reformers set their sights on the growing Mexican community in Los Angeles. Experimenting with a variety of policies on health, housing, education, and labor, these reformers, settlement workers, educationalists, Americanizers, government officials, and employers attempted to transform the Mexican community with a variety of distinct and often competing agendas. In *Race, Place, and Reform in Mexican Los Angeles*, Stephanie Lewthwaite presents evidence from a myriad of sources that these varied agendas of reform consistently supported the creation of racial, ethnic, and cultural differences across Los Angeles. Reformers simultaneously promoted acculturation and racialization, creating a landscape of difference that significantly shaped the place and status of Mexican immigrants and Mexican Americans from the Progressive era through the New Deal. The book journeys across the urban, suburban, and rural spaces of Greater Los Angeles as it moves through time and examines the rural-urban migration of Mexicans on both a local and a transnational scale. Part 1 traverses the world of Progressive reform in urban Los Angeles, exploring the link between the region's territorial and industrial expansion, early campaigns for social and housing reform, and the emergence of a first-generation Mexican immigrant population. Part 2 documents the shift from official Americanization and assimilation toward nativism and exclusion. Here, Lewthwaite examines competing cultures of reform and the challenges to assimilation from Mexican nationalists and American nativists. Part 3 analyzes reform during the New Deal, which spawned the active resistance of second-generation Mexican Americans. *Race, Place, and Reform in Mexican Los Angeles* achieves a full, broad, and nuanced account of the various and often contradictory efforts to reform the Mexican population of Los Angeles. With a transnational approach grounded in historical context, this book will appeal to students of history, cultural studies, and literary studies.

Psychologies in Revolution Hannah Proctor, 2020-01-13 This book situates the work of the Soviet psychologist and neurologist Alexander Luria (1902-1977) in its historical context and explores the romantic approach to scientific writing developed in his case histories. Luria consistently asserted that human consciousness was formed by cultural and historical experience. He described psychology as the science of social history, and his ideas about subjectivity, cognition, and mental health have a history of their own. Lines of mutual influence existed between Luria and his colleagues on the other side of the iron curtain, but *Psychologies in Revolution* also discusses Luria's research in relation to Soviet history from the October Revolution of 1917 through the collectivisation of agriculture and Stalinist purges of the 1930s to the Second World War and finally the relative stability of the Brezhnev era, foregrounding the often marginalised people with whom Luria's clinical work brought him into contact. By historicising science and by focusing on a theoretical approach which itself emphasised the centrality of social and political factors for understanding human subjectivity, the book also seeks to contribute to current debates in the medical humanities.

[The Mexico Reader](#) Gilbert M. Joseph, Timothy J. Henderson, 2022-08-29 *The Mexico Reader* is a vivid and comprehensive guide to *muchos M xicos*, the many varied histories and cultures of Mexico. Unparalleled in scope, it covers pre-Columbian times to the present, from the

extraordinary power and influence of the Roman Catholic Church to Mexico's uneven postrevolutionary modernization from chronic economic and political instability to its rich cultural heritage. Bringing together over eighty selections that include poetry, folklore, photo essays, songs, political cartoons, memoirs, journalism, and scholarly writing, this volume highlights the voices of everyday Mexicans: indigenous peoples, artists, soldiers, priests, peasants, and workers. It also includes pieces by politicians and foreign diplomats, by literary giants Octavio Paz, Gloria Anzaldúa, and Carlos Fuentes, and by and about revolutionary leaders Pancho Villa and Emiliano Zapata. This revised and updated edition features new selections that address twenty-first century developments, including the rise of narcopolitics, the economic and personal costs of the United States mass deportation programs, the political activism of indigenous healers and manufacturing workers, and the impact of the COVID-19 pandemic. The Mexico Reader is an essential resource for travelers, students, and experts alike.

List of Latin American History and Description in the Columbus Memorial Library Columbus Memorial Library, 1907. [Tokharian Tales](#) Jason Murk, 2007-05. Tokharian Tales is a collection of post-futuristic, seemingly science-fictional short stories set on an Earth that is being abandoned, including a love story about a scientist who falls in love with a ghost, a romance that goes horribly wrong on the floating bridge between Hawaii and Viva Mexico, a story set in the Outzone, the dark underbelly of the internet, a retro-futuristic novella about a quixotic social anarchist who dreams of spaceships, during her datura trances, storybook tales for 67th-century children about robots and replicants, osterlings, and Oospheroids, and the adventure of Shridmar Joe Hovercifer Pro in the most dangerous dance of a strange game you've ever played. Thousand years ago, the Tokharians lived in a lush oasis with orchards and vineyards where they grew gourds and peaches, melons, and grapes. They had iron-smelting furnaces and Buddhist stupas. Merchants rested under mulberry trees, and in the marketplace, they sold Chinese brides, Kashmir wool, Bactrian rubies, and lapis lazuli. Gone now, desert now, the oasis has dried up, and a desert wind blows sand over the shattered stupas, the stumps of mulberry trees. The Tokharians either departed or they died in the desert which overtook them. But distance yourself, the same thing is happening again as we dismantle the Earth to fly to the stars. The same desert wind blows over America, over the ruins of Santa Fe and New York City. The wats and shrines of Thailand have been unbricked, removed, and re-assembled in orbit around distant stars. Likewise, the massive Mesoamerican suntemples of Viva Mexico have been transplanted to the jungle greens and desert.
