Tomaselli, Handel Kashope Wright, 2024-10-04 This volume provides an overview of fundamental or grounding themes in African Cultural Studies including the articulation of African cultural studies the issue of Africa's diaspora's African identity and identifications and media studies in Africa and its relationship with cultural studies The first of two volumes the book predominantly pulls together a rich reservoir of previously published articles from Critical

Arts South North Cultural and Media Studies mapping a long history of the field that draws from a diverse range of origins and locations especially from within Africa itself The first section of the book addresses how African cultural studies has been called for and explained both as a comprehensive continental and sometimes national discourse and as being in conversation with established global cultural studies The second section addresses the African diaspora and what might be termed diasporic African cultural studies A third principal theme explored is how African identities and identifications are articulated in African cultural studies On spatiality the volume takes a stance on the exclusive continental versus continuity conception of Africa the African diaspora is treated as contributory and its relationship to the continent as problematic while taking up continental Africa as the principal location of African cultural studies In terms of identity Blackness is taken up as the dominant but importantly not exclusive racial identity and identification of African cultural studies and gender and social class are also addressed in novel ways The book ends with an examination of the complex relationship between media studies and cultural studies This book will be a key resource for academics researchers and advanced students of African cultural studies media and cultural studies African studies history politics sociology and social and cultural anthropology while also being of interest to those seeking an introduction to the sub field of African cultural studies Cultural Theory and the Problem of Modernity Alan Swingewood,1998-08-24 This book presents a critical analysis of the relation between sociological theory and recent debates in cultural studies A distinctive sociological perspective is developed based on the work of Marx Weber Bourdieu and Bakhtin The book examines the problems of theorising issues such as modernity mass culture and postmodernity by advocating a historical and context based approach *Health and Modernity* David V. McQueen,Ilona Kickbusch,Louise Potvin,2007-02-05 Pandemics substance abuse natural disasters obesity and warfare these are not only health crises but social crises as well Now a panel of leaders in global health explores the vital but understudied social theories behind the practice of health promotion including cultural capital risk and causality systems theory and the dynamic between individual and community Indigenous Shona Philosophy Pascah Mungwini,2017-12-29 Some of the most provocative questions confronting philosophers in Africa are grounded in the historical memory of conquest and the peripheralisation the continent Mungwini offers a critical reconstruction of indigenous Shona philosophy as an aspect of the African intellectual heritage held hostage by colonial modernity In this comprehensive work he lays bare the thoughts of the Shona who are credited with the founding of the ancient Great Zimbabwe civilisation Retracing the epistemic thread in the fabric of Shona culture and philosophy he explores the assumptions that inform their thinking The exchange of such knowledge is fundamental to the future of humanity **The New Wealth of Cities** John Montgomery,2017-09-29 Over the past two decades city economies have restructured in response to the decline of older industries This has involved new forms of planning and urban economic development a return to traditional concerns of city building and a focus on urban design During this period there has also been a marked rise in our understanding of cultural development and its role in the design

economy and life of cities In this book John Montgomery argues that this amounts to a shift in urban development He provides a long overdue look at the dynamics of the city that is how cities work in relation to the long cycles of economic development and suggests that a new wave of prosperity built on new technologies and new industries is just getting underway in the Western world The New Wealth of Cities focuses on what effect this will have on cities and city regions and how they should react Original and wide ranging this book will be a definitive resource on city economies and urban planning explaining why it is that cities develop over time in periods of propulsive growth and bouts of decline
