century were set It is the history of an education by a narrator in love with learning
