Various, 2021-06-23 Mini set L Sociology of Education re issues 48 volumes originally published between 1928 and 1990 The books in this mini set discuss Teaching and social change research processes in education class race culture and education marxist perspectives in the sociology of education the family and education the sociology of the classroom and school organization *The 1960s* Philip Tew, James Riley, Melanie Seddon, 2018-07-26 How did social cultural and political events in Britain during and leading up to the 1960s shape modern British fiction The 1960s were the swinging decade a newly energised youth culture went hand in hand with new technologies expanding educational opportunities new social attitudes and profound political differences between the generations This volume explores the ways in which these apparently seismic changes were reflected in British fiction of the decade Chapters cover feminist writing that fused the personal and the political gay lesbian and immigrant voices and the work of visionary experimental and science fiction writers A major critical re evaluation of the decade this volume covers such writers as J G Ballard Anthony Burgess A S Byatt Angela Carter John Fowles Christopher Isherwood Doris Lessing Michael Moorcock and V S Naipaul **Research Handbook on Curriculum and Education** Elizabeth Rata, 2024-04-12 This incisive Handbook brings together a wealth of innovative research from international curriculum and education experts to ask the question what knowledge should be taught in school how should it be taught and for what purpose *Pupil Disaffection in Schools* Sarah Swann, 2016-04-15 Sarah Swann provides a fresh approach to examining the long standing debates over disaffection and in particular social class differences in educational achievement through a mixed methods methodology and the showcasing of new research By observing pupils as they engage with peers and teachers in school Swann allows disaffection to be seen and heard in real events which constructs disaffection differently from objective statistical evidence on school exclusions Rather than a homogenous identity this book illustrates disaffection as layered and resting on a series of issues located on the crossroads between the cultural context of the neighbourhood and the public sphere of the school It plots in a detailed way how these structures interact and mesh to create disaffected identities Disaffection does not emerge in a vacuum or without a cause Pupils arrive at school with a wide variety of experiences and it is from these that they interpret understand and act out their identities Whilst the study in part seeks to describe and understand the social world of the school in terms of the pupils interpretations of the situation it analytically frames the perceptions of pupils within a wider social context In particular it focuses on the relationships between schooling and the wider macro structures and social relations that underpin disaffection This approach makes the research both critical and interpretative and also able to shed new light on educational policy across England based on an understanding of the
