The Parallels Of Magik And Paradigm Of Gods:

The Parallels Of Magik and Paradigm of Gods Jerusha Eisold, 2005-03-07 This book is about life poetry art and struggle It has no definition or outline since art poetry life and struggles create themselves daily The conclusions are drawn from the reader as to what it means to them **Coping with Versnel: A Roundtable on Religion and Magic**, 2023-05-25 Henk Versnel's work on ancient religion has been seminal For his 80th birthday a group of scholars assembled to celebrate and analyze his oeuvre What have been his most important insights What will he bequeath to the 21st century Specialists hold up to the light the main strands of Versnel's scholarship and he reacts to their praise and critique An introduction that seeks to contextualize this oeuvre and a bibliography of Versnel's publications round out the picture of a scholar who has put his stamp on the study of ancient religions and magical practices and who has promoted the field in many ways especially as the driving force behind Brill's flagship series Religion in the Graeco Roman World of which this fittingly is the 200th volume

Divine Assemblies in Early Greek and Babylonian Epic Bernardo Ballesteros, 2024-11-05 In early Greek and Near Eastern myth and religion the gods govern the cosmos In narrative poetry they are frequently portrayed through scenes of divine assembly Did Homer and early Greek poets inherit this feature from their more ancient neighbours And what can comparison tell us besides This book is the first to chart divine assembly scenes in ancient Babylonian and early Greek epic It asks why similarities between the two corpora exist and exploits those similarities to enhance understanding of Mesopotamian and early Greek literature and religion The book discusses Sumerian narrative poems the Akkadian works Atrahasis Anz Enma eli Erra and I um and the Epic of Gilgame Homer's Iliad the Odyssey Hesiod's Theogony and some Homeric Hymns It studies poetic technique and probes further comparisons with Sanskrit Old Norse Polynesian and Aztec mythology It argues that Greek speakers are unlikely to have inherited the divine assembly from the Near East Still one can posit a long term process of oral contact and communication fostered by common poetic structures and religious affinities In a second part pursuing a mythological and religious comparison the book concentrates on ideas about the cosmos and humankind and on power dynamics within the pantheon as well as between gods and mortals A focus on the head of the pantheon and on concepts of divine prerogatives illuminates culture specific differences which can be related to historical socio political discourses The book develops a systematic approach to questions of cross cultural literary comparison in the ancient world **Fetishizing Tradition** Alan Cole, 2015-09-21 This innovative work documents the literary gesture that fetishizes tradition making long standing religious traditions appear present and available through the reading experience Taking as examples Paul's Letter to the Romans the Gospel of Mark the Sutra on the Land of Bliss Sukhvat vyha and the Platform Sutra of the Sixth Patriarch Liuzu tanjing Alan Cole shows how these texts invite readers into the fantasy that they can leave behind tradition's established rites rituals sacrifices institutions and festivals in order to take up just the text and its narrative as the key to salvation Ironically then one's salvation is determined by how one receives the new message of

salvation Crucial to making these more virtual forms of tradition appear plausible is the reconstruction of tradition's truth fathers God or the Buddha as the case may be so that they appear to endorse the legitimacy of these new ways of being traditional Relying on a wide body of critical theory this book presents an intriguing way to rethink key elements in Christian and Buddhist thought Germanic Magic Gunivortus Goos,2019-09-27 The three parts of the book are separated fields and deal with different facets of the runes Part 1 gives among other things a fair summarizing historical overview whereby corresponding finds and their possible interpretations are not left out Part 2 offers many passages in related mythology and the Norse sagas where runes occur the corresponding quotes are included These two parts form an important foundation for the third part which deals with the use of runes in modern magical practical usage After decades of study of various western streams and schools of magic and a thorough study of the runes the author has managed to combine both The result is a unique modern rune magic which is presented in the third part of the book God, Religion, Science, Nature, Culture, and Morality Yemant and Friends,2014-11-11 Most of us have never bothered to find out why we believe what we believe That's especially true for our thoughts and convictions about religion Perhaps we were otherwise too engaged Perhaps we simply adopted what our elders and peers appeared to believe Whatever the case isn't it time for us all to examine matters of religiosity more carefully At least we a bunch of retired professors no longer absorbed by professional duties thought the time had come to ponder why we had taken so much for granted Amazon.com **Magic, Power, Language, Symbol** Patrick Dunn,2008 All forms of magic are linked to language As a magic practitioner and a linguist Patrick Dunn illuminates this fascinating relationship and offers breakthrough theories on how and why magic works Drawing on linguistics and semiotics the study of symbols Dunn illuminates the magical use of language both theoretically and practically He poses new theories on the mechanics of magic by analyzing the structure of ritual written signs and sigils primal language incantations across cultures Qabalah and gematria Hebrew numerology and the Enochian vocabulary This revolutionary paradigm can help magicians understand how sigils and talismans work compose Enochian spells speak in tongues for magic create mantras work with gematria use postmodern defixios and refine their practice in countless other ways Magic Power Language Symbol is a unique tour de force that reinterprets the very nature of magic placing it within the modern sciences of symbolism semiotics and language linguistics Within this paradigm Dunn explains something that most other books miss a logical and scientific understanding of how and why real magic actually works Donald Michael Kraig author of Modern Magick **High Magic** U. D. (Frater),Frater U.:D.,2005 Of course Magic is Magic wherever But Ceremonial Magic with or without a k ending is perceived as largely European in origin and practice The Golden Dawn Aurum Solis O T O were European and even AMORC B O T A G B G were mostly European inspired As valid as these esoteric orders were and are they are at best schools and the knowledge taught is now widely available What is key is not the knowledge but the self accomplishment that comes only through personal experience otherwise known as self initiation The essence of Magic is a

