Blackbeard, the Pirate Vs the Outer Banks Boy from Nowhere Gardner Martin Kelley,2011-12 This story happened between 1714 and 1718 In this story of mine I have changed the way that Blackbeard was supposed to be killed and the story I have written just might be the way Blackbeard died I have tried to put together a story from what I have read and what I have learned on the waterways from my adventures and experiences of living and traveling on the water The Outer Banks are filled with the fruits of God s larder One had only to use skill and daring moves to survive in these days on the waterways The story starts as Blackbeard the pirate glared across the campfire The boy hidden in the bushes that could not be seen was scared There would be no mercy for him if he was discovered He learned how to hide and spy on his enemies from the Indian s on the Outer Banks The boy had just turned 14 years old he was looking across the fire at Blackbeard and is motley crew in the background What his eyes focused on was the prettiest thing he had ever seen She was partly dressed in a gown of blue and trimmed with silver Her dark eyes flashed in defiance to what the pirate was saying Her pretty red lips snarled in scorn and how much ransom do you think you will get if you have your way with me and then throw me to your crew The smoke from the fire baffled and the boy took this time to back away and get out of the bushes He made himself a promise he would free this captive for himself or his bones would lie forever in the sands along the shore Now he would try to prove his manhood

**The Hi-Jack of the Trump "Princess"** Capt. **Escape from the Atomic Fallout** Gardner Martin Kelley, 2013-07 The author along with his wife and two young grandsons are stranded at his almost bomb proof hunting camp in Marion Maine after a severe snow storm blocks the roads Unknown to the fact that there has been a disaster and all are dead the captain travels by snowshoes to investigate

Rather than join his neighbors in death he must get himself his wife and the two boys on a long and dangerous cruise The spindrift spray slashed across the windows of the pilot house The rugged boat built for such weather dove into the waves and up she rose higher and higher then down to stop with a crash and shudder Captain Kelley at the wheel watched the compass heading like a hawk keeping the vessel headed into the waves was a must If the boat rolled off course and got hit on the side by a wave it could be the end The heavy ice coating aloft in the rigging would not allow a quick rise His tired eyes peered again at the compass and then looked ahead into the darkness How anxiously he awaited daylight and the sun to melt off the ice from the rigging What was he doing out here on the ocean in the winter storm The answer to that question of course is the following interesting sea story The Escape from the Atomic Fallout The rugged sea captain with his wife and two young grandsons went on a visit to his Maine hunting camp in late November and are stranded by atomic bomb fallout They must get from the frigid cold weather to the warmer climate further down south The preparations and start in a boat must be made from Lubec Maine to the east coast of North Carolina near Cape Lookout Lighthouse

**The Cape Hatteras Lighthouse** Dawson Carr, 2012-09-01 Since 1871 the Cape Hatteras lighthouse has been a welcome sight for sailors entering the treacherous region off North Carolina's Outer Banks known as the Graveyard of the Atlantic At 208 feet high it is the tallest lighthouse in the country and one of the state's most famous landmarks Through the years it has withstood the ravages of both humans and nature weathering numerous violent storms and two wars But perhaps the gravest threat the structure faced in recent history was the erosion of several hundred yards of beach that once stood between it and the ocean As powerful tides and rising sea levels increasingly endangered the lighthouse's future North Carolinians debated fiercely over how best to save it eventually deciding on a controversial plan to move the beacon inland to safety First published by UNC Press in 1991 this book tells the story of the noble lighthouse from its earliest history to the present day In this new edition Dawson Carr details the recent relocation of the treasured landmark For now it seems North Carolinians have succeeded in protecting their lighthouse as it has protected them for over a century *Operation Coastal Shield*
