different reading of how national literature and language was constructed Through a series of culturally nuanced readings Kim links the formation and origins of Korean language and fiction to modernity and traces its origins to the Japanese colonial period while demonstrating in a very lucid way how colonialism constitutes modernity and how all modernity is perforce colonial given the imperial crucibles from which modernist claims emerged For Kim denying this reality can only lead to violent distortions as he eschews appeals to a preexisting framework preferring instead to ground his theoretical insights in subtle innovative readings of texts themselves
