## **The Pacific Yew Story:**

**The Pacific Yew Story** Martha M. Christy,1999      *The Pacific Yew Act of 1991* United States. Congress. House. Committee on Merchant Marine and Fisheries. Subcommittee on Fisheries and Wildlife Conservation and the Environment,1992      *Pacific Yew (CA,ID,OR,WA)* ,1993      **Pacific Yew Act** United States. Congress. Senate. Committee on Energy and Natural Resources. Subcommittee on Public Lands, National Parks, and Forests,1992      Pacific Yew ,1993

**The History of Medications for Women** M.J. O'Dowd,2020-09-10 The first work of its kind The History of Medications for Women Materia medica woman is a richly detailed far ranging illustrated history of medications for women in all the great cultures and civilizations from ancient times to the present Compiled by an acclaimed author of medical history literature this is the only book that extends from the earliest uses of ergometrine lettuce and mummy medicine through the history of women s medications in ancient Assyria and Egypt and into the 16th through 20th centuries With the main sections organized by origin and timeline the book contains lists of medications used by women from earliest times to the present accompanied by historically based text The author includes botanical chemical pharmacological and therapeutic details where appropriate as well as extensive quotations from both contemporary and old rare books The text is complemented with the history of obstetrics and gynecology along with short biographies and illustrations Additionally the author presents a unique fund of hard to find information in sections devoted to topics such as anesthesia and analgesia antiseptics antibiotics and chemotherapy blood transfusion and Rhesus disease eclampsia family planning menopause and uterine stimulants Interesting and thought provoking The History of Medications for Women will not only provide an enjoyable read but will allow you to appreciate the past and look at the future with a new perspective      **Pacific Yew: Appendix A. Public involvement** ,1993      *Dark Soil* Angie Sijun Lou,Karen Tei Yamashita,2024-05-07 Eight authors works of personal nonfiction join with ten stories by Karen Tei Yamashita to illuminate the hidden histories of places large and small Faced with a scant historical record Karen Tei Yamashita turns to fiction to animate the secrets of Santa Cruz the city she s called home for nearly three decades Her characters come alive through her signature witty humor and surreal premises transcending the past and urging themselves into the present to illuminate a hidden geography of this California coastal city unseen in textbooks Alongside these stories eight nonfiction writers chart their own counternarratives of place through the greater United States Diverging and converging in their scale and scope from an unnamed lot on the bank of the Ohio River to the territory of Guam their essays use language as an instrument of excavation uncovering layers of hurt and desire concealed in the land      Stories of the Invisible Philip Ball,2001 What are things made of Everything is composed of small mollycules of itself and they are flying around in concentric circles and arcs and segments explains Sergeant Fottrell in Flann O'Brien s The Dalkey Archive Philip Ball shows that the world of the molecule is indeed a dynamic place Using the chemistry of life as a springboard he provides a new perspective on modern chemical science as a whole Living cells are full of molecules in

motion communication cooperation and competition Molecular scientists are now starting to capture the same dynamism in synthetic molecular systems promising to reinvent chemistry as the central creative science of the new century The Story of Taxol Jordan Goodman, Vivien Walsh, 2001-03-05 Taxol is arguably the most celebrated talked about and controversial natural product in recent years It is celebrated because of its efficacy as an anti cancer drug and because its discovery has provided powerful support for policies concerned with biodiversity talked about because in the late 1980s and early 1990s the American public was bombarded with news reports and special programmes about the molecule and its host the Pacific yew and controversial because during the early 1990s the drug and the tree became embroiled in a number of very sensitive political issues with wide implications for the conduct of public policy The Story of Taxol tells this story **Pacific Yew:**

**Appendices B-O**, 1993 **Canadian Medicinal Crops** Ernest Small, Paul M. Catling, National Research Council Canada, 1999 The introduction to this work reviews topics of general interest including the history of plants in medicine medicinal chemicals found in plants the popularity of herbal medication nutraceuticals drugs from plants and the economic importance of medicinal plants The main section contains detailed species accounts of such plants as ginseng yew kelp cohosh witch hazel and cranberry Information provided includes scientific common names description classification agricultural commercial aspects medicinal non medicinal uses toxicity chemistry and human interest information Additional chapters address such topics as the medicinal plant business the regulatory legal framework for medicinal plant production marketing hazards associated with medicinal plants and medicinal plant research in Canada Includes glossary

