Today s interest in social history and private life is often seen as a twentieth century innovation Most often Lucien Febvre and the Annales school in France are credited with making social history a widely accepted way for historians to approach the past In Lost Worlds historian Jonathan Dewald shows that we need to look back further in time into the nineteenth century when numerous French intellectuals developed many of the key concepts that historians employ today According to Dewald we need to view Febvre and other Annales historians as participants in an ongoing cultural debate over the shape and meanings of French history rather than as inventors of new topics of study He closely examines the work of Charles Augustin Sainte Beuve Hippolyte Taine the antiquarian Alfred Franklin Febvre himself the twentieth century historian Philippe Ari s and several others A final chapter compares specifically French approaches to social history with those of German historians between 1930 and 1970 Through such close readings Dewald looks beyond programmatic statements of historians intentions to reveal how history was actually practiced during these years A bold work of intellectual history Lost Worlds sheds much needed light on how contemporary ideas about the historian s task came into being Understanding this larger context enables us to appreciate the ideological functions performed by historical writing through the twentieth century **A Library of the World's Best Literature - Ancient and Modern - Vol.XXVI (Forty-Five Volumes); Moli Re-Myths** Charles Dudley Warner,2008-07-01 Popular American essayist novelist and journalist CHARLES DUDLEY WARNER 1829 1900 was renowned for the warmth and intimacy of his writing which encompassed travelogue biography and autobiography fiction and more and influenced entire generations of his fellow writers Here the prolific writer turned editor for his final grand work a splendid survey of global literature classic and modern and it s not too much to suggest that if his friend and colleague Mark Twain who stole Warner s quip about how everybody complains about the weather but nobody does anything about it had assembled this set it would still be hailed today as one of the great achievements of the book world Highlights from Volume 26 include the writings of Moli re the letters of Lady Mary Wortley Montagu the political philosophy of Montesquieu the poetry of Thomas Moore the work of William Morris the nature writings of John Muir the myths and folklore of the Ayrans peoples and much much more **Microcosmus** Hermann Lotze,1888 A Dictionnary of the English Language Samuel Johnson,1773 **The World's Work** ,1915 A history of our time The American Catalogue ,1905 **A Dictionary of the English Language; in which the Words are Deduced from Their Originals; and Illustrated in Their Different Significations ...
