The Oxford Of Verse In English Translation:

The Oxford Book of Verse in English Translation Charles Tomlinson, 1983 The Oxford Book of Classical Verse Adrian Poole, Jeremy Maule, 2000 Great Britain has a long and grand tradition of poets translating classical authors Virtually every great poet from Chaucer on has tried his or her hand at translation with the results often rivalling or even excelling the ancient original This unique anthology presents the best of these translations ranging from King Alfred Alexander Pope and Ben Jonson to Alfred Lord Tennyson Ezra Pound and Ted Hughes The book offers a vast array of responses to the song verse and drama of ancient Greece and Rome and to poets themselves as varied as Homer Sappho Euripides Virgil Ovid and Juvenal Organized by classical author and text the book gathers and juxtaposes English versions sometimes of the same passage or poem to dramatize the endless renewal of one great poetic tradition in and through another **English Translation and Classical Reception** Stuart Gillespie, 2011-02-23 English Translation and Classical Reception is the first genuine cross disciplinary study bringing English literary history to bear on questions about the reception of classical literary texts and vice versa The text draws on the author's exhaustive knowledge of the subject from the early Renaissance to the present The first book length study of English translation as a topic in classical reception Draws on the author's exhaustive knowledge of English literary translation from the early Renaissance to the present Argues for a remapping of English literary history which would take proper account of the currently neglected history of classical translation from Chaucer to the present Offers a widely ranging chronological analysis of English translation from ancient literatures Previously little known unknown and sometimes suppressed translated texts are recovered from manuscripts and explored in terms of their implications for English literary history and for the interpretation of classical literature **Translation and the Poet's Life** Paul Davis, 2008-09-04 Between the Civil War and the early decades of the eighteenth century English poets of the first rank devoted more of their time and creative energies to translating than they had ever done before or have ever done since Paul Davis's Translation and the Poet's Life is the first study to range across the entirety of this golden age of poetic translation in England taking as its organizing principle and object of inquiry the significances of translating itself as a distinctive mode of imaginative conduct Composed of case studies of the five leading poet translators of the age John Denham Henry Vaughan Abraham Cowley John Dryden and Alexander Pope it explores the part translation played in their lives as poets and thence in modelling the poet's life during what was a period of transition between early modern and modern constructions of it The argumentative method of the book is metaphorical Each chapter explores the impact on the theory and practice of the poet at issue of a metaphor or group of metaphors broadly current in contemporary translation discourse in particular figurations of the translator as an exile as a child as a code breaker and as a slave and comparisons of translation to friendship sexual congress metamorphosis and trade The majority of these metaphors were wholly or potentially pejorative translation remained a controversial practice throughout this period widely depreciated and stigmatized Turning translator accordingly

forced the five major poets considered in *Translation and the Poet's Life* to undertake strenuous efforts of self inquiry and self presentation to find new answers to questions integral to their understandings of themselves and their standing in their culture questions about vocation and career fame and happiness responsibility and freedom *Translation and the Poet's Life* tells the stories of these personal and public remakings

Translation - Theory and Practice Daniel Weissbort, Astradur Eysteinnsson, 2006-08-04 *Translation Theory and Practice A Historical Reader* responds to the need for a collection of primary texts on translation in the English tradition from the earliest times to the present day Based on an exhaustive survey of the wealth of available materials the Reader demonstrates throughout the link between theory and practice with excerpts not only of significant theoretical writings but of actual translations as well as excerpts on translation from letters interviews autobiographies and fiction The collection is intended as a teaching tool but also as an encyclopaedia for the use of translators and writers on translation It presents the full panoply of approaches to translation without necessarily judging between them but showing clearly what is to be gained or lost in each case Translations of key texts such as the Bible and the Homeric epic are traced through the ages with the same passages excerpted making it possible for readers to construct their own map of the evolution of translation and to evaluate in their historical contexts the variety of approaches The passages in question are also accompanied by ad verbum versions to facilitate comparison The bibliographies are likewise comprehensive The editors have drawn on the expertise of leading scholars in the field including the late James S Holmes Louis Kelly Jonathan Wilcox Jane Stevenson David Hopkins and many others In addition significant non English texts such as Martin Luther's Circular Letter on Translation which may be said to have inaugurated the Reformation are included helping to set the English tradition in a wider context Related items such as the introductions to their work by Tudor and Jacobean translators or the work of women translators from the sixteenth to eighteenth centuries have been brought together in collages marking particularly important moments or developments in the history of translation This comprehensive reader provides an invaluable and illuminating resources for scholars and students of translation and English literature as well as poets cultural historians and professional translators
