**January/February 2018** J. Douglas Kenyon, In this Issue NASA CONCEDES PLANET 9 PROBABLY REAL The late Zecharia Sitchin is probably cheering these days In October 2017 NASA publicly conceded that in all likelihood the Solar System has a ninth planet Sitchin's scenario of a planet Nibiru making periodic returns to Earth's neighborhood to tinker with human history may not quite fit with NASA's view of a massive body on a vast orbital path as yet untracked Yet still many of the elements Sitchin said he had decoded from ancient Sumerian cuneiform texts seem to be present in the now favored ninth planet theory ARCHAEOLOGICAL SHOCKER FIRST AMERICANS WERE HERE OVER 130 THOUSAND YEARS AGO The idea

that modern humans or even Neanderthals could have been present in America over twelve thousand years ago has long been controversial and discoveries which support that argument have been denied discredited or disregarded by conventional science Extraordinary new findings in California however are making the case that more than 130 thousand years ago someone used stone tools to break the bones of mastodons The intent it is speculated would have been to extract the nutritious bone marrow According to archaeologist Steven Holen as reported by the prestigious science website NewScientist com the evidence is fairly conclusive CANADIANS OVER 13 THOUSAND Score another point for mythology over science For thousands of years the indigenous Heiltsuk Nation of British Columbia has relayed an oral tradition from generation to generation that its ancestors escaped the harsh conditions of the Ice Age on a temperate island off the coast of Canada Now archaeologists once convinced that no humans were in North America before 12 000 years ago are facing powerful new evidence that the Heiltsuk may have been right all along TASMANIAN TIGERS STILL AROUND While public debate over the existence of bigfoot rages on see Todd Prescott s article on page 32 in this issue another species declared extinct by the powers that be is making signs of reappearing CYBORG EYES In the 1984 movie The Terminator a Cyborg a being with both organic and biomechatronic body parts from the future played by Arnold Swartzenegger searches for the mother of a yet to be born hero who will be a scourge to the robots who rule that world to come It was all science fiction of course but the memorable artificial eyes of the Terminator could turn out to be more fact than fiction IS CHINA MAKING IMPOSSIBLE SPACE DRIVE In the race to develop the EM Drive China may have moved ahead of the U S The mysterious and some would say impossible space drive technology successfully tested recently by NASA has been converted by Chinese scientists into a working prototype That at least is the claim of the Chinese propaganda ministry AMERICANS BELIEVE IN ADVANCED ANCIENT CIVILIZATION For anyone wondering how a magazine like Atlantis Rising could even exist the answer may be found in a new survey from Chapman University In an October 2017 poll on Paranormal Beliefs Chapman found that 55% of the public agree or strongly agree with the statement Ancient advanced civilizations such as Atlantis once existed ALTERNATIVE SCIENCE GLOBAL WEIRDING Catastrophic Weather Global Warming BY SUSAN B MARTINEZ Ph D Here in Georgia the lights went out on September 11 when Hurricane Irma came roaring through Not only were they back to back storms Harvey Irma Jose Maria etc but in those same terrifying weeks Mexico was hit with three mighty earthquakes All too predictably the hurricanes were blamed on global warming But could they also blame the quakes on warming They ve tried ANCIENT MYSTERIES ATLANTIS THE RELIGIOUS Do We Know What the Natives Believed BY FRANK JOSEPH Atlantis Rising readers have learned much over the last twenty three years about the geological fate and checkered history of the sunken civilization from which our magazine derives its name But no less significant were less appreciated religious convictions that it is said characterized the lost kingdom because they not only survived its destruction but were carried by its survivors to the outside world where they influenced the belief systems of post deluge cultures even to the present day

