bright coloration of caterpillars or shaping his 1858 paper on natural selection that prompted Darwin to publish with Wallace the first paper outlining the theory of evolution Shermer also shows that Wallace s self trained intellect while powerful also embraced surprisingly naive ideas such as his deep interest in the study of spiritual manifestations and seances Shermer shows that the same iconoclastic outlook that led him to overturn scientific orthodoxy as he worked in relative isolation also led him to embrace irrational beliefs and thus tarnish his reputation As author of *Why People Believe Weird Things* and founding publisher of *Skeptic* magazine Shermer is an authority on why people embrace the irrational Now he turns his keen judgment and incisive analysis to Wallace s life and his contradictory beliefs restoring a leading figure in the rise of modern science to his rightful place *The Literary World* ,1899 *Literary World* ,1900 **World Dictionaries in Print 1983**
