The People Have the Floor Yefime Zarjevski,1989 **National Parliaments as a Global Institution** Pertti

Alasuutari,2025-01-10 Countries all over the world make decisions of national and international importance in a national parliament Today for a country to have a national parliament is a global norm but this has only been the case for the last few hundred years The development of this remarkable uniformity has seen national parliaments become a global institution National Parliaments as a Global Institution scrutinizes how the current world order comprising national legislatures evolved how parliaments work and how they form a global network or field for the transfer of ideas and information It highlights the remarkably similar structures and practices of national parliaments all around the world with even the opening words of a session replicating those of other parliaments and the four sacred principles that define national parliaments as an institution national sovereignty parliamentary immunity the national interest or common good and the sanctity of fellow parliamentarians By considering national parliaments as a global institution Pertti Alasuutari explores how legislatures symbolize sanctify and naturalize the nation state as the component part of world society **The Emergence of**

International Society in the 1920s Daniel Gorman,2012-08-20 Chronicling the emergence of an international society in the 1920s Daniel Gorman describes how the shock of the First World War gave rise to a broad array of overlapping initiatives in international cooperation Though national rivalries continued to plague world politics ordinary citizens and state officials found common causes in politics religion culture and sport with peers beyond their borders The League of Nations the turn to a less centralized British Empire the beginning of an international ecumenical movement international sporting events and audacious plans for the abolition of war all signaled internationalism s growth State actors played an important role in these developments and were aided by international voluntary organizations church groups and international networks of academics athletes women pacifists and humanitarian activists These international networks became the forerunners of international NGOs and global governance **The Actors of Postnational Rule-Making** Elaine Fahey,2015-07-16 Despite

its centrality to academic discussions of power and influence there is little consensus in legal scholarship over what constitutes an actor in rule making This book explores the range of actors involved in rule making within European Union law and Public International law and focuses especially on actors that are often overlooked by formative and doctrinal approaches Drawing together contributions from many scholars in various fields the book examines such issues as the accommodation of new actors in the process of postnational rule making the visibility or covertness of actors within the process and the role of social acceptance and legitimacy in postnational rule making In its endeavour to render and examine the work and effect of actors often side lined in the study of postnational rule making this book will be of great use and interest to students and scholars of EU law international law and socio legal studies **The Ideal of Parliament in**

Bhardwaj, K. Vijayakrishnan, 2018-10-26 Published in 1998 The question of whether democracy and development are allies or adversaries has long been debated and with the triumph of the democratic spirit worldwide the relationship between democracy and development has once again come to attract much attention globally The collapse of the Soviet Union and the developments in Eastern Europe led to considerable rethinking in political circles on the efficacy of the economic policies pursued in those countries and the long term viability of political systems prevalent there Elsewhere several newly industrialized countries are striving to consolidate their gains though there are differing perceptions of whether their politics conform to the classical framework of democracy or not In a remarkable turn around some other countries have initiated measures for economic reforms and structural adjustment setting aside their earlier approaches towards economic management In short the last decades of this millennium have witnessed meaningful efforts worldwide on forging a new partnership between democracy and development In February 1996 the Commonwealth Parliamentary Association jointly organized a conference entitled Parliamentary Democracy and Development Allies or Adversaries with the Wilton Park an international agency of the British Commonwealth and Foreign Office in Wilton House West Sussex United Kingdom The week long conference brought together parliamentarians diplomats administrators political scientists economists and specialists from all over the world The participants shared their views and experiences on diverse aspects of the main theme This publication presents an essentially parliamentary perspective on the correlation between democracy and development based on the discussions at the Wilton Park conference and in the light of current thinking on the subject matter The British Peace Movement 1870-1914 Paul Laity, 2002-01-03 This is the first

International Law and History Ignacio de la Rasilla, 2021-01-21 This interdisciplinary exploration of the modern historiography of international law invites a diverse assessment of the indissoluble unity of the old and the new in the most global of all legal disciplines The study of the history of international law does not only serve a better understanding of how international law has evolved to become what it is and what it is not Its histories which rethink the past in the present also influence our perception of contemporary matters in international law and our understandings of how they may potentially unfold This multi-perspectival enquiry into the

dominant modes of international legal history and its fundamental debates may also help students of both international law and history to identify the historical approaches that best suit their international legal historical perspectives and best address their historical and legal research questions

Bulletin of the Inter-parliamentary Union, 1998 **A New World Order** Anne-Marie Slaughter, 2009-02-09 Global governance is here but not where most people think This book presents the far reaching argument that not only should we have a new world order but that we already do Anne Marie Slaughter asks us to completely rethink how we view the political world It s not a collection of nation states that communicate through presidents prime ministers foreign ministers and the United Nations Nor is it a clique of NGOs It is governance through a complex global web of government networks Slaughter provides the most compelling and authoritative description to date of a world in which government officials police investigators financial regulators even judges and legislators exchange information and coordinate activity across national borders to tackle crime terrorism and the routine daily grind of international interactions National and international judges and regulators can also work closely

together to enforce international agreements more effectively than ever before These networks which can range from a group of constitutional judges exchanging opinions across borders to more established organizations such as the G8 or the International Association of Insurance Supervisors make things happen and they frequently make good things happen But they are underappreciated and worse underused to address the challenges facing the world today The modern political world then consists of states whose component parts are fast becoming as important as their central leadership Slaughter not only describes these networks but also sets forth a blueprint for how they can better the world Despite questions of democratic accountability this new world order is not one in which some world government enforces global dictates The governments we already have at home are our best hope for tackling the problems we face abroad in a networked world order *The Birth of the New Justice* Mark Lewis,2014-02 A history of the attempts to introduce international criminal courts and new international criminal laws after World War I to repress aggressive war war crimes terrorism and genocide
