The Perfect Machine Joyce Nelson,1992 **The Perfect Machine** Joyce Nelson,1987 *Leaving Springfield* John Alberti,2004 Since its first appearance as a series of cartoon vignettes in 1987 and its debut as a weekly program in 1990 The Simpsons has had multiple even contradictory media identities Although the show has featured biting political and social satire which often proves fatal to mass public acceptance The Simpsons entered fully into the mainstream consistently earning high ratings from audiences and critics alike Leaving Springfield addresses the success of The Simpsons as a corporate manufactured show that openly and self reflexively parodies the very consumer capitalism it simultaneously promotes By exploring such topics as the impact of the show s satire on its diverse viewing public and the position of The Simpsons in sitcom and television animation history the commentators develop insights into the ways parody intermixes with mass media to critique post modern society In spite of the longevity and high cultural profile of the show The Simpsons has so far attracted only scattered academic attention Leaving Springfield will be of importance to both scholars of media and fans of the show interested in the function of satire in popular culture in general and television in particular **Television Studies: The Basics** Toby Miller,2009-12-04 Television Studies The Basics is a lively introduction to the study of a powerful medium It examines the major theories and debates surrounding production and reception over the years and considers both the role and future of television Topics covered include broadcasting history and technology institutions and ownership genre and content audiences Complete with global case studies questions for discussion and suggestions for further reading this is an invaluable and engaging resource for those interested in how to study television **Secret Agents** Marjorie Garber,Rebecca Walkowitz,2013-10-18 When the American Bar Association recreated the trial of Ethel and Julius Rosenberg on the fortieth anniversary of their execution the jury acquitted the mock Rosenbergs finding that in today s courts they would not have been convicted of espionage The 1950s trial of the Rosenbergs on charges of Atomic Spying and stealing the secrets of the Atomic bomb was a major event of Cold War America galvanizing public opinion on all sides of the question Secret Agents presents essays by lawyers cultural critics social historians and historians of science as well as a reconsideration of the Rosenbergs by their younger son Robert Meeropol Secret Agents gives new resonance to a history we have for too long been willing to forget **Rebel Without a Cause** J. David Slocum,2005-09-27 Five decades after the production and initial release of Rebel Without a Cause this book examines both the complicated historical moment in which the film was made as well as its continuing and pervasive influence on film today The contributors track how the film continues to speak to diverse audiences as a touchstone for imagined anxieties over adolescence and coming of age traditional values of family and community threats from abroad and the provocations of mass or consumer society Although the specific sources and motivations for rebellion have shifted what has persisted is the film s singular power to represent rebellion in what could otherwise be seen as the everyday and to move viewers to ponder its causes Beclouded Visions

Kyo Maclear,1999-01-01 The trauma of Hiroshima and Nagasaki demonstrates the limits of dominant visual models such as photography for providing adequate historical memory The author argues that collective traumas suggest the need for a prolonged gaze such as can be provided by expressive art The Autobiography of a Schizoid Personality Larry Polin,2019-09-18 This is the remarkable story of an individual who experienced severe stress starting in the womb Growing up in a highly dysfunctional family he used intellectualization as a defense against overwhelming emotional pain A high academic achiever this young man was on the Dean s List at Brown University when he suffered a catastrophic neurological collapse Labeled as schizophrenic he was on the verge of death as his twentieth birthday approached Starting to jog he avoided his demise Four years later this individual found psychoanalyst Erich Fromm s The Sane Society while browsing in a bookstore Unable to work or communicate normally with people he began a long intellectual odyssey which ultimately involved the reading of thousands of books about American society Miraculously transformed by a bodywork technique developed by Moshe Feldenkrais he continued to live with severe stress due to his lack of social skills and the crazy making institutions of an aggressive society Nine years after relearning to use his body properly this man discovered psychoanalyst Alice Miller s For Your Own Good Hidden Cruelty in Child rearing and The Roots of Violence Reading many other books about child abuse and human development he began to understand the reasons which had caused his ordeal This engrossing story is a unique combination of memoir and academic study People interested in psychology education human development American culture and social criticism will find much to ponder in it **Towers of Deception** Barrie Zwicker,2006-09-01 A dozen carefully researched books have exposed the official story of 9 11 to be a terror fraud Yet the mainstream media have monolithically failed to ask elementary questions about anomalies in this story So called alternative media have been little better Towers of Deception explains why and prescribes actions to break out the truth Authored by a lifelong journalist who was for thirty five years a media critic Towers of Deception provides twenty six exhibits of evidence proving beyond a reasonable doubt that 9 11 was an inside job It then presents case histories of de facto censorship by mainstream media and examines the psychological phenomenon of denial False flag operations and psychological warfare are dealt with in detail as is the invisible government the powers pulling strings behind the scenes Following a profile of Dr David Ray Griffin as an authentic prophet of the 9 11 truth movement Towers of Deception urges people to speak truth to power and challenge all media Interspersed with photographs diary entries and inspiring profiles of those who see 9 11 truth as the Achilles heel of the neocon agenda Towers of Deception includes a professional quality DVD produced by the author The Great Conspiracy The 9 11 News Special You Never Saw **The Bomb in the Wilderness** John O'Brian,2020-10-01 Photographs link the nuclear past and nuclear present shaping the public s perception of events What can they reveal about Canada s nuclear footprint The Bomb in the Wilderness contends that photography is central to how we have represented interpreted and remembered nuclear activities since 1945 During the Second World War Canada was a member of the Manhattan Project the

