Gehl,2019-05-21 Reveals how the return of the planet Sedna after 11 000 years offers an opportunity for healing ourselves and our planet Explores how the Inuit legend of the sea woman Sedna offers clues about the message of Sedna s return including a warning about the sustainability of our planet Explains how Kundalini energy courses through planets and people alike and how planetary transits activate a form of cosmic Kundalini energy with Sedna s planetary return marking a major stage in this awakening process Details how Sedna s energies can be harnessed for healing ourselves and our planet

including how Earth's ley lines are mirrored within the body's meridians. Named after a mythological Inuit sea woman, the planet Sedna was first discovered in 2003. Its return to our solar system after 11,000 years of orbit has been tied to the huge tsunami that struck Indonesia, Thailand, and India in 2004, as well as to the increased occurrence of other marine and weather events over the last decade. And just as it is affecting the waters of our planet, Sedna's energies are also affecting each of us as individuals. Exploring the impact that planetary bodies have on Earth and on humans, Jennifer Gehl reveals how Sedna's energies can be worked with for healing ourselves, others, and the planet. She explains how the naming of this planet after the archetypal figure of Sedna and her myths provides major clues to the message that Sedna's return is sending: a clear warning about the sustainability of the planet and the oceans, the source of all life, and an invitation to awaken to the parts of ourselves that have been ignored, abandoned, and cast out into the cold, just as Sedna was when she was drowned in the Arctic Ocean. The author examines the astrological chart for Sedna's discovery, providing an in-depth look at how certain aspects, particularly the quincunx, support the legend of Sedna and its impact on human health. She looks at how Kundalini energy courses through planets and people alike and how planetary transits activate a form of cosmic Kundalini energy with Sedna's return, marking a major stage in this awakening process. She reveals how Earth's ley lines are mirrored within the body's meridians and offer a way to tune ourselves to the cosmic frequencies that Sedna brings. Examining the story of Sedna mythologically and astrologically, Gehl explains how Sedna's last appearance 11,000 years ago occurred at the end of the Ice Age, when waters disrupted and divided our world. Her return, rather than being a harbinger of disaster, is one of the way, shower, and shaman. Symbolically, she lights the path for us to ignite our own immortality by surrendering to the inner path, revealing patterns and pathways for infinite healing potential, a new model of sustainability for the health of our planet, and a way to actively participate in our soul's evolution.

Books-in-Brief: Ijtihad and Renewal Said Shabbar, 2018-01-01. In the early centuries of Islam

the response of Muslims to problem solving the various issues and challenges that faced their rapidly expanding community was to use intelligence and independent reasoning based on the Qur'an and Sunnah to address them. This practice is known as *ijtihad*. As the centuries wore on, however, the gates of *ijtihad* were generally closed in favor of following existing rulings developed by scholars by way of analogy. And as reason and intellect now held captive to madhabs schools of thought and earlier scholarly opinion stagnated, so did the Muslim world. *Ijtihad and Renewal* is an analysis of *ijtihad* and the role it can play for a positive Muslim revival in the modern world: a revival based on society-wide economic and educational reform and development. It makes the case that the grafting of solutions rooted in the past onto the complex and unique realities of our own age in a one-size-fits-all perspective has paralysed the vitality of Muslim thought and confused its sense of direction and that to revive the Muslim world from its centuries of decline and slumber we need to revive the practice of *ijtihad*. Focusing attention on thinking through solutions for ourselves based on our own times and context using the Qur'an and Sunnah as well as the wisdom and experience of the past distilled from these as tools in this endeavor whilst not the only solution is certainly a viable and powerful one. The Dragonheart Workbook Tiamara Zohar, 2024-01-05

