White, 1979 **Sir Edward Coke and "the Grievances of the Commonwealth," 1621-1628** Stephen D. White, 1972 *Bloodsuckers of the Commonwealth* Ellen Paterson, 2025-09-23

This book offers the first in depth analysis of anti monopoly petitioning in late Elizabethan and Jacobean England Drawing on a range of manuscript petitions it reveals the centrality of the issues of monopoly and corporatism for the politicisation of a range of subjects between 1590 1625 Both Elizabeth I and James I liberally granted monopolies and charters as a fiscal device Petitioning emerged as the main way through which subjects protested these intrusions on their trades and livelihoods Whilst this activity occurred throughout the realm it was especially pronounced in the city of London Members of London s livery companies bodies which held exclusive rights to trade petitioned for and against monopolies and charters

Bloodsuckers of the Commonwealth offers a fresh perspective on political culture in this well studied period by arguing that economic policies generated conflicts contests and participation in a nascent public sphere **Royalists and Patriots** J.P. Sommerville, 2014-06-17 This well known book reasserts the central importance of political and religious ideology in the origins of the English Civil War Recent historiography has concentrated on its social and economic causes Sommerville reminds us what the people of the time thought they were fighting about Examining the main political theories in c 17th England the Divine Right of Kings government by consent and the ancient constitution he considers their impact on actual events He draws on major political thinkers like Hobbes and Locke but also on lesser but more representative figures to explore what was new in these ideas and what was merely the common currency of the age This major new edition incorporates all the latest thinking on the subject **The Cambridge History of Early Modern English Literature** David Loewenstein, Janel M. Mueller, 2002 This 2003 book is a full scale history of early modern English literature offering perspectives on English literature produced in Britain between the Reformation and the Restoration While providing the general coverage and specific information expected of a major history its twenty six chapters address recent methodological and interpretive developments in English literary studies The book has five sections Modes and Means of Literary Production Circulation and Reception The Tudor Era from the Reformation to Elizabeth I The Era of Elizabeth and James VI The Earlier Stuart Era and The Civil War and Commonwealth Era While England is the principal focus literary production in Scotland Ireland and Wales is treated as are other subjects less frequently examined in previous histories including women s writings and the literature of the English Reformation and Revolution This history is an essential resource for specialists and students

Roger Williams and the Creation of the American Soul John M. Barry, 2012-01-05 A revelatory look at how Roger Williams shaped the nature of religion political power and individual rights in America For four hundred years Americans have wrestled with and fought over two concepts that define the nature of the nation the proper relation between church and

state and between a free individual and the state These debates began with the extraordinary thought and struggles of Roger Williams who had an unparalleled understanding of the conflict between a government that justified itself by reason of state i e national security and its perceived will of God and the ancient rights and liberties of individuals This is a story of power set against Puritan America and the English Civil War Williams s interactions with King James Francis Bacon Oliver Cromwell and his mentor Edward Coke set his course but his fundamental ideas came to fruition in America as Williams though a Puritan collided with John Winthrop s vision of his City upon a Hill Acclaimed historian John M Barry explores the development of these fundamental ideas through the story of the man who was the first to link religious freedom to individual liberty and who created in America the first government and society on earth informed by those beliefs The story is essential to the continuing debate over how we define the role of religion and political power in modern American life [The 17th and 18th Centuries](#) Frank N.
