*Prohibition and Bootlegging in the American West* Jeremy Agnew, 2022-10-25 Prohibition was imposed by eager temperance movements organizers who sought to shape public behavior through alcoholic beverage control in the 19th and early 20th centuries The success of reformers efforts resulted in National Prohibition in America from 1920 to 1933 but it also resulted in a thriving illegal business in the manufacture and distribution of illegal liquor The history of Prohibition and the resulting illegal drinking is frequently told through the lens of crime and violence in Chicago and other major East Coast cities Often neglected are the effects of Prohibition on the Western part of the United States and how Westerners rose to the challenge of avoiding the consequences of illegal drinking Illegal liquor was imported from abroad made in stills using strange ingredients that were sometimes poisonous to the unlucky drinker This history includes stories ranging from serious to quirky and provides an entertaining account of how misguided efforts resulted in numerous unintended consequences

*Walker* Tom Walsh, 2007-07-01 When Walker first steps onto the road he has no thoughts no history no memories and no clothes As he travels and meets people and learns from them he comes to know more about life living and becoming the person he s meant to be Walker is a parable for all of us who wonder what might be the purpose of life why bad things happen with almost as much regularity as good things and how we can learn from the bad examples and experiences in our lives as much as we can learn from the good things Tom Walsh s parable is a story of the ages a timeless exploration of ideas and thoughts that all of us wonder about a sincere and heartfelt portrait of a man who has no past and no future but who learns to make the most of each precious present moment as it comes

MacArthur's Korean War Generals Stephen R. Taaffe, 2016-03-14 Wedged chronologically between World War II and

Vietnam the Korean War which began with North Korea's invasion of South Korea in June of 1950 possessed neither the virtuous triumphalism of the former nor the tragic pathos of the latter. Most Americans supported defending South Korea but there was considerable controversy during the war as to the best means to do so and the question was at least as exasperating for American army officers as it was for the general public. A longtime historian of American military leadership in the crucible of war, Stephen R. Taaffe takes a close critical look at how the highest ranking field commanders of the Eighth Army acquitted themselves in the first decisive year in Korea. Because an army is no better than its leadership, his analysis opens a new perspective on the army's performance in Korea and on the conduct of the war itself. In that first year the Eighth Army's leadership ran the gamut from impressive to lackluster, a surprising unevenness since so many of the high ranking officers had been battle tested in World War II. Taaffe attributes these leadership difficulties to the army's woefully unprepared state at the war's start, army personnel policies, and General Douglas MacArthur's corrosive habit of manipulating his subordinates and pitting them against each other. He explores the personalities at play, their pre-war experiences, the manner of their selection, their accomplishments and failures, and of course their individual relationships with each other and MacArthur. By explaining who these field corps and division commanders were, Taaffe exposes the army's institutional and organizational problems that contributed to its up and down fortunes in Korea in 1950-1951. Providing a better understanding of MacArthur's controversial generalship, Taaffe's book offers new and invaluable insight into the army's life and death struggle in America's least understood conflict. *Walker's Hand-book of Ireland*, James Godkin, 1873

**The Overflowing of Friendship** Richard Godbeer, 2009-01-12 When eighteenth century American men described with a swelling of the heart their friendships with other men, addressing them as lovely boy and dearly beloved, celebrating the ardent affection that knit their hearts in indissoluble bonds of fraternal love, their families, neighbors, and acquaintances would have been neither surprised nor disturbed. Richard Godbeer's groundbreaking new book examines loving and sentimental friendships among men in the colonial and revolutionary periods. Inspired in part by the eighteenth century culture of sensibility and in part by religious models, these relationships were not only important to the personal happiness of those involved but also had broader social, religious, and political significance. Godbeer shows that in the aftermath of Independence, patriots drafted a central place for male friendship in their social and political blueprint for the new republic. American revolutionaries stressed the importance of the family in the era of self-government, reimagining it in ways appropriate to a new and democratized era. They thus shifted attention away from patriarchal authority to a more egalitarian model of brotherly collaboration. In striving to explore the inner emotional lives of early Americans, Godbeer succeeds in presenting an entirely fresh perspective on the personal relationships and political structures of the period. Scholars have long recognized the importance of same-sex friendships among women, but this is the first book to examine the broad significance ascribed to loving friendships among men during this formative period of American history. Using an array of

personal and public writings *The Overflowing of Friendship* will transform our understanding of early American manhood as well as challenge us to reconsider the ways we think about gender in this period