**Biodiversity** D. J. Perlman, G. Adelson, 2009-07-01 Biodiversity has become a buzzword in the environmental movement and in science and is increasingly being taught in university degree courses This new text is designed as a primer giving non specialists an introduction to the historical context current debates and ongoing research in this subject **Navelbine® and Taxotère®** Muriel Le Roux, Françoise Gueritte, 2016-11-26 Among the many forms of cancer treatment chemotherapy remains an important part of the arsenal in which Navelbine and Taxotere play a major role These medicines result from molecules discovered by French researchers of the Institut de Chimie des Substances Naturelles ICSN of the CNRS directed by Pierre Potier By recounting this history the authors of this book attempt to illustrate how the work of themselves and others united in a community has helped obtain these results After having explained the strategy of the French policy makers to promote the French chemistry of natural substances the authors explore how the academic efforts in this field have evolved and the alignment between science and its applications has become increasingly present The contributions of the CNRS to the industry and vice versa offer an alternative image of public research relationships and industrial research where CNRS researchers are able to extend the limits of freedom and creativity It is to account for this complexity that the authors here have chosen to write this history together which is in a sense exemplary Due to an association between history and chemistry this book explains these discoveries by placing them in their specific politic economic and scientific contexts

Provides an overview of how the French research system facilitated the discovery of the two molecules Navelbine and Taxotere and their anticancer activity Based on a collaboration between a chemist and an historian of science technology and innovation Offers a unique perspective bringing together the specific knowledge and skills of chemistry and history Embeds chemistry in the general history thereby opening a window on science in action *Science Stories* Clyde Freeman Herreid, Nancy A. Schiller, Ky F. Herreid, 2012 Stories give life and substance to scientific methods and provide an inside look at scientists in action Case studies deepen scientific understanding sharpen critical thinking skills and help students see how science relates to their lives In *Science Stories* Clyde Freeman Herreid Nancy Schiller and Ky Herreid have organized case studies into categories such as historical cases science and the media and ethics and the scientific process Each case study comprises a story classroom discussion questions teaching notes and background information objectives and common misconceptions about the topic as well as helpful references College level educators and high school teachers will find that this compilation of case studies will allow students to make connections between the classroom and everyday life *Journal of the National Cancer Institute* ,1992 *The Pacific War* Christina Twomey, Ernest Koh, 2014-09-15 The Pacific War is an umbrella term that refers collectively to a disparate set of wars however this book presents a strong case for considering this assemblage of conflicts as a collective singular war It highlights the genuine thematic commonalities in the legacies of war that cohere across the Asia Pacific and shows how the wars both individually and collectively wrought dramatic change to the geo political makeup of the region This book discusses the cultural political and social implications of the Pacific War and engages with debates over the war's impact legacies and continuing cultural resonances Crucially it examines the meanings and significance of the Second World War from a truly international perspective and the contributors present fascinating case studies that highlight the myriad of localised idiosyncrasies in how the Pacific War has been remembered and deployed in political contexts The chapters trace the shared legacy that the individual wars had on demographics culture and mobility across the Asia Pacific and demonstrate how in the aftermath of the war political borders were transformed and new nation states emerged The book also considers racial and sexual tensions which accompanied the arrival of both Allied and Axis personnel and their long lasting consequences as well as the impact returning veterans and the war crime trials that followed the conflict had on societies in the region In doing so it succeeds in illuminating the events and issues that unfolded in the weeks months and indeed decades after the war This interdisciplinary volume examines the aftermaths and legacies of war for individuals communities and institutions across South Southeast and East Asia Oceania and the Pacific world As such it will be welcomed by students and scholars of Asian history modern history and cultural history as well as by those interested in issues of memory and commemoration *Dying Green* Christine Vatovec, 2023-04-14 The slow violence being inflicted on our environment through everything from carbon emissions to plastic pollution also represents an impending public health catastrophe Yet standard health care practices are more concerned with short term outcomes than long term sustainability

Every resource used to deliver medical care from IV tubes to antibiotics to electricity has a significant environmental impact. This raises an urgent ethical dilemma: in striving to improve the health outcomes of individual patients, are we damaging human health on a global scale? In *Dying Green*, award-winning educator Christine Votavec offers an engaging study that asks us to consider the broader environmental sustainability of health care. Through a comparative analysis of the care provided to terminally ill patients in a conventional cancer ward, a palliative care unit, and an acute care hospice facility, she shows how decisions made at a patient's bedside govern the environmental footprint of the healthcare industry. Likewise, *Dying Green* offers insights on the many opportunities that exist for reducing the ecological impacts of medical practices in general while also enhancing care for the dying in particular. By envisioning a more sustainable approach to care, this book offers a way forward that is better for both patients and the planet. Monthly Catalogue, United States Public Documents, 1993-05
