The Truth About Lies Aja Raden,2025-10-16 Why do you believe what you believe You ve been lied to Probably a lot We re always stunned when we realize we ve been deceived We can t believe we were fooled What was I thinking How could I have believed that We always wonder why we believed the lie But have you ever wondered why you believe the truth People tell you the truth all the time and you believe them and if at some later point you re confronted with evidence that the story you believed was indeed true you never wonder why you believed it in the first place In this incisive and insightful taxonomy of lies and liars New York Times bestselling author Aja Raden makes the surprising claim that maybe you should Buttressed by history psychology and science The Truth About Lies is both an eye opening primer on con artistry from pyramid schemes to shell games forgery to hoaxes and also a telescopic view of society through the mechanics of belief why we lie why we believe and how if at all the acts differ Through wild tales of cons and marks Raden examines not only how lies actually work but also why they work from the evolutionary function of deception to what it reveals about our own In her previous book Stoned Raden asked What makes a thing valuable In The Truth About Lies she asks What makes a thing real With cutting wit and a deft touch Raden untangles the relationship of truth to lie belief to faith and deception to propaganda The Truth About Lies will change everything you thought you knew about what you know and whether you ever really know it

Do You Believe In Magic? (A Wild Thing Book) Laura Krantz,2024-10-08 Inspired by her popular Wild Thing podcast journalist Laura Krantz incorporates the scientific method and her journalistic skills to determine if magic might be real in Do You Believe in Magic Magic spells and curses hexes and potions superstition and rituals We ve all heard stories of alchemists attempting to turn abundant lead into precious rare gold Or of poor unfortunate souls asking potion masters to brew up unappetizing concoctions that will help them find love And of course we re familiar with curses muttering magical

words for the purposes of exacting revenge on an enemy or protecting a hidden treasure Who wouldn't like the idea of special powers or control over the natural world It seems pretty fun even if it's just the stuff of fantasy books and movies But a lot of what we call magic has grounding in real practices In fact magic is at the root of many scientific fields from chemistry to botany to astronomy and has been an important part of human culture for thousands of years Do You Believe in Magic takes readers through a world where magic and science collide What do they have in common Where do they differ What role has magic played in our history and the history of science Why is magic still significant even when it doesn't seem to line up with reality And is it possible to be scientifically minded and still believe in magic Readers are encouraged to weigh the facts and go beyond their gut assumptions to stretch their imaginations and think about why magic and science might be two sides of the same coin Includes color illustrations an at home science magic experiment glossary bibliography and index A Wild Thing series The Search for Sasquatch Is There Anybody Out There Do You Believe in Magic
