So Far From The Sea:

The new rules of the road at sea, the Regulations for preventing collisions at sea, 1897. With notes, by H.S. Moore
Hubert Stuart Moore,1900 Near a Far Sea Don Noel,2006 Russell Wilburn moves to a seemingly quiet small town to start a new life He buys a house that appears to be the ideal setting to begin this new venture Unfortunately strange things begin to happen Mysterious phone calls and ghostly visions lead him to believe the house is haunted He quickly develops a fascination with an old mansion a few blocks away and a cemetery further up the road It doesn't take long to discover that the mansion is inhabited by a crazy old man who is the only living descendant of a once rich and powerful family Everyone in town knows the horrific legend of the mansion Everybody knows of the tales that tie the mansion and the cemetery to Russell's new house On the surface no one admits these places are really haunted However everyone is still afraid of them The notorious spot in the cemetery is considered a children's story of a grave that doesn't exist Still he must go there to answer the questions that will rid his home of its supernatural inhabitants He must brave the infamous cemetery and the haunted mansion with its deadly resident in order to save himself from the unwanted guests in his new home There is only one person who is willing to aid in his fight to save his house and survive Unfortunately that person is already dead **Islands in a Far Sea** John L. Culliney,2005-11-30 First published in 1988 Islands in a Far Sea offers a comprehensive environmental history of Hawai'i This thoroughly revised edition begins with an up to date account of the geological formation and shaping of the Islands their colonization by plants and animals and the patterns of ecology and evolution that unfolded in nurturing seas and on breath taking landscapes This book tells the story of human interaction with Hawai'i's native landscapes and rich biological heritage The author's accessible language allows readers to grasp basic geological and biological principles and to understand the perhaps surprising vulnerability of Hawaiian ecosystems which have coevolved with volcanoes to human impact Islands in a Far Sea includes many well documented historical examples of such impacts featuring growth and greed fears and foibles as humans confronted endemic nature in Hawai'i Citing a large array of sources the author makes it possible for interested readers to probe more deeply the changes in natural systems that have ensued on all of the Hawaiian Islands To date the result has been the tragic reduction of a unique and benign biota However the book holds out hope that current efforts to protect what is left of Hawai'i's flora and fauna in their remaining wild settings may yet succeed *A Treatise on the Law of Navigable Rivers* Louis Houck,1868 *The English Illustrated Magazine: "The Gift of the Sea"* ,1912
