Political Conservatism and Religious Reformation in Iran (1905-1979) Amir Yahya Ayatollahi, 2022-03-19 This book is a theoretical inquiry on the relation of the body politic with the religious movements in the time between the Constitutional Revolution and the Islamic Revolution in Iran it illustrates speculative and historical analyses on the relationship of state religion and socio political status in the late Qajar dynasty 1905 1925 and the whole Pahlavi monarchy Particularly it examines the applicability of liberal conservatism to the era of the last Shah of Iran The thesis defines the term political conservatism in accord with Edmund Burke s philosophy It deals next with the definition of religious reformation the peculiar characteristics of Islam the Shi ite political theology and the contradictory usages of Islamic reformation in the literature The text gives an overview of the two antagonist sides of nationalism It provides also an analysis of the Islamic Republic as a new political phenomenon in Iranian history and the transformation of all concepts after 1979 Ayatollahi aims to assess the Iranian conservatism the possibility of conciliation between politics and religion before the collapse of the Pahlavi and the conditions of possibility for any restoration of the monarchy State, Religion, and Revolution in Iran, 1796 to the Present B. Moazami, 2013-11-07 Two basic assumptions have shaped understanding of recent Iranian history One is that Shi ism is an integral part of Iran s religious and cultural landscape The other is that the ulama religious scholars have always played a crucial role This book challenges these assumptions and constructs a new synthesis of the history of state and religion in Iran from 1796 to the present while challenging existing theories of large scale political transformation Arguing that the 1979 revolution has not ended Behrooz Moazami relates political and religious transformations in Iran to the larger instability of the Middle East region and concludes that turmoil will continue until a new regional configuration evolves