The writing of *The Dragonheart Workbook* was commissioned by the Galactic Council of Alpha Draconis. It is presented in two main sections: *The Teachings of the Divine Feminine* and *The Teachings of the Divine Masculine*. Including 25 meditations gifted from the ascended masters, angelic realms and galactic emissaries. *The Dragonheart Workbook* is an ideal follow-up to books that have been channelled from galactic sources, especially the Pleiadian Emissaries and Archangels. **Gaia Speaks** Pepper Lewis, 2007-05-01. Pepper Lewis is a natural intuitive, a gifted full-body channel and a recognized writer, speaker and teacher of metaphysics who travels the world sharing Gaia's wisdom at conferences, seminars and in personal sessions. The unique and distinctive channeled messages brought forth by Pepper have become favorites of readers all over the world. Most popular are the featured articles authored by the sentience of our planet, Mother Earth, affectionately known as Gaia, which also appear in the pages of the monthly *Sedona Journal of Emergence* and in these books. Gaia has always been animated, engaging and even humorous. That being said, she is also very direct and does not diminish her words to suit a guest. She aims directly for our hearts and rarely misses. Her energy is just as you might imagine the Earth to be: youthful and ancient, strong and elemental, soft, innocent and pristine, refined but a little rough around the edges. Gaia's voice is different than my own and her use of language is altogether her own. Most people hear a dialect but cannot place it. Everyone seems to experience her in unique and different ways, which is not surprisingly her intention. Pepper Lewis. These days there are lots of channelers around but only one Pepper Lewis. Her process with Gaia is unique and the profundity of her messages rings with truth and the wisdom of the ages. Lee Carroll channel for Kryon. The book you now hold is like a mystery that will unfold as you read it. More than a collection of pages, you will find that it is one part textbook and one part oracle. You might even wonder if it is biographical or autobiographical in nature as the coincidental references to your own life will seem almost uncanny. How can

that be Gaia is a living learning teaching library of everything that is was or might be related to the Earth Because you are Gaian you are also a part of the great living library that is Gaia you are a library within Gaia one whose contents are a collection of ever unfolding experiences You are a lifetimes old master storyteller unraveling each tantalizing chapter That ts why you cannot help but find yourself within these pages Your purposes are made of multidimensional similes and metaphors designed to stimulate encourage create and resolve As Gaia tells it you have at least seven purposes or reasons for being You instinctively consciously or unconsciously know one or more of these but others may remain hidden for many years or even throughout your entire lives Given this expanded view of what you are and why you are here you can begin to see how this book might be of use to you

Sadhana Rabindranath Tagore,2023-06-11 Embark on a spiritual journey with Rabindranath Tagore s Sadhana a collection of profound essays that delve into the understanding of self realization inner growth and spiritual enlightenment As a seminal work by the Nobel laureate Sadhana draws from Tagore s profound understanding of the Vedantic and Upanishadic teachings to offer insights into the essence of human existence Sadhana which translates to spiritual practice encapsulates Tagore s exploration of the journey of spiritual awakening and the individual s relationship with the universe The book intricately weaves themes of love humanity and unity with the cosmos advocating a sense of interconnectedness and oneness that transcends religious boundaries With its thought provoking discussions on concepts like the manifestation of the divine in everyday life and the infinite within the finite Sadhana invites readers to introspect to explore their inner selves and to aspire towards a higher state of consciousness It proposes that true enlightenment and fulfillment come not from material possessions but from understanding and embracing the infinite expanse of the cosmos within one s own soul Sadhana is more than just a book it is a spiritual guide for those seeking to understand the profound depths of their existence and their purpose in the universe It invites the reader to look beyond the constraints of their physical existence and embark on a path of spiritual enlightenment Perhaps it is well for me to explain that the subject matter of the papers published in this book has not been philosophically treated nor has it been approached from the scholar s point of view The writer has been brought up in a family where texts of the Upanishads are used in daily worship and he has had before him the example of his father who lived his long life in the closest communion with God while not neglecting his duties to the world or allowing his keen interest in all human affairs to suffer any abatement So in these papers it may be hoped western readers will have an opportunity of coming into touch with the ancient spirit of India as revealed in our sacred texts and manifested in the life of today
