The Outer Limits Moonstone:

The Spacesuit Film Gary Westfahl, 2014-01-10 Filmmakers employ various images to suggest the strangeness of outer space but protective spacesuits most powerfully communicate its dangers and the frailty of humans beyond the cradle of Earth. Many films set in space however forgo spacesuits altogether reluctant to hide famous faces behind bulky helmets and ill fitting jumpsuits. This critical history comprehensively examines science fiction films that portray space travel realistically and sometimes not quite so by having characters wear spacesuits. Beginning with the pioneering *Himmelskibet* 1918 and *Woman on the Moon* 1929 it discusses other classics in this tradition including *Destination Moon* 1950 *Riders to the Stars* 1954 and *2001 A Space Odyssey* 1968. C films that gesture toward realism but betray that goal with melodramatic villains low comedy or improbable monsters. D the distinctive spacesuit films of Western Europe Russia and Japan and E America's spectacular real life spacesuit film the televised Apollo 11 moon landing 1969 [Bowker's Complete Video Directory, 1999](#)

, 1999 [An Exploration of Space 1999 Through the Lens of Video Games: Payne 1999](#) John K. Balor, 2019-07-02 This book contains transcripts from Online Alpha discussions where the video game PAYNE 1999 game theory and game study theories are used for analysing and commenting on problems of conflict and cooperation in SPACE 1999. The discussions build on more than a decade of conversations and debate about PAYNE 1999 and the aim of the book is to put the various threads together while also developing new ideas and providing direction for further investigations. The book has been developed on an idealistic basis and it is sold at the lowest price the publisher was willing to accept. establishing himself as the master of disaster with the 1970s films *The Poseidon Adventure* and *The Towering Inferno* Irwin Allen created four of television's most exciting and enduring science fiction series *Voyage to the Bottom of the Sea* *Lost in Space* *The Time Tunnel* and *Land of the Giants*. These 1960s series were full of Allen's favorite tricks techniques and characteristic touches and influenced other productions from the original *Star Trek* forward. Every science fiction show owes something to Allen yet none has equaled his series' pace excitement or originality. This detailed examination and documentation of the premise and origin of the four shows offers an objective evaluation of every episode and demonstrates that when Irwin Allen's television episodes were good they were great and when they were bad they were still terrific fun.

The Moonstone Wilkie Collins, 1999-03-09 Intrigue investigations thievery drugs and murder all make an appearance in Collins's classic *The Moonstone*. Published in serial form in 1868 it was inspired in part by a spectacular murder case widely reported in the early 1860s. Collins's story revolves around a diamond stolen from a Hindu holy place. On her eighteenth birthday Rachel Verinder receives the diamond but by the following morning the stone has been stolen again. As the story unravels through multiple eyewitness accounts the elderly Sergeant Cuff with a face sharp as a hatchet looks for the culprit. One of Collins's best loved novels with an exciting plot moved along by deftly drawn characters and elegant

pacing The Moonstone was also turned into a play by Collins the play appears as an appendix to this edition [Video Hound's Golden Movie Retriever, 1991](#) David J Weiner,Thomson Gale,1991 **The moonstone, in 3 acts, altered from the novel** William Wilkie Collins,1877 [The Stuff of Science Fiction](#) Gary Westfahl,2022-10-07 While students and general readers typically cannot relate to esoteric definitions of science fiction they readily understand the genre as a literature that characteristically deals with subjects such as new inventions space robot and aliens This book looks at science fiction in precisely this manner with twenty one chapters that each deal with a subject that is repeatedly addressed in science fiction of recent centuries Based on a packet of original essays that the author assembled for his classes the book could serve as a supplemental textbook in science fiction classes but also contains material of interest to science fiction scholars and others devoted to the genre In some cases chapters offer thorough surveys of numerous works involving certain subjects such as imagined vehicles journeys beneath the Earth and undersea adventures discovering intriguing patterns in the ways that various writers developed their ideas When comprehensive coverage of ubiquitous topics such as robots aliens and the planet Mars is impossible chapters focus on major themes referencing selected texts A conclusion discusses other science fiction subjects that were omitted for various reasons and a bibliography lists additional resources for the study of science fiction in general and the topics of each chapter **Gender in Science Fiction Films, 1964-1979** Bonnie Noonan,2015-06-08 The 1950s era of science fiction film effectively ended when space flight became a reality with the first manned orbit of Earth in 1962 As the genre s wildly speculative depictions of science and technology gave way to more reality based representations relations between male and female characters reflected the changing political and social climates of the era Drawing on critical analyses film reviews and cultural commentaries this book examines the development of science fiction film and its representations of gender from the groundbreaking films of 1968 including 2001 A Space Odyssey Barbarella and Planet of the Apes through its often overlooked Middle Period which includes such films as Colossus The Forbin Project 1970 The Stepford Wives 1975 and A Boy and His Dog 1975 The author examines intersections of gender and race in The Omega Man 1971 and Frogs 1972 gender and dystopia in Soylent Green 1973 and Logan s Run 1976 and gender and computers in Demon Seed 1977 The big budget films of the late 1970s Close Encounters of the Third Kind Alien and Star Wars are also discussed [Angels and Ministers of Grace Defend Us!](#) Gregory William Mank,2022-05-26 Like a lovingly guided midnight tour this book covers the seductive shadows of the most fascinating horror films and melodramas from the 1930s and 1940s From the bloody censorship battles behind 1935 s Bride of Frankenstein to the sexual controversies of 1941 s Dr Jekyll and Mr Hyde and the gruesome Nazi atrocities of 1943 s Women in Bondage this book delves into newly excavated research to tell the behind the scenes sagas of some of Hollywood s most frightening films Peek behind the scenes revel in on the set anecdotes and get a look at the script notes illuminating characters like WereWolf of London Richard III Panther Woman and Rasputin Included are profiles of the performers and filmmakers who made the nightmares feel all too real in the darkened theaters of