Magic in the Ancient Eastern Mediterranean Nina Nikki, Kirsi M.J. Valkama, 2020-12-14 *Magic in the Ancient Eastern Mediterranean* Cognitive Historical and Material Perspectives brings together articles with the shared conviction that the category of magic remains useful in religious studies and provides new insights to biblical and related texts and artifacts Historically magic has been considered in both scholarly and popular discourse to be questionable obscure and potentially subversive 19th century scholars of religion viewed magical beliefs and practices as primitive and inferior compared to Judeo Christian forms of worship which were considered true religion More

recently the category has been defended especially by scholars of the cognitive science of religion who find it useful for delineating a set of beliefs and practices fundamental to all forms of religion The volume joins current scholarship in refraining from using the concept as an othering device and in arguing that it can still serve as a helpful analytical tool In addition to analyzing the discourse on magic in both ancient literature and modern scholarship the articles provide individual examples of how literary and material culture attest to the existence of magical beliefs and practices in sources from the Ancient Near East to the Byzantine Period The book is divided into three parts The contributions in the first part approach magic from the theoretical perspective of cognitive studies ritual studies and cultural evolution while the rest of the book focuses on how magic and magicians are understood in ancient sources The second part discusses a specific set of textual material dealing with blessings and curses The third part of the volume discusses the world of various destructive celestial beings from which one and one's loved ones had to be defended as well as the multitude of protective beings such as angels

Masterworks of God M. Francis Mannion, 2003 *Masterworks of God: Essays in Liturgical Theory and Practice* by M. Francis Mannion 2007 *The Scent of Ancient Magic* Britta K. Ager, 2022-04-27 Magic was a fundamental part of the Greco-Roman world Curses, erotic spells, healing charms, divination, and other supernatural methods of trying to change the universe were everyday methods of coping with the difficulties of life in antiquity While ancient magic is most often studied through texts like surviving Greco-Egyptian spellbooks and artifacts like lead curse tablets for a Greek or Roman magician, a ritual was a rich sensual experience full of unusual tastes, smells, textures, and sounds, bright colors, and sensations like fasting and sleeplessness Greco-Roman magical rituals were particularly dominated by the sense of smell, both fragrant smells and foul odors Ritual practitioners surrounded themselves with clouds of fragrant incense and perfume to create a sweet and inviting atmosphere for contact with the divine, and to alter their own perceptions they also used odors as an instrumental weapon to attack enemies and command the gods Elsewhere, odiferous herbs were used equally as medical cures and magical ingredients In literature, scent and magic became intertwined as metaphors, with fragrant spells representing the dangers of sensual perfumes and conversely, smells acting as a visceral way of envisioning the mysterious action of magic *The Scent of Ancient Magic* explores the complex interconnection of scent and magic in the Greco-Roman world between 800 BCE and CE 600, drawing on ancient literature and the modern study of the senses to examine the sensory depth and richness of ancient magic Author Britta K. Ager looks at how ancient magicians used scents as part of their spells to put themselves in the right mindset for an encounter with a god or to attack their enemies through scent Ager also examines the magicians who appear in ancient fiction like Medea and Circe and the more metaphorical ways in which their spells are confused with perfumes and herbs This book brings together recent scholarship on ancient magic from classical studies and on scent from the interdisciplinary field of sensory studies in order to examine how practicing ancient magicians used scents for ritual purposes, how scent and magic were conceptually related in ancient literature and culture, and how the assumption that strong scents

convey powerful effects of various sorts was also found in related areas like ancient medical practices and normative religious ritual

Violence Without God Joyce Wexler, 2017-01-01 As twentieth century writers confronted the political violence of their time they were overcome by rhetorical despair Unspeakable acts left writers speechless They knew that the atrocities of the century had to be recorded but how A dead body does not explain itself and the narrative of the suicide bomber is not the story of the child killed in the blast In the past communal beliefs had justified or condemned the most horrific acts but the late nineteenth century crisis of belief made it more difficult to come to terms with the meaning of violence In this major new study Joyce Wexler argues that this situation produced an aesthetic dilemma that writers solved by inventing new forms Although Symbolism Expressionism Modernism Magic Realism and Postmodernism have been criticized for turning away from public events these forms allowed writers to represent violence without imposing a specific meaning on events or claiming to explain them Wexler's investigation of the way we think and write about violence takes her across national and period boundaries and into the work of some of the greatest writers of the century among them Joseph Conrad T S Eliot D H Lawrence James Joyce Alfred Döblin Günter Grass Gabriel García Márquez Salman Rushdie and W G Sebald