Curley,2013-12-03 An important new look at Cold War art on both sides of the Atlantic Why Good People Do Bad Things

Gerard Vanderhaar,2013-08-09 Why Good People Do Bad Things sheds new light on the ethical dilemmas of modern life It shows how people of good will who are generally thoughtful caring and reasonably well balanced can unwittingly contribute to the evils present in our social systems In exposing these situations this book also offers the hope that these same good people can take a fresh look at the world around them In doing so they can then see the potential of our world as well as its defects and determine to be part of the solution rather than part of the problem **Brink of Reality** Peter Steven,1993 In Brink of Reality Peter Steven examines the convergence of video art and social issue documentary from the 1940s to the present No other book has explored contemporary Canadian documentary so thoroughly or provided as broad a view of the state of the art in the 1990s Communication and Culture in War and Peace Colleen Roach,1993-02-01 Roach provides an excellent account of the contributions of feminist peace researchers to the analysis of cultural militarism and its twin cultural violence against women Altogether this book is a worthy enterprise that will help both activists and scholars gain a more in depth understanding of the barriers to change erected by the media's use of information technology and will be useful in developing scenarios and strategies for the creative use of that technology for peaceful social transformation Elise Boulding in Media Development Does the media have a perverse fascination with war and violence Do television newspapers and magazines neglect the forces of peace in favor of the more dramatic war machines thereby amplifying the guns rather than muting them If so how does media coverage reflect the culture for which it works By exploring the role of both culture and mass media this volume fills a crucial void in the study of war and peace Outstanding scholars provide a history and overview of critical mass media research and investigate emerging issues dealing with the ongoing debate over communication in war and peace Several chapters deal specifically with the role of communication culture in the Gulf War while others discuss more general themes including the military industrial communication complex cultural imperialism and transnational control of communication Many of the essays offer a uniquely feminist reading of war and peace a perspective typically unacknowledged in mainstream communication work This timely book also weaves peripheral concerns like multiculturalism international communication law women and peace and communication technology into the primary themes of media and war The research and practical information given here will be useful for courses in peace and conflict studies international mass communication and intercultural communication Professionals in international relations negotiations and the media will find

this book to be both fascinating and illuminating Original research on the coverage of disarmament stories and peace issues in Canadian dailies and Vincent Mosco s excellent blueprint for converting the military machine to a peace system give Roach s work practical and positive dimensions Abstracts at the beginning of the chapters full bibliographies and a preface by the father of peace studies Johan Galtung add to the importance of this book Recommended for anyone interested in the use minuses of mass media to cover up explain promote governmental efforts to keep situations tense and warlike Choice

Communication and Culture in War and Peace provides a strategic road map for scholarly and citizen action This is tightly edited passionately and convincingly argued and a broadly conceived book It fills a large gap and is likely to be a widely used seminal resource and text for some time to come George Gerbner Professor of Communication and Dean Emeritus University of Pennsylvania

Collecting Visible Evidence Jane Gaines, Michael Renov, 1999 In documentary studies the old distinctions between fiction and nonfiction no longer apply as contemporary film and video artists produce works that defy classification Coming together to make sense of these developments the contributors to this book effectively redefine documentary studies They trace the documentary impulse in the early detective camera in the reenactment of battle scenes from World War I and in the telecast of the Nevada A Bomb test in 1949 Other topics include experiments in virtual reality the crisis of representation in anthropology and video art and documentary work that challenges the asymmetry of the postcolonial Us