ANCIENT WISDOM EGYPTIAN MYSTERIES TURIN S GOLDEN RULE The Ancient Geometers Were Far Ahead of Their Time and of Ours BY THOMAS DIETRICH An obscure Egyptian artifact in the Egyptian museum of Turin Italy provides remarkable evidence that the builders of the Great Pyramid whoever they were possessed deep insight into the meaning of the Golden Rule PUBLISHER S LETTER BY J DOUGLAS KENYON RECLAIMING THE LOST SECRETS OF A GODDESS In Atlantis Rising 124 July August 2017 author Steven Sora made the point that the myth of Hercules was probably based on some real person who made his heroic mark before the dawn of recorded history as we know it Steve described a number of elements in the Hercules story that seem to imply it has a factual basis Homer s tale of Ulysses for example has been connected to the twelve labors of Hercules Both stories feature special links to the stars suggesting that in some forgotten civilization from before the end of the Ice Age Atlantis perhaps both heroes might have been the same person **The Great Festival** Olav Harsløf,2020-03-18 The Great Festival presents and analyzes two historical festivals the ancient Dionysus Festival and the present Roskilde Festival The purpose is to set up two comparable structures or codes to explain the universal artistic effects structures and fascination of the festival Olav Harsløf argues that there are major structural organizational and economic similarities which when exposed can give us greater insight into today s festivals This is illuminated through a combined performance design and event analysis of the ancient Dionysus festival and today s Roskilde Festival explaining the festival s historicity diversity complexity and paradigmatic strength This will be a discussion of great interest to researchers and students in the fields of performance studies experience economy theater music classical philology and archeology **The Venus Blueprint** Richard Merrick,2012-05-22 In 2010 Richard Merrick took a family trip to Scotland s Rosslyn chapel the enigmatic fifteenth century temple made famous by Dan Brown s The Da Vinci Code Little did he know he was about to embark upon an intellectual and personal journey that would lead to the discovery of a real life lost symbol one that reveals the connection between the world s most sacred temples and opens up a treasure trove of lost science and ancient secrets The symbol he discovers the Venus Blueprint is based on that planet s orbital pattern which takes the shape of a five pointed star when seen from Earth As Merrick digs deeper he realizes the Venus Blueprint was an integral part of the design template of some of the most significant religious architecture around the world including St Peter s Basilica in the Vatican the Roman Pantheon the Greek Parthenon the Temple of Jerusalem and the Great Pyramid of Giza as well as many buildings designed by the secretive Freemason society Upon further examination Merrick is astounded to discover that temples designed using the Venus Blueprint are endowed with extraordinary acoustics that when supplied with the right tones and frequencies are capable of harmonizing with Earth s resonant frequencies and evoking altered states of consciousness He then proposes a fascinating idea Could it be that the ancients used these harmonics to enhanceentheogenically induced visions to commune with the divine and liberate the gods within Supported by an impressive array of historical research and scientific analysis The Venus Blueprint offers compelling evidence of an ancient lost culture that was both spiritually and

scientifically advanced      **End Times to 2019** David Montaigne,2013-01-09 Does the end of the Mayan Calendar start the countdown to Judgment Day Biblical and historical researcher David Montaigne concludes that this is the case He says that the end of the Mayan Long Count is the official start of the Bible s seven year tribulation both were focused on the same astronomical events that occur from 2012 to 2019 The world as we know it will be gone by 2020 Texts from ancient India tell us about great cycles of destruction The Egyptians told the same basic story with different names The Maya reveal another version of the story and were very clear about the timing of events from December 2012 to 2019 Your average American is no expert on these cultures but most people do have a Bible at home and the clearest details on what is about to happen can be found in the Bible if you don t let someone else tell you which parts you should focus on No this isn t what you were taught in Sunday school Religious leaders guide us between the raindrops of curious comments in the Bible We are discouraged from focusing on the parts they say we weren t meant to understand But if we stop glossing over these important passages we will understand a flood of details about the End Times Our leaders are not ignorant of these events The elite already know what is about to happen and they have made preparations most rational people would not believe because evidence is suppressed to avoid chaos They want us to remain ignorant or at least to believe that the details are secrets that cannot be known But the coming events and their timing are not secrets Years ago this book s publication would not have been tolerated by those in power But by now it doesn t matter much their plans are not going to be interfered with at this point Your plans however can still be formulated if you make the choice to understand Topics include Bible Prophecy Matthew 24 36 Knowing the hour and the day The Mayan Calendar and Mythology Pole Shifts Galactic Superwaves Ancient Egypt Ancient India World Mythology The Georgia Guidestones The real Star of Bethlehem and the exact birthday of Christ Calculating the Second Coming and Judgment Day more      **Ghosts of Atlantis** J. The new edition has expanded coverage of the post-Classical period with major expansions in the areas of Hellenistic history, literature, and philosophy. **Potter's American Monthly**, 1879. **Thinking about the Elgin Marbles: Critical Essays on Cultural Property, Art and Law**, John Merryman, 2000-05-19. This book begins with a critical reexamination of the rival Greek and British claims to the Elgin Marbles. That case study identifies the questions that still dominate the growing international debate about cultural property policy and are explored in subsequent essays. Why do people care about cultural property? Is cultural nationalism a sound organizing principle for dealing with cultural property questions? Or is it a relic of 19th-century romanticism kept alive by the power of Byron's poetry? How can cultural nationalism be rationalized with the idea that works of art and antiquities are the cultural heritage of all mankind? What alternative ways are there of thinking about cultural property policy and law? The author examines in particular the law and policy relating to cultural property export controls and the evolution and development of the 1995 UNIDROIT Convention on the Return of Stolen and Illegally Exported Cultural Property. In the second part of the book, the author addresses a number of contemporary art law issues in essays on counterfeit art, the moral rights of artists, the artist's resale right (*droit de suite*), the litigation over the Mark Rothko estate, and problems of museum trustee negligence, conflict of interests, and misuse of inside information. The author, a Professor of Art Law at Stanford University, is a leading international figure in cultural property and art law circles.