Postdigital Dialogues on Critical Pedagogy, Liberation Theology and Information Technology Peter McLaren, Petar Jandrić, 2020-04-16 Postdigital Dialogues on Critical Pedagogy Liberation Theology and Information Technology presents a series of dialogues between Peter McLaren a founding figure of critical pedagogy and Petar Jandrić a transdisciplinary scholar working at the intersections between critical pedagogy and information technology The authors debate the postdigital condition its wide social impacts and its relationship to critical pedagogy and liberation theology as part of a transdisciplinary effort to develop a new postdigital revolutionary consciousness in the service of humanity Throughout the dialogues we see how McLaren s thinking on critical pedagogy and liberation theology have developed since the publication of *Pedagogy of Insurrection* and how these developments play out in Jandrić s theory of the postdigital condition The book includes a foreword by Peter Hudis and an afterword by Michael A Peters

Learning in the Age of Digital Reason Petar Jandrić, 2017-07-17 Learning in the Age of Digital Reason contains 16 in depth dialogues between Petar Jandrić and leading scholars and practitioners in diverse fields of history philosophy media theory education practice activism and arts The book creates a postdisciplinary snapshot of our reality and the ways we experience that reality at the moment here and now It historicises our current views to human learning and experiments with collective knowledge making and the relationships between theory and practice It stands firmly at the side of the weak and the oppressed and aims at critical emancipation Learning in the Age of Digital Reason is playful and serious It addresses important issues of our times and avoids the omnipresent academic sin of pretentiousness thus making an important statement research and education can

consciousness They are doing everything in their power to ensure we do not awaken to the truth In this book I reveal many truths that will empower you through the troubling times ahead Knowing your true self knowing the power within and how to use it knowing the Father knowing how to escape Yahweh s world matrix of reincarnation this is your true power I give you concepts ideas exercises and tools that you need to awaken your true self the divine Spirit within These tools will help you eliminate most of your karma so you may escape Yahweh s matrix of reincarnation to ascend back to God the Father s kingdom in heaven Yes reincarnation was in the Bible they took it out to control the people through fear of going to hell for eternity

Culture, Communication, and National Identity Richard Collins,1990-01-01 There can be no political sovereignty without culture sovereignty So argued the CBC in 1985 in its evidence to the Caplan Sauvageau Task Force on Broadcasting Policy Richard Collins challenges this assumption He argues in this study of nationalism and Canadian television policy that Canada s political sovereignty depends much less on Canadian content in television than has generally been accepted His analysis focuses on television drama at the centre of television policy in the 1980s Collins questions the conventional image of Canada as a weak national entity undermined by its population s predilection for foreign television Rather he argues Canada is held together not by a shared repertoire of symbols a national culture but by other social forces notably political institutions Collins maintains that important advantages actually and potentially flow from Canada s wear national symbolic culture Rethinking the relationships between television and society in Canada may yield a more successful broadcasting policy more popular television programming and a better understanding of the links between culture and the body politic As the European Community moves closer to political unity the Canadian case may become more relevant to Europe which Collins suggests already fears the Canadianization of its television He maintains that a European multilingual society without a shared culture or common European audio visual sphere and with viewers watching foreign television can survive successfully as a political entity just as Canada has

Cold War Poetry Edward Brunner,2001 Mainstream American poetry of the 1950s has long been dismissed as deliberately indifferent to its cultural circumstances In this penetrating study Edward Brunner breaks the placid surface of the hollow decade to reveal a poetry sharply responsive to issues of its time Cold War Poetry considers the fifties poem as part of a dual cultural project as proof of the competency of the newly professionalized poet and as a user friendly way of initiating a newly educated upwardly mobile postwar audience into high culture Brunner revisits Richard Wilbur Randall Jarrell and other acknowledged leaders of the period as well as neglected writers such as Rosalie Moore V R Lang Katherine Hoskins Melvin B Tolson and Hyam Plutzik He also examines the one sided authority of the male dominated book review process the ostracizing of female and minority poets poetic fads such as the ubiquitous sestina and the power of the classroom anthology to establish criteria for reading Attributing the gradual change in poetic style during the 1950s to the slow collapse of the authority of the state Brunner shows how a secretive anxious poetics developed in the shadow of a disabled government He recontextualizes the much maligned

domestic verse of the 1950s reading its shift toward the private sphere and the recurrent image of the child as a reflection of the powerlessness of the post nuclear citizen Through a close examination of poetry written about the Bomb he delineates how poets registered their growing sense of cosmic disorder in coded language resorting to subterfuge to continue their critique in the face of sanctions levied against those who questioned government policies Brilliantly decoding the politics embedded in the poetry of an ostensibly apolitical time Cold War Poetry provides a powerful rereading of a pivotal decade
